EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the Fourth Quarter of Calendar Year 2012. Page 2 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 3 and 4 show the trend data for the last ten years on variables we have been tracking. The below information provides explanations and clarifications of the data presented.

Page 2

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 80,136 inmates per day in local jails (excluding Type I’s) during the three-month span of October through December 2012.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number of “Bookings” is the average of the monthly totals for October, November, and December 2012.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2012); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults are defined as the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the fourth quarter of calendar year 2012.
- Note: Totals are subject to slight variation due to rounding.

Pages 3 and 4

- The data in the 10-Year Summary tables are based upon survey data which the Board of State and Community Corrections has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

Please note: Each quarter, every county with Type II, III, and IV detention facilities submits their data to the BSCC. While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level. While the county specific data presented in this report is current as of July 10, 2013, all data are available for updates as needed.

INTERPRETATION OF TABLE

JAIL POPULATIONS: 4th Qtr Calendar Year '11 vs. 4th Qtr Calendar Year '12

This table:

- summarizes the ADP results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Third Column from left);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Second Column);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Fourth Column);
- lists the percentage of growth or decline in ADP for each jurisdiction (Fifth Column);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Sixth Column);
- lists by jurisdiction the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the largest percentage of increase and proceeding to the jurisdiction with the largest percentage of decrease (Seventh Column);
- lists by jurisdiction the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase first and proceeding to the jurisdiction with the highest decrease last (Eighth Column); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 8,245) and "total decrease" in ADP (259). Specifically, the jurisdictions experiencing increases had a total increase of 8,245 ADP; and the jurisdictions experiencing decreases had a total decrease of 259 ADP. Subtracting 259 from 8,245 produces the overall increase of 7,986 between the fourth quarter of calendar year 2011 and the fourth quarter of calendar year 2012.
2. The Los Angeles Sheriff's Dept. ADP increase of 3,319 is 21.8% of the total increase of 8,245. Fifty-two jurisdictions had increases (down to Humboldt Sheriff's Dept.) with two jurisdictions (Mariposa Sheriff's Dept. and San Benito Sheriff's Dept.) reporting no change. When you get to Humboldt Sheriff's Dept., you have accounted for 100% of the increase (100% of the cumulative total of 8,245).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Amador Sheriff's Dept. to Alameda Sheriff's Dept.). When you get to the bottom of the table, you have accounted for 100% of the total decrease of 259 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Los Angeles Sheriff's Dept., Orange Sheriff's Dept., Fresno Sheriff's Dept. and San Diego Sheriff's Dept.) is almost 58.9%. Four jurisdictions (Del Norte Sheriff's Dept., Napa Corrections Dept., Marin Sheriff's Dept. and Alameda Sheriff's Dept.) account for 97.3% of the decreases.
