

**Board of State and Community Corrections
Residential Substance Abuse Treatment Program
2014 Executive Steering Committee**

The RSAT Program is federally funded through the Bureau of Justice Assistance (BJA) as identified via Catalog of Federal Domestic Assistance CFDA number 16.593. This funding assists states and local governments in developing and implementing substance abuse treatment programs in state, local, and tribal correctional and detention facilities, and supports efforts to create and maintain community-based aftercare services for offenders. Historically, the California RSAT Program has funded state and local detention facilities to provide in-custody treatment services with an aftercare component requirement placed on the grantees.
