SECTION 5: OPTIONAL QUESTIONS Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond “Decline to Respond.”

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds. Offender programs and services remain driven by risks and needs identified by assessments and delineated in the offender’s case plan. CCP and others may recommend, sponsor or support services provided by community-based organizations on identified needs (e.g., housing, employment, reentry) through a County procurement process (formal or informal RFP).

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

Service delivery and outcomes for many of the programs are tracked through the Case Management System. Data is collected from our service collaboratives and available for review so that program strategies can be considered by CCP for continued funding.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

Funding requests through the CCP Program are discussed and considered in order for the CCP Executive Committee to vote on spending for the requested program. The CCP continues to work on improving the evaluation process for best utilization of funding for services provided to the realigned population.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

| 20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available? | <ol style="list-style-type: none"> 1. Assessment, evaluations and referral to treatment Behavioral Health services; on- site walk-in assessment services, scheduled assessments, on-site psychiatric services, psychotropic medications, outpatient and inpatient substance abuse programs, outpatient and inpatient mental health programs, supportive services, and case management. 2. | 21. What challenges does the county face in meeting the above program and service needs? | The turnover of staff who are trained in the use of evidence-based curriculum in community-based programs continues to be a challenge. Staff turnover sometimes impacts service delivery, and ability to provide services by well-trained employees. Ongoing training continues to be needed in facilitating evidence-based practices and best practices. Local community-based organizations have myriad of on-going challenges in providing continuous EBP training of staff. |
