

**PROJECT SCOPE SUMMARY
 STANISLAUS COUNTY PUBLIC SAFETY CENTER
 STANISLAUS COUNTY
 200 EAST HACKETT ROAD * MODESTO, CA 95358**

This project will design and construct approximately 149,000 square feet (sf) of housing, treatment, and program space on approximately 9 acres of the greater 127± acres of county owned land on which the county's existing public safety center is located. The project includes two new buildings constructed primarily of steel, concrete, and masonry for security and long-term durability. One building will be a jail expansion, approximately 135,000 sf, that includes two maximum security adult detention housing units, one medical/mental health housing unit, a health services unit, a security administration (control) center, and all necessary circulation and common space. The second building will be a program/day reporting center, approximately 14,000 sf. Both of these buildings will be dependent on the existing, adjacent facilities for several core operational components, including, kitchen and laundry services; offender intake, release, and transportation; and staff support space.

The two maximum security housing units will each provide approximately 192 beds and the medical/mental health housing unit will provide approximately 72 beds, for a total of approximately 456 beds. Each of the three housing units will include secure sally port entry, a security control room, video visitation cubicles, showers, secure dayrooms and outdoor recreation space, a retherm kitchen, and multipurpose and interview rooms. All three housing units will also include program services space for adult education, religious services, counseling, self-help classes, mental health evaluations/classes, and other life-skills and job/career preparatory programs to help reduce recidivism and assist with rehabilitation.

The health services unit will include health care staff office space, secure records space, holding cells, dental services space, an equipment room and workstation, a pharmacy, a conference room, a laboratory, exam rooms, sheltered housing space, an anteroom, and officer and nurse workstations. The security administration (control) center will include central control, sally port entry, armory and key control, staff briefing space, facility commander and other shift/watch command office space, and multipurpose and interview rooms.

The program/day reporting center will provide services to the offender population under the county's jurisdiction, which is pre-release, out of custody/on probation. This building will include a public lobby and reception area, administration space, a processing area, classrooms, a multipurpose room, and counseling rooms.

This project will include, but is not limited to, electrical; plumbing; mechanical; computerized heating, ventilation, and air conditioning; security; and fire protection systems. Approximately 200 parking spaces will be provided as part of this project for both staff and visitor parking. This project will also include all necessary and appropriate security fencing.
