SECTION 5: OPTIONAL QUESTIONS Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond "Decline to Respond."

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

If "Yes," explain how.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

If "Yes," explain how.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

<https://www.bscc.ca.gov/wp-content/uploads/AB-1050-Key-Term-Definitions.pdf>

Average Daily Population	No
--------------------------	----

Conviction	Yes
------------	-----

Length of Stay	Yes
----------------	-----

Adult Recidivism	Yes
------------------	-----

Treatment Program Completion Rates	No
------------------------------------	----

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)? Check the most appropriate answer to the left of the list of percentages.

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

The County's Health and Human Services Behavioral Health Division provides weekly service to inmates, which includes mental health/substance use screening and assessment, as well as medication and treatment. HHS also provides parenting education classes to inmates through its Public Health and Prevention programs. Probation staff provide cognitive behavioral programs to individuals and groups both in-custody and out-of-custody. Intensive case management is provided by our reentry team including housing assistance, employment assistance, and transportation to and from medical and mental health appointments. Telemedicine is used to enhance the services available to inmates as well as community members in hard-to reach service-areas of the county. Additionally, the county has authorized a full-time psychotherapist to support the behavioral health needs of both the jail and reentry populations, however HHS has not been successful in filling this position (see number 21 below).

Medication Assisted Treatment (MAT) program continues to be successful in Inyo County. Currently we have several sites and certified doctors throughout the entire county. County agencies partner with our local health care providers (HHS, Northern Inyo Hospital, Southern Inyo Hospital, and Toiyabe Family Services) in an effort to provide MAT services to everyone who needs it (both in-custody and out). Referrals come from HHS, Probation, and other medical facilities in the County. Our county partners continue to offer awareness and education events for the community. Northern Inyo Hospital has begun to offer a harm reduction program with clean needle exchange and Narcan distribution. The Probation Department, HHS, and the Sheriff's Office are members of the Inyo County Addictions Task Force and the Tribal Opioid Response Coalition.

21. What challenges does the county face in meeting the above program and service needs?	<p>Inyo County experiences geographic challenges in meeting the needs of our criminal justice and jail populations, as the jail facility is located approximately 45 miles from the primary population base and the service area extends more than 10,000 square miles in size. Some of our specific challenges include:</p> <ul style="list-style-type: none"> • Recruitment and retention of licensed professionals, including those willing and able to work in a custody setting. • Recruitment and retention of certified substance use disorder treatment providers. • Limited number of community based organizations available to provide additional support with in-custody services, as well as out of custody programming. <p>Inyo has a very limited number of private providers who accept MediCal for the mild to moderate mental health issues.</p>
22. What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?	<p>The Probation Department has developed and implemented an in-house domestic violence treatment and prevention program instead of relying on private providers that may or may not be available.</p> <p>The CCP funds a reentry program that includes housing assistance. While we don't have any non-profits (NGOs) that offer permanent housing, the reentry team has the resources available to offer temporary housing with the goal of permanent housing through intensive case management.</p>
23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.	<p>Probation provides a 52 week domestic violence treatment and prevention program. Within the first year we provided programming for fifteen high risk male offenders and nine moderate/low risk male offenders. Since the beginning of our program in April 2020 we have had 47 program completions: 35 men and 12 women. We are on track to have 2 additional graduates by the end of the year.</p> <p>To date we have only had 3 men commit new DV crimes after graduation and ordered to repeat the program and 0 women.</p> <p>We currently offer 2 men's groups in Bishop, 1 women's group in Bishop and a men's group in Lone Pine. We offer programming to Spanish speakers. We currently have 29 men and women enrolled in programming.</p>

Section 6: FY 2022-23 Public Safety Realignment Funding Allocation

Section 7: FY 2023-24 Public Safety Realignment Funding Allocation

30. How much funding, if any, is being allocated to data collection and/or evaluation of AB 109 programs and services?

\$65,052 was budgeted to provide data collection through the case management systems of the District Attorney's Office and the Probation Department. This includes \$25,000 for costs to integrate the DA case management system with the Court's new case management system. The integration will make data collection more efficient. Additionally, while no Realignment Funds were expended, Health and Human Services, Probation Department, Sheriff Department, and District Attorney share a Management Analyst, whose salary and benefits are budgeted and paid out of various Health and Human Service budgets. The Management Analyst collects and evaluates data on the various programs and services
