# JAIL PROFILE SURVEY

## EXPLANATION OF RESULTS

The following link titles contain the Jail Profile Survey results for the third quarter of the calendar year 2009. **Quarterly Totals** contains the third quarter totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The next six (6) link titles show the trend data for variables we have been tracking for the last ten years (**Average Number of Persons Booked**, **Average Length of Stay**, **Average Daily Population**, **Percentage Non-Sentenced**, **Non-Sentenced ADP**, and **Sentenced ADP**). The remainder of this page provides explanations and clarifications of the data presented.

### **Quarterly Totals** link

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 81,456 inmates per day in local jails (excluding Type I’s) during the three-month span of July thru September 2009.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for July, August, and September.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., August 15, 2009); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- “Assaults” is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the third quarter of calendar year 2009.

### **Average Number of Persons Booked**, **Average Length of Stay**, **Average Daily Population**, **Percentage Non-Sentenced**, **Non-Sentenced ADP**, and **Sentenced ADP** links

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months.

**Interpretation of Table:**  
**JAIL POPULATIONS: 3<sup>rd</sup> Qtr Calendar Year '08 versus 3<sup>rd</sup> Qtr Calendar Year '09**

This table:

- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 1,078) and "total decrease" in ADP (-2,370). In other words, the jurisdictions experiencing increases had a total increase of 1,078 ADP; and the jurisdictions experiencing decreases had a total decrease of 2,370 ADP. Subtracting 1,078 from 2,370 produces the overall decrease of 1,292 between the third quarter of calendar year 2008 and the third quarter of calendar year 2009.
2. The San Bernardino County Sheriff's Department ADP increase of 326 is 30.24% of the total increase of 1,078. Twenty-four jurisdictions had increases (down to Siskiyou County Sheriff's Department) with three jurisdictions reporting no increase (San Benito Sheriff's Department, Mariposa County Sheriff's Department, and Calaveras County Sheriff's Department). When you get to Siskiyou County Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 1,078).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Amador County Sheriff's Department to Orange County Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 2,370 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (San Bernardino County Sheriff's Department, Los Angeles County Sheriff's Department, Contra Costa County Sheriff's Department and Imperial County Sheriff's Department) is 64.75%. In other words, four jurisdictions accounted for almost 65% of the total ADP increase. Four jurisdictions (San Diego County Sheriff's Department, Fresno County Sheriff's Department, Santa Clara Department of Correction, and Orange County Sheriff's Department) account for over 62% of the decreases.
