# JAIL PROFILE SURVEY

## EXPLANATION OF RESULTS

The following link titles contain the Jail Profile Survey results for the first quarter of the calendar year 2010. Quarterly Totals contains the first quarter totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The next six (6) link titles show the trend data for variables we have been tracking for the last ten years (Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP). The remainder of this page provides explanations and clarifications of the data presented.

### Quarterly Totals link

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 73,993 inmates per day in local jails (excluding Type I’s) during the three-month span of January thru March 2010.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for January, February, and March.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., February 15, 2010); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- “Assaults” is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the first quarter of calendar year 2010.

### Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP links

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

The Average Daily Population (ADP) for the first quarter of 2010 reflects a 5.64% decrease from the fourth quarter of 2009. The ADP for the first quarter of 2010 is 8.81% lower than the first quarter of 2009 reflecting a continuation of the downtrend in ADP that peaked in 2007. The significant decrease in ADP for the first quarter may be attributed to the enactment of Senate Bill 18, effective January 2010, amending Penal Code Section 4019 which increased good and work time credits for certain non-violent offenders.

**Interpretation of Table:**  
**JAIL POPULATIONS: 1<sup>st</sup> Qtr Calendar Year '09 versus 1<sup>st</sup> Qtr Calendar Year '10**

This table:

- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 338) and "total decrease" in ADP (7,487). In other words, the jurisdictions experiencing increases had a total increase of 338 ADP; and the jurisdictions experiencing decreases had a total decrease of 7,487 ADP. Subtracting 7,487 from 338 produces the overall decrease of 7,149 between the first quarter of calendar year 2009 and the first quarter of calendar year 2010.
2. The Butte County Sheriff's Department ADP increase of 99 is 22.1% of the total increase of 338. Twelve jurisdictions had increases (down to San Luis Obispo County Sheriff's Department) with three jurisdictions reporting no increase. When you get to San Luis Obispo County Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 338).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Calaveras County Sheriff's Department to Los Angeles County Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 7,487 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Butte County Sheriff's Department to Placer County Sheriff's Department) is 73.96%. In other words, four jurisdictions accounted for almost 74% of the total ADP increase. Four jurisdictions (Sacramento County Sheriff's Department, Fresno County Sheriff's Department, Orange County Sheriff's Department, and Los Angeles County Sheriff's Department) account for 52% of the decreases.
