SECTION 5: OPTIONAL QUESTIONS Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond “Decline to Respond.”

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds. The CCP does not have a process for determining services implemented using AB109 funds. Realignment funds are disbursed annually as determined in the original plan to the departments and programs specified in the plan.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

Placer County has taken steps to collaborate between departments to ensure data is collected accurately and efficiently. Additionally, Probation has worked with many Community Treatment Providers to develop a reporting system to increase communication between Probation, Provider, and offenders in treatment for efficiency in decision-making and offender support.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

No

If "Yes," explain how.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

<https://www.bscc.ca.gov/wp-content/uploads/AB-1050-Key-Term-Definitions.pdf>

Average Daily Population

Yes

Conviction

Yes

Length of Stay

Yes

Adult Recidivism

Yes

Treatment Program
Completion Rates

Yes

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)?
Check the most appropriate answer to the left of the list of percentages.

Less than 20%

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

Community-Based Organizations: Withdrawal Management, Residential Treatment, Outpatient (in and out of custody), Educational Programming, Recovery Residence (formally Transitional Housing) combined with Outpatient, Outpatient Mental Health, Intensive Mental Health Care, and Medication Assisted Treatment (MAT)

21. What challenges does the county face in meeting the above program and service needs?

Currently, our need outweighs our resources. Coordinating care across multiple providers and disciplines is also difficult. With the current rollout of the Organized Delivery System (ODS) Waiver, we are now working to provide access to care covered by resident's Medi-Cal benefit. This also provides a challenge in the needs outweighing the resources.

22. What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?

Training case managers in both Mental Health and Substance Use practices to better meet the needs of co-occurring and high-utilizing clients. Co-located HHS and Probation staff, and co-located HHS and Court staff all help bridge county systems.
Good utilization of multiple levels of care for clients including education (through Placer Re-Entry Program), treatment, and intensive Case Management to increase engagement in treatment.

23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.	The use of a validated risk/need assessment as a local best-practice has shown positive results. More offenders are supervised on appropriate caseloads, resulting in higher-quality contact with officers. Smaller and specialized caseloads have provided officers the opportunity to set goals with offenders and support these goals while keeping the community safe.
