Optional Questions

Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds?

Recommendations and offers for service are heard and evaluated by the CCP Executive Committee. The CCP Executive Committee votes to determine what programs and services are funded and implemented.

Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation?

Yes

If yes, how?

By statistical comparison of clients that receive services versus those that do not.

Does the county consider evaluation results when funding programs and/or services?

Yes

If yes, how?

Proposed services are considered by the CCP Executive Committee and those departments receiving funding. Evaluation results are part of that process.

Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data?

Yes	No	
X		Average daily population
	X	Conviction
	X	Length of stay
X		Recidivism
X		Treatment program completion rates

What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)?

41% to 60%

We would like to better understand your county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

Public Safety Realignment provides funding to Behavioral Health for a Mental Health Specialist, Substance Abuse Counselor and a portion of a Staff Psychiatrist salary. These positions are dedicated to clients either in-custody or attending our programs. Funding is also provided for full residential treatment, a sober living environment, a full DRC and a remote check-in DRC.

What challenges does your county face in meeting these program and service needs?

Our biggest challenge currently is assisting our clients to participate and take full advantage of the programs offered.

What programmatic changes and/or course corrections have you made in the implementation of Public Safety Realignment that you believe other counties would find helpful?

We established our own Probation managed, DRC and continue to add services and programs. During Covid we have transitioned many of those programs to remote (distance) learning to continue to provide the services needed to help individuals succeed.

Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.

We believe that providing our own Probation managed programs and services is our best practice. Our targeted growth plan is to continue to have 30 consistent participants and continue to increase each year. We offer Moral Reconciliation Therapy (MRT), Alcohol and Other Drug Services (AODS) counseling, Mental Health counseling, Anger Management, Job Readiness, Behavioral Health Trauma Groups, Nurturing Parenting and Men's Recovery Support through Alcohol and Other Drug Services.
