## **EXPLANATION OF RESULTS**

The following pages contain the Jail Profile Survey results for the second quarter of calendar year 2012. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

### **Page 1**

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 77,340 inmates per day in local jails (excluding Type I’s) during the three-month span of April thru June 2012.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for April, May, and June 2012.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., May 15, 2012); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the second quarter of calendar year 2012.
- Note: Totals are subject to slight variation due to rounding.

### **Pages 2 and 3**

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority (CSA) has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

## Interpretation of Table

### **JAIL POPULATIONS: 2<sup>nd</sup> Qtr Calendar Year '11 versus 2<sup>nd</sup> Qtr Calendar Year '12**

This table:

- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Third Column from left);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Second Column);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Fourth Column);
- lists the percentage growth or decline in ADP for each jurisdiction (Fifth Column);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Sixth Column);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Seventh Column);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Eighth Column); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 8,705) and "total decrease" in ADP (883). In other words, the jurisdictions experiencing increases had a total increase of 8,705 ADP; and the jurisdictions experiencing decreases had a total decrease of 883 ADP. Subtracting 883 from 8,705 produces the overall increase of 7,822 between the second quarter of calendar year 2011 and the second quarter of calendar year 2012.
2. The Los Angeles County Sheriff's Department ADP increase of 3,679 is 27.0% of the total increase of 8,705. Forty-one jurisdictions had increases (down to Calaveras County Sheriff's Department) with one jurisdiction (Modoc County Sheriff's Department) reporting no change. When you get to Calaveras County Sheriff's Department, you have accounted for 100% of the increase (100% of the cumulative total of 8,705).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Shasta County Sheriff's Department to Alameda County Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decrease of 883 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Los Angeles County Sheriff's Department, Orange County Sheriff's Department, Riverside County Sheriff's Department and Fresno County Sheriff's Department) is 66.21%. In other words, four jurisdictions accounted for over 66% of the total ADP increase. Four jurisdictions (San Francisco County Sheriff's Department, San Diego Work Furlough, Imperial County Sheriff's Department, and Alameda County Sheriff's Department) account for 80.9% of the decreases.
