

## FY 2022-23 Community Corrections Partnership Survey

# Marin County

### CCP Membership

<b>Marlon J. Washington</b> Chief Probation Officer	<b>Benita McClarin</b> Department of Social Services
<b>James Kim (CEO)</b> Presiding Judge or designee	<b>Benita McClarin</b> Department of Mental Health
<b>Mark Lipkin</b> County Supervisor or Chief Administrator	<b>Benita McClarin</b> Department of Employment
<b>Lori E. Frugoli</b> District Attorney	<b>Benita McClarin</b> Alcohol and Substance Abuse Programs
<b>David Joseph Sutton, Esq.</b> Public Defender	<b>Mary Jane Burke</b> Head of the County Office of Education
<b>Jaime Scardina</b> Sheriff	<b>Vacant</b> Community-Based Organization
<b>David Spiller</b> Chief of Police	<b>Vacant</b> Victims' Interests

**How often does the CCP meet?**

Annually

**How often does the Executive Committee of the CCP meet?**

Annually

**Does the CCP have subcommittees or working groups?**

Yes

## Goals, Objectives, and Outcome Measures

### FY 2021-22

<b>Goal</b>	Increase the number of clients successfully completing Post-Release Community Supervision (PRCS) and Mandatory Supervision (MS).
<b>Objective</b>	90% of PRCS and MS cases will successfully complete their program with no new felony or misdemeanor citations.
<b>Outcome Measure</b>	The number of clients completing their PRCS and MS with no new felony or misdemeanor convictions.
<b>Progress toward stated goal</b>	Between January of 2022 and the third quarter of 2022, Marin has discharged 19 PRCS and 22 MS clients, with 76% successfully completing their program with no new felony or misdemeanor citation.

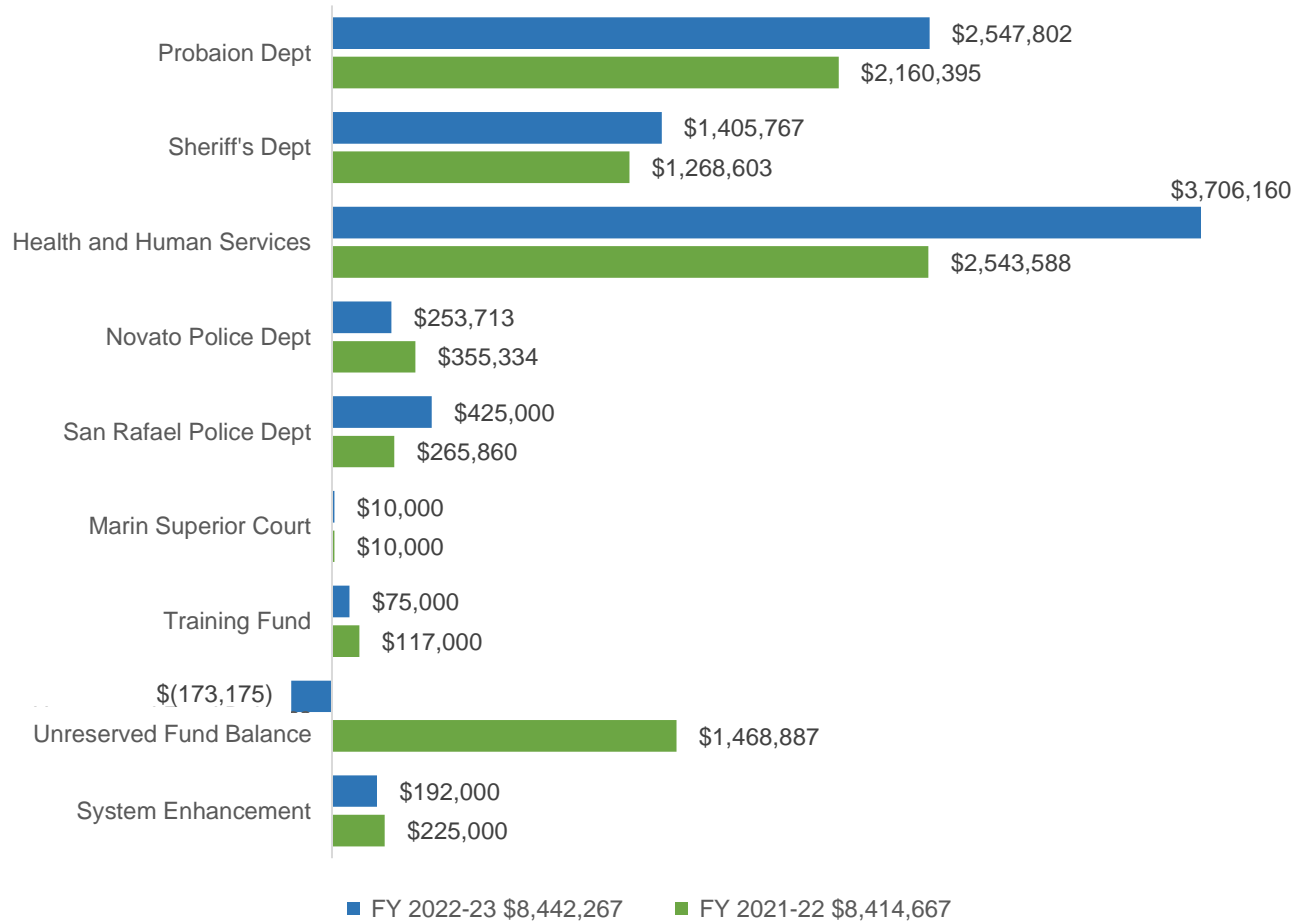

<b>Goal</b>	Connect participants with appropriate services to aid in rehabilitation and re-entry into the community.
<b>Objective</b>	Assess 100% of clients using a biopsychosocial assessment tool.
<b>Outcome Measure</b>	Number of Clients Assessed
<b>Progress Toward Stated Goal</b>	100% of clients released to Marin County Probation on PRCS or MS status were assessed and referred to appropriate services.

<b>Goal</b>	Leverage CCP funds to enhance and support system development in a culture that embraces collaboration, ongoing evaluation, and transparency.
<b>Objective</b>	Have a standard set of high level metrics that can be tracked and reported on annually to articulate the CCP impact on intended outcomes of program services
<b>Objective</b>	Develop and publish a central website to house reports, agendas and public program goals, metrics and progress towards outcomes.
<b>Outcome Measure</b>	Increased transparency on CCP Programs
<b>Outcome Measure</b>	Increased collaboration with community partners
<b>Progress Toward Stated Goal</b>	This is in process with the Program Manager Quarterly working towards shared metrics and reporting structure. The CCP has approved funds for onboarding consultants to support a comprehensive review of program processes and referral paths to help support all participating agencies in working from the same "playbook" which is a first step in being able to collect and report on shared metrics.

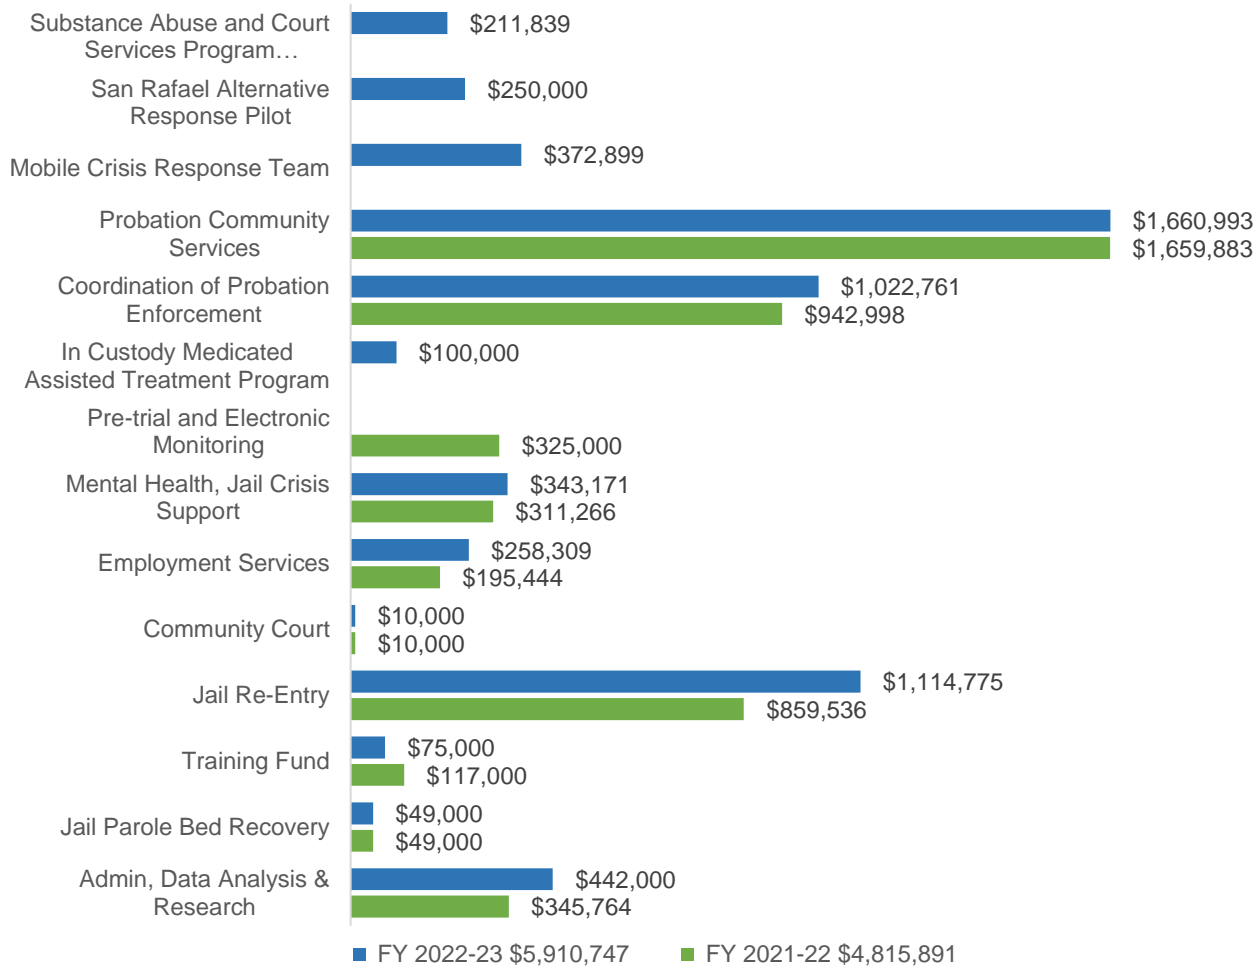

**The Marin County CCP reports it will use the same goals, objectives, and outcome measures identified above in FY 2021-22.**

## FY 2021-2022 and FY 2022-23 Allocation Comparison

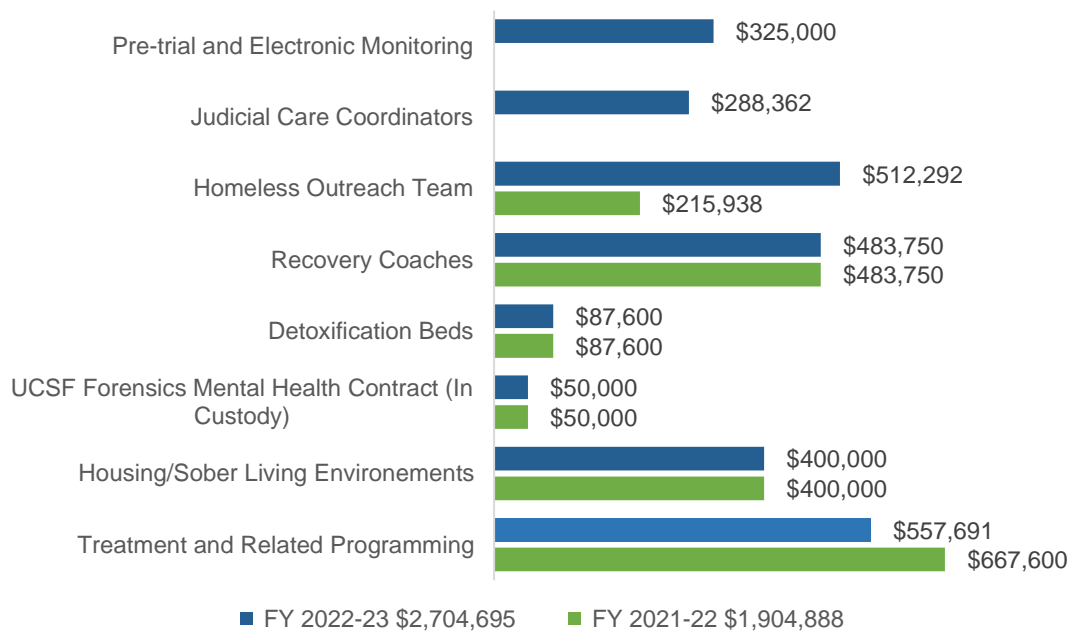

### FY 21-22 and 22-23 Allocations

## FY 21-22 and 22-23 Allocations to Public Agencies for Programs & Services

## FY 21-22 and 22-23 Allocations to Non-Public Agencies for Programs & Services

## Optional Questions

**Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds?**

A program managers sub-committee meets to develop and review proposals for funding. The role of the group is to review each proposal with a cross discipline lens and to ensure that programs being recommended for funding enhance and further existing services meet a recognized gap, have prior proven success or a clear trial timeline with metrics to evaluate the success before being approved for ongoing funding. Once a proposal is reviewed and approved by the sub-committee, it is scheduled for an upcoming meeting of the CCP, where the requester and a member of the sub-committee make a presentation of the program and final recommendation to the Board for consideration.

**Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation?**

Yes

**If yes, how?**

Currently each agency is evaluating programs independently and reporting outcomes at the annual meeting.

**Does the county consider evaluation results when funding programs and/or services?**

Yes

**If yes, how?**

Program staff present to the CCP annually on program highlights, outcomes and emerging issues to inform program development and funding allocations. Case load numbers, emerging needs and outcome measures are used to validate the continuation of existing programs and to support recommended funding for enhancements or new services.

**Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data?**

Yes	No	
X		Average daily population
X		Conviction
X		Length of stay
X		Recidivism
X		Treatment program completion rates

**What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)?**

61% to 80%

**We would like to better understand your county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?**

While Marin shares a border with larger urban counties, attracting diverse resources locally can be difficult due to the high price of real estate. To round out the small group of providers for outpatient treatment, the County initiated an in-house substance recovery program targeting persons with dual diagnosis. Community-based organization partners exist to support most other outpatient needs, including bilingual cohorts. The County has one agency providing medicated assisted treatment and residential treatment is provided by only one local partner, while multiple out of county contracts have recently been approved. The County is in process of implementing Medicated Assisted Treatment Services in the jail.

**What challenges does your county face in meeting these program and service needs?**

There is a serious shortage of qualified clinical staff. The county community-based organizations, private health plans and schools are competing for a small pool of applicants.

**What programmatic changes and/or course corrections have you made in the implementation of Public Safety Realignment that you believe other counties would find helpful?**

We are employing community partners in non-clinical support roles to increase peer mentorship as an alternative or add-on to mental health counseling and substance abuse services. In many cases, the support and navigation can make a huge difference in impacting social, mental and physical health needs.

**Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.**

The Marin Community Corrections Executive Board has taken a system-level view when building programs and has been able to support increased collaboration across disciplines. This has led to the County being well prepared with supports and processes that enable a streamlined implementation of CalAIM Justice Involved requirements and the ability to leverage available Justice Involved PATH funding to enhance communications and systems further.
