JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following link titles contain the Jail Profile Survey results for the second quarter of the calendar year 2010. Quarterly Totals contains the second quarter totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The next six (6) link titles show the trend data for variables we have been tracking for the last ten years (Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP). The remainder of this page provides explanations and clarifications of the data presented.

**Quarterly Totals** link

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 73,701 per day in local jails (excluding Type I’s) during the three-month span of April thru June 2010.

- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.

- The number for “Bookings” is the average of the monthly totals for April, May, and June 2010.

- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., May 15, 2010); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.

- “Assaults” is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the second quarter of calendar year 2010.

**Average Number of Persons Booked, Average Length of Stay, Average Daily Population, Percentage Non-Sentenced, Non-Sentenced ADP, and Sentenced ADP** links

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority has gathered since the early 1980’s.

- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

</tr>
</tbody>
</table>

### Notes:

a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
d. Totals may not be the exact sum of the subtotals due to rounding.
e. The sum of all Highest One Day inmate population counts from all jurisdictions.
f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
g. These data are one-day snapshots collected at the end of the quarter.
The Average Daily Population (ADP) for the second quarter of 2010 reflects a slight decrease from the first quarter of 2010. The ADP for the second quarter of 2010 is 10.55% lower than the second quarter of 2009 reflecting a continuation of the downtrend in ADP that peaked in 2007.

The Non-Sentenced Population ADP was 52,619 for the second quarter of 2010. This number reflects an increase of 1.32% over the first quarter of 2010 but reflects a decrease of over 3.76% from the second quarter of 2009.

The Sentenced ADP was 21,082 for the second quarter of 2010 reflecting a decrease of 4.44% from the first quarter of 2010 and a significant decrease of approximately 23.95% from the second quarter of 2009. This may be attributed to Senate Bill 18, amending Penal Code Section 4019, which increased good and work time credits for certain non-violent offenders.
The Percentage of Non-Sentenced inmates increased by one percentage point the second quarter of 2010 and reflects a 5% increase over the second quarter of 2009.

The Average Number of Persons Booked Per Month in the second quarter of 2010 reflects a 3.35% increase over the first quarter of 2010, but results in a 5.31% decrease in bookings from the second quarter of 2009. The quarterly increase in bookings may be attributed to less restrictive criteria for booking with some agencies due to the availability of bed space.

The Average Length of Stay of 17.1 days in the second quarter of 2010 decreased 16.18% from the first quarter of 2010 and reflects a 17.79% decrease from the second quarter of 2009. This may be attributed to Senate Bill 18, amending Penal Code Section 4019, which increased good and work time credits for certain non-violent offenders.

</table>

| Total Increase:                   | 107         |             |                               |                                 |                                 |       |          |
| Total Decrease:                   | -8,796      |             |                               |                                 |                                 |       |          |

Note: Totals subject to slight variation due to rounding.
Interpretation of Table:

**JAIL POPULATIONS: 2\textsuperscript{nd} Qtr Calendar Year ‘09 versus 2\textsuperscript{nd} Qtr Calendar Year ‘10**

This table:
- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 107) and "total decrease" in ADP (-8,796). In other words, the jurisdictions experiencing increases had a total increase of 107 ADP; and the jurisdictions experiencing decreases had a total decrease of 8,796 ADP. Subtracting 8,796 from 107 produces the overall decrease of 8,689 between the second quarter of calendar year 2009 and the second quarter of calendar year 2010.

2. The Butte County Sheriff’s Department ADP increase of 37 is 34.58% of the total increase of 107. Ten jurisdictions had increases (down to Colusa County Sheriff’s Department) with no jurisdictions reporting no change. When you get to Colusa County Sheriff’s Department, you have accounted for 100% of the increases (100% of the cumulative total of 107).

3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Siskiyou County Sheriff’s Department and Humboldt County Sheriff’s Department to Los Angeles County Sheriff’s Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 8,796 inmates.

4. The cumulative percentage of ADP increase for the top four jurisdictions (Butte County Sheriff’s Department to Kern County Sheriff’s Department) is 85.05%. In other words, four jurisdictions accounted for over 85% of the total ADP increase. Four jurisdictions (Sacramento County Sheriff’s Department, Fresno County Sheriff’s Department, Orange County Sheriff’s Department, and Los Angeles County Sheriff’s Department) account for 58.5% of the decreases.
