SECTION 5: OPTIONAL QUESTIONS Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond “Decline to Respond.”

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds. The Probation Department reviews new literature and evidence based programs, thereby determining what will best benefit our clientele and continues, eliminates, and/or adds programs and services based on the needs of the clientele and as sanctioned by the CCP.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how. The CCP and Probation Department internally evaluates the effectiveness of the programs and/or services provided and funded by the County's Public Safety Realignment Allocation on a semi-annual basis.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how. The probation staff evaluates and reviews funded programs and/or services on a regular basis, evaluating the facilitation techniques, curriculum analysis and benefit to clientele.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

Completion Rates

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)?
Check the most appropriate answer to the left of the list of percentages.

61% - 80%

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

Behavioral/Mental Health treatment programs continue to be limited in Colusa County and only available through the County Behavioral Health Department. Substance abuse disorders and behavioral health treatment programs are offered by the Probation Department at the DRC/County Jail and by Behavioral Health at their department/County Jail.

21. What challenges does the county face in meeting the above program and service needs?

The lack of community based programs (CBO's); lack of Behavioral/Mental Health services for clients who are not eligible for Medi-Cal; lack of phone accessibility; minimal public transportation in various areas throughout the county and lack of housing resources have all presented challenges at various times for this clientele population.

22. What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?

Implementation and expansion of the Day Reporting Center services in conjunction with the Colusa County Department of Health and Human services, Colusa County Behavioral Health, Colusa County One Stop, Colusa County Superior Court and Colusa County Office of Education partnerships, thereby providing appropriate offender services for these probationers to include; cognitive interventions, education, substance abuse, mental/behavioral health, employment, financial and housing assistance.

23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.
