

1987 JAIL PROFILE DATA SUMMARY

Jail Planning and Construction Division

BOARD OF CORRECTIONS

REVISED 1987 JAIL PROFILE DATA SUMMARY

AVERAGE DAILY POPULATION

The jail population in California continues to rise. There were 60,802 prisoners, on the average, in county jails in California (excluding Type I facilities) in 1987. This represents a 41% increase since February 1984 and 9.4% over 1986 (see Table 1). This increase in population is higher than the population projected in the November 1984 "State of the Jails Report." In that report, it was projected that jail populations would continue to rise to a 1988-89 projection of 53,000 persons.

The statewide average daily population (ADP) totals include 53,903 males (89%) and 6,899 females (11%). The overall distribution of male and female prisoners has remained fairly constant in county jails for the past decade.

There were 28,528 pretrial inmates (47%) and 32,274 (53%) sentenced inmates. The pretrial category included 90% (25,636) males and 10% (2,892) females. The vast majority of sentenced inmates were also males--88% (28,267). Twelve percent (4,007) were females (see Table 2).

There were a total of 32 juveniles held, on the average, in adult detention facilities (excluding Type I facilities) in 1987. Twenty-one of the juveniles were held in Los Angeles County. The number of juveniles held in county jails in 1987 increased 23% compared to 1986 when a total of 26 juveniles were detained in adult detention facilities.

JAIL BOOKINGS

The Jail Profile Data Summary also collects data on the total number of pretrial bookings and sentenced commitments to county jails. The total number of bookings statewide in calendar year 1987 was 1,332,463, up 40,360 (3.1%) from 1986.

Of the total number of bookings for 1987, 77% were pretrial and 23% were sentenced. This ratio may understate the percentage of pretrial bookings. A number of counties' pretrial/sentenced ratios are based on a four-day sample (see Table 3).

AVERAGE LENGTH OF STAY

The statewide average length of stay per booking (including both pretrial and sentenced bookings) based on the calendar year 1987 data was 16.7 days (see Table 4). This is higher than the 15.7 days recorded for 1986, the 14.9 days reported for 1985 and the 14.2 days shown in the November 1984 "State of the Jails Report."
