PART A	Part A of the Fiscal Year (FY) 2023-24 Community Corrections Partnership (CCP) Survey collects information about CCP Membership and implementation of the county's CCP plan. For detailed guidance on how to complete Part A of the CCP Survey, please refer to the CCP Survey Data Reporting Guide at: <a href="https://www.bscc.ca.gov/m_realignment/">https://www.bscc.ca.gov/m_realignment/</a> Part A is divided into five (5) sections: · Section 1: Respondent Information · Section 2: CCP Membership · Section 3: Goals, Objectives, and Outcome Measures · Section 4: Types of Programming and Services · Section 5: Optional Questions When applicable, use person-first language and terminology that eliminates potential generalizations, assumptions, and stereotypes. Responses to the CCP Survey shall represent the collective views of the CCP and not a single agency or individual.
--------	--

SECTION 1: RESPONDENT INFORMATION	Section 1 asks questions related to the county for which survey responses are provided, the individual who is completing the survey, and who BSCC may contact for follow-up questions. There are three (3) questions in this section.
---	---

1. Identify the county name for which this survey is being submitted.	Sonoma County
---	---------------

2. Provide the contact information for the individual completing this survey.

SECTION 2: CCP  
MEMBERSHIP

Section 2 asks questions related to the CCP composition and meeting frequency. There are four (4) questions in this section.

---

4. CCP Membership  
Roles

Provide the first and last name (and organization if not provided) of each individual fulfilling a CCP membership role as of October 1, 2023 in the spaces below each membership role. · If a public membership role does not exist in the county, respond by indicating “not applicable.” This should only be used if the county does not have the specific position listed. · If a position exists in the county but the membership role is not filled in the CCP, respond by indicating “vacant.” · For county positions, one person may fill multiple roles.

7. Does the CCP have subcommittees or working groups? Check the appropriate answer to the left of the list.	Yes
If "Yes," list the subcommittees and/or working groups, and their purpose.	Data Management and Evaluation Subcommittee: Provide feedback and guidance on program evaluations produced by external consultants.
SECTION 3: GOALS, OBJECTIVES, AND OUTCOME MEASURES	Section 3 asks questions related to the CCP's goals, objectives, and outcome measures. Please refer to the CCP Survey Data Reporting Guide at: <a href="https://www.bscc.ca.gov/m_realignment/">https://www.bscc.ca.gov/m_realignment/</a> for detailed information about goal and objective statements, and outcome measures.
Updated Information on FY 2022-23 Goals, Objectives, and Outcome Measures	Questions 8, 9, and 10, ask the CCP to provide updated progress information about the goals, objectives, and outcome measures previously reported for FY 2022-23 in the 2022-23 CCP Survey. For each question, provide the goals, objectives, and outcome measures as reported in the FY 2022-23 survey. The progress information should be updated to reflect the progress achieved over the full fiscal year.
8. Describe a goal and the associated objectives as reported in the FY 2022-23 CCP survey. Please provide updated progress toward goal information to reflect the progress achieved over the full FY 2022-23. If no goal, objective, or outcome measure was identified in FY 2022-23 respond by indicating "Not Applicable."	
Goal A:	Evaluate effectiveness of the Probation Department's processes and implement evaluation recommendations
Was this Goal part of the FY 22-23 CCP plan?	Yes
Goal A Objective:	Develop a new behavioral response policy

Goal A Objective:	Improve the case planning process in conjunction with open channels for participant feedback and probation officer awareness of available services
Goal A Objective:	Analyze probation officer workload to adjust prioritization of duties
Goal A Outcome Measure:	Be able to quantify adherence to the behavior response policy, and find overrides occur less than 15% of the time and increased use of behavioral practices by probation officers
Goal A Outcome Measure:	Increased case plan quality as measured by case plan review data
Goal A Outcome Measure:	Improved measures related to probation officer burnout, job satisfaction, and workload
Briefly describe progress toward the goal.	The behavior response policy is fully implemented. A new behavior response tracking system was implemented in September 2022. Since implementation, the rate of overrides to a more restrictive response is 11%. Case Plan training is scheduled for January 2024. A probation officer workload study is wrapping up, with a final report due in December 2023, which will inform workload adjustments in 2024.
Rated progress toward the goal.	Partially achieved
9. Describe a goal and the associated objectives as reported in the FY 2022-23 CCP survey. Please provide updated progress toward goal information to reflect the progress achieved over the full FY 2022-23. If no goal, objective, or outcome measure was identified in FY 2022-23, respond by indicating "Not Applicable."	
Goal B:	Continue managing the jail population in a manner consistent with public safety
Was this Goal part of the FY 22-23 CCP plan?	Yes
Goal B Objective:	100% of sentenced individuals will be reviewed for eligibility for release on electronic monitoring supervision

Goal B Objective:	100% of low-risk inmates who meet program requirements will serve a portion of their sentences on electronic monitoring supervision
Goal B Objective:	100% of eligible inmates will receive rehabilitative programming to prepare them for trial or successful release
Goal #2 Outcome Measure:	Number of booked individuals receiving risk assessments
Goal B Outcome Measure:	Number of low-risk inmates who are placed on electronic monitoring supervision
Goal B Outcome Measure:	Number of inmates receiving substance use disorder or mental health services
Briefly describe progress toward the goal.	<p>During FY 22-23:</p> <p>All booked individuals with new charges were assessed for pretrial services program eligibility. Additional individuals were assessed for pretrial services as ordered by the courts.</p> <p>100% of sentenced individuals were screened for low-risk inmate program eligibility. The Sheriff's Office placed 301 individuals on electronic monitoring supervision plus 22 individuals previously enrolled (323 total), of whom 317 successfully completed the program, for a success rate of 98%.</p> <p>With the decrease in COVID-19 safety measures, the Sheriff's Office was able to offer more in-person substance use disorder treatment and mental health programming through the facility's behavioral health services provider. The Sheriff's Office will reinstate an expanded substance use disorder treatment program in early 2024.</p>
Rated progress toward the goal.	Partially achieved
<p>10. Describe a goal and the associated objectives as reported in the FY 2022-23 CCP survey. Please provide updated progress toward goal information to reflect the progress achieved over the full FY 2022-23. If no goal, objective, or outcome measure was identified in FY 2022-23 respond by indicating "Not Applicable."</p>	

Goal C:	Identify and remove barriers to program participation for people on probation
Was this Goal part of the FY 22-23 CCP plan?	Yes
Goal C Objective:	Provide housing options for 100% of probationers who are experiencing homelessness who can be safely housed in a community setting
Goal C Objective:	Upon jail discharge, screen 100% of persons convicted of offenses for substance use disorder treatment and mental health issues
Goal C Objective:	Upon jail discharge, screen 100% of persons convicted of offenses for financial assistance eligibility
Goal C Outcome Measure:	Number of supervised persons convicted of offenses with stable housing
Goal C Outcome Measure:	Number of persons convicted of offenses receiving screenings for and completing substance use and mental health programs
Goal C Outcome Measure:	Number of persons convicted of offenses receiving screenings for and receiving financial assistance
Briefly describe progress toward the Goal.	<p>During FY 22-23, offender needs assessments indicated that 215 Sonoma County probationers needed housing services. During the same period, 113 probationers received Probation Department-contracted transitional housing. Dividing 113 by 215 yields a number-of-probationers-served-per-homeless-probationer ratio of 0.53, much lower than the FY 21-22 result of 0.78.</p> <p>Despite the lower number of probationers served compared to those needing housing, the total number of bed days increased in FY 22-23 as probationers stayed for longer periods (117 days on average in FY 22-23 versus 70 days in FY 21-22). In FY 23-24, the Department aims to increase the number of probationers served while still allowing them to stay until they can move into permanent housing.</p> <p>All individuals with known mental health issues were screened and provided community resources by a discharge planner prior to jail discharge, as well as provided the opportunity to begin the enrollment process for Medi-Cal and financial assistance services.</p>
Rated progress toward the Goal.	Partially achieved

SECTION 5: OPTIONAL QUESTIONS      Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond "Decline to Respond."

---

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.      CCP members and members of the public may propose new programs or services at any publicly held meeting. Doing so requires submission of a funding request form, which describes the program or service and associated costs. During meetings, the CCP reviews requests and weighs the benefits against costs, competing needs, and fiscal sustainability. New programs are initiated with a majority vote of the Executive Committee and Board of Supervisors approval.

When budgetary constraints force program cuts, CCP members rank the importance of existing programs and discuss which program cuts would minimize negative impact to the justice system.

---

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

Probation's Planning, Implementation and Evaluation Team provides ongoing program performance reporting. Following are examples of how Sonoma County evaluates the effectiveness of its Realignment-funded programs and services:

- Realignment service contracts include requirements to produce data collection strategies and report on outcome measures.
- The Day Reporting Center gathers and reports participant data such as class attendance, activities completed (e.g. substance use treatment, job search guidance, meetings with educational coordinators), and overall participant outcomes.
- Since 2016, the CCP has retained a consultant to evaluate CCP-funded programming. Completed evaluations include the following:
  - AB 109 Evaluation: Needs and Cost Analysis
  - AB 109 Evaluation: Reconviction Analysis
  - AB 109 Implementation Evaluation Report
  - AB 109 Recidivism Analysis Report
  - Day Reporting Center Process Evaluation
  - Day Reporting Center Outcome Evaluation
  - Day Reporting Center Summary Report 2015-2020
  - Pretrial Program Annual Report 2021
  - Program-Level Evaluation of California Human Development
  - Program-Level Evaluation of Residential Substance Use Treatment
  - Program-Level Evaluation of Transitional Housing Services
  - Probation Supervision Process Evaluation
  - Reentry Assessment
  - Research and Planning to Address Program Barriers

Please email [SCPD-AdultServices@sonoma-county.org](mailto:SCPD-AdultServices@sonoma-county.org) for copies of these studies. Reports can also be accessed here:  
[https://sonomacounty.ca.gov/justice-services/probation/planning-implementation-and-evaluation-\(pie\)/research-and-reports/public-reports](https://sonomacounty.ca.gov/justice-services/probation/planning-implementation-and-evaluation-(pie)/research-and-reports/public-reports).

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

Sonoma County program managers and analysts, along with CCP-retained evaluation consultants, routinely present the latest evaluation results and recommendations at CCP meetings for the committee's review and consideration.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

<https://www.bscc.ca.gov/wp-content/uploads/AB-1050-Key-Term-Definitions.pdf>

Average Daily Population

Yes

Conviction

Yes

Length of Stay

Yes

Adult Recidivism

Yes

Treatment Program Completion Rates

Yes

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)? Check the most appropriate answer to the left of the list of percentages.

61% - 80%

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

The CCP funds the following mental health, substance use disorder, and behavioral health services. Combined, these services amount to \$5,110,647 or 26% of the CCP's FY 23-24 budget.

**Day Reporting Center:** The Day Reporting Center serves as the central point of evidence-based programming and structure for realigned and felony probationers in the community. Services include cognitive behavioral intervention programs, life skills, vocational skills, and substance abuse treatment.

**Jail Programs:** The Sheriff's Office offers programs designed to help inmates address the root causes of criminal behavior; decrease the high level of stress and violence that can occur in correctional facilities; and connect released inmates to the Day Reporting Center and other programs to provide continued support.

**In-Custody Mental Health Services:** Through a contracted provider, the Sheriff's Office provides mental health services. Upon release from custody, inmates requiring continued services are referred to a behavioral health therapist embedded with Probation's AB 109 team or to community-based treatment providers.

**Community Mental Health Services:** Behavioral Health staff embedded in the Probation Department provides mental health assessments and referrals. An eligibility worker determines eligibility for benefits (e.g., Medi-Cal, County Medical Services Program, Social Security Insurance, and CalFresh), and a psychiatrist determines medication needs and develops an initial medication plan.

**Substance Use Disorder Services:** The Department of Health Services assigns a substance use disorder specialist to the Probation Department office to facilitate the assessment, referral, and case management of substance-abusing offenders. Through contracts with local providers, Health Services offers residential treatment and outpatient services at the Day Reporting Center.

**Victim Services Advocate:** The District Attorney's advocate supports victims of domestic violence, sexual assault, and other crimes by connecting them to services, establishing safe shelter, and ensuring the victims' voices are heard throughout the criminal justice process.

**Pretrial Housing and Case Management:** Opened in January 2020 under a grant from the Bureau of Justice Assistance, this program provides housing and case management for high-needs defendants on pretrial release. These individuals have serious mental illness and would likely need to remain incarcerated during the pretrial period without a community program such as this one. Grant funding was exhausted in mid-FY 21-22, and the CCP has covered costs since. The program includes a 0.75 FTE behavioral health clinician embedded at the jail who provides screening, advocacy, referral, and tracking of program participants.

---

21. What challenges does the county face in meeting the above program and service needs?	<p>One of Sonoma County’s primary challenges continues to be funding. Sonoma County is home to 1.25% of California’s population, yet receives 0.88% of AB 109 base funding, or 70% of the funding that might be expected for a community its size and well below the 1.03% of base funding received before the FY 15-16 implementation of Realignment Allocation Committee recommendations.</p> <p>Additionally, staffing recruitment and retention for the County and many of our service providers proves a persistent challenge to offering consistent programming to clients.</p>
22. What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?	<p>The implementation of a Behavioral Response System to assure swift, certain, and proportional responses to reinforce desirable behavior and reduce problematic behavior among Probation participants. The system includes a policy and partially-automated data collection to assist in monitoring the implementation.</p> <p>The Behavioral Response Policy was implemented in FY 22-23 and aims to reduce jail utilization for violations through positive motivation. Further, the policy promotes behavioral changes by empowering probation officers to implement swift, certain, fair, and consistent responses to violations of supervision and to reward prosocial behaviors so that they are repeated.</p> <p>Additionally, Probation implemented a pilot Warrant Re-Engagement Team, which had one probation officer in FY 22-23 but will have two officers in FY 23-24. The goal is to increase integrity of the supervision process and re-engage individuals into treatment and programming. The program began in September 2022, and as of June 30, 2023, 282 warrants have been cleared in collaboration with our law enforcement partners. 205 were cleared by arrest, 3 by self-surrender, and 26 by individuals scheduling themselves for a court appearance. The 48 remaining warrants were cleared by other means, including death or individuals sent to prison on a new charge.</p>
23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.	<p>Day Reporting Center: Serving as the central point of evidence-based programming and structure for felony offenders, the DRC provides a detention alternative to traditional incarceration for adults who meet the program criteria. The Probation Department collaborates with the Sheriff's Office, the Department of Health Services, and the Human Services Department to provide seamless, participant-engaged reentry service coordination that begins in custody, continues through supervision, and transitions participants to ongoing community-based supports when supervision ends. Services include vocational and life skills; substance abuse treatment; and Cognitive Behavioral Intervention. The external DRC outcome evaluation referenced above found that the more hours of DRC programming received, the less likely a participant is to be convicted of a misdemeanor or felony crime.</p> <p>Although FY 22-23 DRC participation was limited due to continuing pandemic-related restrictions, following are some highlights from the 45 exit surveys completed during the year (110 individuals exited the DRC during the year):</p>

- Most exiting participants (93%) reported being able to connect through the DRC with services that helped them succeed (82% responded this statement was “very true” and 11% “somewhat true”).
- Of the exiting participants who reported accessing Job Link employment services, 93% responded positively to the statement “Job Link Services have helped in finding employment” (87% “very true” and 7% “somewhat true”), and 87% of responses on the responsiveness and helpfulness of Job Link staff were also “very true.”
- Most participants in DRC outpatient substance use disorder treatment groups reported a high degree of satisfaction with the program: 90% found the program useful in addressing their substance use.

Home Confinement: This program has been essential in helping the Sheriff’s Office manage the population of the adult detention facilities by allowing qualified inmates to serve their sentences in the community. In FY 22-23, the program successfully placed 323 incarcerated persons into home confinement, saving 7,693 jail days.

Inmate Programs: The CCP funds a portion of the inmate education and development programs offered in the Sheriff’s Office adult detention facilities. In FY 22-23, the Sheriff’s Office began the process of rebuilding in-person programming to restore some services that were postponed for safety reasons due to a staffing shortage and ongoing COVID concerns. In FY 22-23, the Sheriff’s Office provided approximately 7,919 hours of programming to incarcerated persons.

There were a total of 287 formal classes offered during FY 22-23 in addition to programming hours completed through an independent study format. Mental health small group instruction occurred in housing modules by schedule, and additional time was offered as time permitted. One-on-one education occurred consistently and was utilized when small group instruction was not available. Hours of instruction included: Five Keys High School (4,200 hours), Santa Rosa Junior College academics (26 hours), and PATHS substance abuse class (40 hours). Religious and/or substance abuse services were provided by local volunteers through the following organizations: Alcoholics Anonymous (354 hours), Catholic Restorative Justice (563 hours), Christian Science (225 hours), Jehovah’s Witness (1,300 hours), Narcotics Anonymous (8 hours), Redwood Gospel (600 hours), and Center for Spiritual Living (603 hours).

**FY 2023-24 Community Corrections Partnership Survey  
PART B**

Part B of the CCP Survey collects information about the allocation of Public Safety Realignment dollars.

For detailed guidance on how to complete Part B of the CCP Survey package, please refer to the FY 2023-24 CCP Survey Data Reporting Guide at:  
[https://www.bscc.ca.gov/m\\_realignment/](https://www.bscc.ca.gov/m_realignment/)

The first question in this file, question 24, requests the name of the county for which the survey is being submitted.

Following the identification of the county, Part B is divided into two sections:

Section 6: FY 2022-23 Public Safety Realignment Funding Allocation

Section 7: FY 2023-24 Public Safety Realignment Funding Allocation

24. Please identify the county for which this portion of the survey is being submitted:

County Name: **Sonoma County**

**SECTION 6: FY 2022-23 Public Safety Realignment Funding Allocation**

Section 6 contains questions related to the allocation of FY 2022-23 Public Safety Realignment dollars. There are three (3) questions in this section.

When answering these questions, consider the funds allocated in FY 2022-23 and include any monies from 2021-22 growth funds and 2022-23 programmatic funding.

25. Of the total funds received in FY 2022-23, how did the CCP budget the allocation? Input the total allocation in the cell above the table. Within the table, identify where funds were allocated to, and include if the county used any carry-over funds (monies from previous annual CCP allocations) and/or if the county put any funds into a reserve fund (i.e., funds specifically set aside to be used when budget is disrupted or decreased so operations can continue). Please correct the information provided if there is a difference showing between the stated total allocation and the calculated amount (directly below the table). Differences will automatically display in **red**. Please correct any cells displaying **red** prior to submitting.

Total Allocation: \$ **20,177,603**
