SECTION 5: OPTIONAL QUESTIONS

Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond "Decline to Respond."

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.

We review the program in the Results First Clearinghouse and the relevant evidence. This is a major determination prior to implementation of any new program, however not the only factor given the potential for the lack of research around a promising program. We also look at the cost benefit through the work we have done with Results First. Additionally, we have rebooted our RNR and Assess a Program tool through George Mason University to look at program capacity, gap analysis, and provider fidelity.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

We have worked with Results Firsts to catalogue and rate our programing. We have also looked at the adherence to evidence based practices by our providers.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

Nevada County CCP would have a difficult time funding a new community-based program if it not shown to be effective. We understand that there are exceptions to this concept as noted above.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

<https://www.bscc.ca.gov/wp-content/uploads/AB-1050-Key-Term-Definitions.pdf>

Average Daily Population

Yes

Conviction

Yes

Length of Stay

Yes

Adult Recidivism

Yes

Treatment Program Completion Rates

Yes

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)? Check the most appropriate answer to the left of the list of percentages.

Less than 20%

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

NC Behavioral Health will do ongoing mental health treatment for individuals with severe mental illness. NC Probation contracts with NCBH for therapy for individuals with moderate mental illness. Nevada County has a mental health court, mental health diversion and just recently went live with a Department of State Hospitals felony incompetent to stand trial diversion program.

21. What challenges does the county face in meeting the above program and service needs?

I believe the county is working diligently to address the needs of this population but system change regarding early identification and service delivery are always complicated issues. Also there seems to be a perception from certain community members that the county is doing nothing to address the problem or we are not doing enough.

22. What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?

The Nevada County CCP worked with an outside consultant to create a five year strategic plan. This endeavor is in its early stages but the executive team is having more in depth conversations around the budget and programmatic issues.

23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.

N/A.
