SECTION 5:
OPTIONAL
QUESTIONS

Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond "Decline to Respond."

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.

Potential programs and/or services are either brought forth by the CCP Executive Members or the AB 109 Working Group through the CCP Coordinator. At the quarterly meetings, the AB 109 Working Group may introduce and vet potential programs and/or services for local implementation utilizing Public Safety Realignment funds. Since the AB 109 Working Group is made up of individuals who are at the forefront of delivering programs and/or services to the AB 109 population, they are well in-tune with their gaps, needs, and challenges. Potential programs and/or services are clearly identified and presented to the CCP Executive Committee for potential funding. Similarly, any CCP Executive Member may identify a need and may direct the CCP Coordinator to return to the AB 109 Working Group to go through their process or, in the case of small requests, may make them directly. All funding and appropriations must also be approved by the Orange County Board of Supervisors as submitted.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

1) Orange County HCA MHRS provides behavioral health and recovery residence services to persons released from correctional facilities and under the supervision of the Orange County Probation Department. Outcome measure data is collected from service providers.

2) Orange County Probation Department conducts continuous evaluation and monitoring of the Orange County Day Reporting Centers (DRCs), which serves the AB 109 and Probation population. Recidivism outcomes of DRC participants are tracked by DRC site (i.e., Santa Ana and Westminster) as well as by the type of program exit. The Department also regularly evaluates the random drug testing (RDT) program and its effectiveness in reducing the drug use of clients.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

The Orange County Board of Supervisors are provided with metrics when programs/services and contract renewals come before them for approval. This information is used to ensure that funding is directed to result-oriented programs and/or services.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

20. The BSCC would like to better

In Orange County, behavioral health services are offered through Health Care Agency Correctional Health Services (CHS) and Mental Health and

understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

Recovery Services (MHRS).

CHS provides individualized treatment plans, group therapy that includes Think for Change, Anger Management, MRT, Re-Entry, and Process, comprehensive discharge planning and linkages to community services. Many of the community providers provide in reach services and connect with individuals while they are still incarcerated to ensure successful linkages. CHS also provides all three FDA-approved medications for Medication-Assisted Treatment (MAT). Most CHS physicians and nurse practitioners are X-waivered to prescribe buprenorphine. CHS provides a Case Management nurse to meet with individuals on MAT to develop a discharge plan and linkage to community MAT providers. Group therapy on relapse prevention and MAT are also provided. Additionally, Phoenix House provides an in-custody substance use program for incarcerated individuals, while coordinating continued care for them upon release. These individuals are eligible to receive ongoing services post-custody until they are linked to their ongoing provider.

The OC Links Behavioral Health Services Line (1-855-OC LINKS) is a single-entry point for mental health and substance use services and is available 24 hours a day, 7 days a week. OC Links provides information, screening, referral and linkage, and crisis response. Callers can be potential participants, family members, friends, law enforcement, other first responders, providers, or anyone seeking behavioral health resources and support.

For individuals with serious mental illness, MHRS offers a continuum of services and supports including an Open Access program with two locations, four regional County-operated outpatient clinics, Recovery Services programs, eight Program of Assertive Community Treatment (PACT) programs, and nineteen Full Service Partnership (FSP) programs that serve adults and older adults. There are also three Crisis Stabilization Units and five Crisis Residential programs, and one Adult In-Home Crisis Stabilization program. Additionally, MHRS contracts with six behavioral health inpatient hospitals within Orange County to provide acute psychiatric inpatient services for adults. The County has a robust collaborative court program and one FSP designated to work with AB 109 individuals who need intensive outpatient services. Additionally, the HCA MHRS has a team of behavioral health clinicians who are also embedded in the four Probation Offices to screen, assess and facilitate linkages for AB 109 clients transitioning from incarceration to the community, including AB 109 individuals with mild to moderate mental health issues.

HCA MHRS also offers a continuum of services and supports for justice involved individuals with substance use disorder and co-occurring mental illness. Services include Clinically-Managed Withdrawal Management, Narcotic Treatment Program, Residential Treatment, Intensive Outpatient and Outpatient treatment including Medication Assisted Treatment, and Recovery Residence Services.

Orange County opted into the State's Drug Medi-Cal Organized Delivery System (DMC-ODS) Waiver in July 2018. Admission into the different DMC-ODS levels of care is based on the American Society of Addiction

Medicine (ASAM) criteria and medical necessity. All eligible Medi-Cal beneficiaries can access DMC-ODS services by calling the Beneficiary Access Line at (800) 723-8641, 24 hours a day, 7 days per week. Those with co-occurring issues are linked to appropriate services to address both substance use and mental health challenges.

21. What challenges does the county face in meeting the above program and service needs?

Housing for justice involved individuals with behavioral health issues continues to be a challenge. There continues to be limited housing resources, particularly for individuals with a criminal history. The ability to provide a quick and appropriate housing placement for justice involved individuals exiting jail is also a challenge. Collaboration between service providers and housing providers remains a challenge. HCA continues to work to increase housing opportunities, reduce barriers to housing placement and improve collaboration between housing and service providers to support justice involved individuals with behavioral health issues.

For substance use services, one challenge is not having enough providers that can provide residential treatment services. This past year, HCA lost a perinatal residential provider, which further decreased treatment capacity. Coordinating for residential placement can also be challenging due to requirements of needing authorization prior to admission to treatment and not being able to reach clients when a treatment bed is available. HCA continues to work to increase treatment capacity and increase coordination for placement. HCA now places individuals needing residential treatment in a recovery residence upon completion of withdrawal management, until a residential bed is available. Each participant must enroll in interim services as a requirement.

Linking individuals releasing from jails and discharging from hospitals who may need SUD MAT services is another continues to be a challenge. HCA MHRS has developed and continued to explore and implemented identify ways to improve access and make the service available for these individuals with Drug Medi-Cal as well as those with no benefits who need to continue MAT services. HCA has continued to add dedicated staff to provide in reach services in hopes to engage individuals getting ready to discharge from County jails for ongoing SUD services. During the in reach visits, the staff provides individuals with education and resources regarding available behavioral health services. For individuals who accept services, the staff also works closely with staff from County jails and the Santa Ana SUD Clinic to ensure that a follow up appointment is scheduled and that transportation is arranged as needed to facilitate linkage upon release.

22. What programmatic changes and/or course corrections has the CCP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?	Decline to respond.
23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.	Decline to respond.

FY 2023-24 Community Corrections Partnership Survey PART B

Part B of the CCP Survey collects information about the allocation of Public Safety Realignment dollars.

For detailed guidance on how to complete Part B of the CCP Survey package, please refer to the FY 2023-24 CCP Survey Data Reporting Guide at: https://www.bscc.ca.gov/m_realignment/

The first question in this file, question 24, requests the name of the county for which the survey is being submitted.

Following the identification of the county, Part B is divided into two sections:

Section 6: FY 2022-23 Public Safety Realignment Funding Allocation

Section 7: FY 2023-24 Public Safety Realignment Funding Allocation

24. Please identify the county for which this portion of the survey is being submitted:

County Name: **Orange**

SECTION 6: FY 2022-23 Public Safety Realignment Funding Allocation

Section 6 contains questions related to the allocation of FY 2022-23 Public Safety Realignment dollars. There are three (3) questions in this section.

When answering these questions, consider the funds allocated in FY 2022-23 and include any monies from 2021-22 growth funds and 2022-23 programmatic funding.

25. Of the total funds received in FY 2022-23, how did the CCP budget the allocation? Input the total allocation in the cell above the table. Within the table, identify where funds were allocated to, and include if the county used any carry-over funds (monies from previous annual CCP allocations) and/or if the county put any funds into a reserve fund (i.e., funds specifically set aside to be used when budget is disrupted or decreased so operations can continue). Please correct the information provided if there is a difference showing between the stated total allocation and the calculated amount (directly below the table). Differences will automatically display in **red**. Please correct any cells displaying **red** prior to submitting.
