SECTION 5:
OPTIONAL
QUESTIONS

Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond "Decline to Respond."

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.

Request for Proposals process is utilized each year.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

The CCP Executive Committee reviews quarterly program and financial reports from the county and community partners to ensure compliance with the application submitted for funding. The committee also assesses the overall annual progress and success for programs. Additional data collection and program documents can be requested for review.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

The CCP Executive Committee will work to improve its evaluation process to give members and the general public a greater transparency of fund utilization and services provided to this population.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

<https://www.bscc.ca.gov/wp-content/uploads/AB-1050-Key-Term-Definitions.pdf>

Average Daily Population	Yes
--------------------------	-----

Conviction	Yes
------------	-----

Length of Stay	Yes
----------------	-----

Adult Recidivism	Yes
------------------	-----

Treatment Program Completion Rates	Yes
------------------------------------	-----

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)? Check the most appropriate answer to the left of the list of percentages.

41% - 60%

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

An array of behavioral health and substance use disorder services are provided by the Behavioral Health Department including jail-based services, community-based services through four Wellness Center sites spread throughout the county and direct services at their main office. Additional mental health services are provided locally by private vendors and through in-patient out-of-county services. The Public Health Department offers Naloxone and the Medication Assisted Treatment (MAT) Program as well as counseling and behavioral therapies to treat substance use disorders and prevent opioid overdose. Partners also provide Tele-Med services, intensive case management and services for the severely mentally ill (SMI).

21. What challenges does the county face in meeting the above program and service needs?	<p>Local challenges include limited available housing that will address the permanent housing need of transitioning offenders. The county also lacks a structured emergency shelter model program. Geography and minimal transportation options also provide difficulties.</p> <p>Staffing shortages have had a negative impact on meeting service needs.</p>
22. What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?	The ability for each county to create a response that is best suited for their region and needs. Expanding collaborations with community-based partners and out of county rehabilitation entities enhance the work and services provided by county partners and opens doors to additional choices and services for clients. The Alternative Sentencing Program, the Sheriff's Office, Behavioral Health Department, the District Attorney, the Courts, the Public Defender, and the Probation Department have all been strong collaborators for Plumas County's success in adapting to an ever changing Public Safety Realignment effort. This model helps to build the number of evidence-based programs and services identified, and encourages blended funding.
23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.	The Plumas County District Attorneys Alternative Sentencing Program was awarded CSACs Merit Award in Administration of Justice and Public Safety in 2020
