JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the third quarter of 1999. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Page 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

Page 1

- Unless otherwise noted, "projected totals" are based upon the average per day for the variable in question. For example, there was an average of 77855 inmates per day in local jails (excluding Type I's) during the three-month span of July to September 1999.
- For some variables, we did not receive data from all jurisdictions. We compute the percentage of the ADP which were housed in the jurisdictions that did supply us with data. For example, 96% of the jurisdictions, representing 96% of the State's ADP, indicated the number of felony inmates in their facilities. We then projected what the statewide number of felony inmates would have been if we received felony inmate data from the counties that house the remaining 4% of the inmates.
- The number for "Bookings" is the average of the monthly totals for July, August and September.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., August 15, 1999); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the third quarter of 1999.

Pages 2 and 3

- The data in the 10-Year Summary tables are based upon survey data which the Board has gathered since the early 1980's.
- Prior to 1995, yearly averages were reported to the Board on an annual basis. Yearly averages from 1996 on have been the average across the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.
