JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following link titles contain the Jail Profile Survey results for the third quarter of the calendar year 2011. Quarterly Totals contains the third quarter totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The next six (6) link titles show the trend data for variables we have been tracking for the last ten years (Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP). The remainder of this page provides explanations and clarifications of the data presented.

Quarterly Totals link

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 71,293 inmates per day in local jails (excluding Type I’s) during the three-month span of July thru September 2011.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for July, August, and September.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., August 15, 2011); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- “Assaults” is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the third quarter of calendar year 2011.
- Note: Totals are subject to slight variation due to rounding.

Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP links

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

Interpretation of Table:

JAIL POPULATIONS: 3rd Qtr Calendar Year '10 versus 3rd Qtr Calendar Year '11

This table:

- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 1,427) and "total decrease" in ADP (3,935). In other words, the jurisdictions experiencing increases had a total increase of 1,427 ADP; and the jurisdictions experiencing decreases had a total decrease of 3,935 ADP. Subtracting 1,427 from 3,935 produces the overall decrease of 2,508 between the third quarter of calendar year 2010 and the third quarter of calendar year 2011.
2. The Orange County Sheriff's Department ADP increase of 750 is 52.6% of the total increase of 1,427. Twenty-six jurisdictions had increases (down to Colusa County Sheriff's Department) with no jurisdictions reporting no change. When you get to Colusa County Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 1,427).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Ventura Work Furlough Program to Los Angeles County Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 3,935 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Orange County Sheriff's Department, Imperial County Sheriff's Department, Fresno County Sheriff's Department, and San Luis Obispo County Sheriff's Department) is 73.86%. In other words, four jurisdictions accounted for almost 74% of the total ADP increase. Four jurisdictions (San Joaquin County Sheriff's Department, Alameda County Sheriff's Department, San Francisco County Sheriff's Department, and Los Angeles County Sheriff's Department) account for 55.2% of the decreases.
