JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following link titles contain the Jail Profile Survey results for the fourth quarter of the calendar year 2010. Quarterly Totals contains the fourth quarter totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The next six (6) link titles show the trend data for variables we have been tracking for the last ten years (Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP). The remainder of this page provides explanations and clarifications of the data presented.

Quarterly Totals link

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 72,306 inmates per day in local jails (excluding Type I’s) during the three-month span of October thru December 2010.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for October, November, and December.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2010); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- “Assaults” is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the fourth quarter of calendar year 2010.
- Note: Totals are subject to slight variation due to rounding.

Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP links

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months.

Interpretation of Table:
JAIL POPULATIONS: 4th Qtr Calendar Year '09 versus 4th Qtr Calendar Year '10

This table:

- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 932) and "total decrease" in ADP (-7,045). In other words, the jurisdictions experiencing increases had a total increase of 932 ADP; and the jurisdictions experiencing decreases had a total decrease of 7,045 ADP. Subtracting 932 from 7,045 produces the overall decrease of 6,113 between the fourth quarter of calendar year 2009 and the fourth quarter of calendar year 2010.
2. The Orange County Sheriff's Department ADP increase of 552 is 59.23% of the total increase of 932. Eighteen jurisdictions had increases (down to Marin County Sheriff's Department) with one jurisdiction reporting no change (Butte County Sheriff's Department). When you get to Marin County Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 932).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Madera County Corrections Department to Los Angeles County Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 7,045 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Orange County sheriff's Department, Contra Costa County Sheriff's Department, Kern County Sheriff's Department and Imperial County Sheriff's Department) 83.69%. In other words, four jurisdictions accounted for almost 84% of the total ADP increase. Four jurisdictions (Alameda County Sheriff's Department, Santa Clara County Corrections Department, Fresno county Sheriff's Department, and Los Angeles County Sheriff's Department) account for over 66% of the decreases.
