# JAIL PROFILE SURVEY

## EXPLANATION OF RESULTS

The following link titles contain the Jail Profile Survey results for the second quarter of the calendar year 2007. Quarterly Totals contains the second quarter totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The next six (6) link titles show the trend data for variables we have been tracking for the last ten years (Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP). The remainder of this page provides explanations and clarifications of the data presented.

### Quarterly Totals link

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 83,564 inmates per day in local jails (excluding Type I’s) during the three-month span of April thru June 2007.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for April, May, and June.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., May 15, 2007); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- “Assaults” is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the second quarter of calendar year 2007.

### Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP links

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

**Interpretation of Table:**  
**JAIL POPULATIONS: 2<sup>nd</sup> Qtr Calendar Year '06 versus 2<sup>nd</sup> Qtr Calendar Year '07**

This table:

- summarizes the ADP results for the 61 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 3,562) and "total decrease" in ADP (-707). In other words, the jurisdictions experiencing increases had a total increase of 3,562 ADP; and the jurisdictions experiencing decreases had a total decrease of 707 ADP. Subtracting 707 from 3,562 produces the overall increase of 2,855 between the second quarter of calendar year 2006 and the second quarter of calendar year 2007.
2. The Los Angeles County ADP increase of 881 is 24.7% of the total increase of 3,562. Thirty-four jurisdictions had increases (down to Napa County Corrections) with no jurisdictions reporting no increase. When you get to Napa County Corrections, you have accounted for 100% of the increases (100% of the cumulative total of 3,562).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Sierra County Sheriff's Department to San Diego County Sherriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 707 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Los Angeles County Sheriff's Department to Orange County Sheriff's Department) is 57.2%. In other words, four jurisdictions accounted for over 57% of the total ADP increase. Four jurisdictions (Monterey County Sherriff's Department, Santa Clara Probation, Fresno County Sheriff's Department and San Diego County Sheriff's Department) account for almost 57% of the decreases.
