SECTION 5: OPTIONAL QUESTIONS Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond "Decline to Respond."

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds. The CCP Subcommittee =The Program Review and Development Subcommittee reviews local data and evaluates materials to determine the need for innovative approaches and/or expansion of existing programs. The group uses evaluations and analysis to identify program modifications and any gaps in services.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

We have partnered with Evalcorp to conduct efficacy studies on our programs and efforts, including our recidivism data. We use this statistical information to measure outcomes and impact. We also require our Community Based Organizations (CBOs) and partners to collect data and present outcomes to ensure fidelity and utilization of best practices to produce outcomes to reduce recidivism. The Program Review and Development Subcommittee is tasked with reviewing the current programs to determine if they are meeting the needs or if additional services are needed.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate answer to the left of the list.

Yes

If "Yes," explain how.

As previously noted, the county pays close attention to the evaluation results when looking to award or continue funding to CBOs to provide services and our providers understand the importance of data driven decisions and funding.

18. Does the county use BSCC definitions (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check yes or no to the left of each BSCC Definition listed, as applicable.

<https://www.bscc.ca.gov/wp-content/uploads/AB-1050-Key-Term-Definitions.pdf>

Average Daily Population

Yes

Conviction	Yes
Length of Stay	Yes
Adult Recidivism	Yes
Treatment Program Completion Rates	Yes
19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)? Check the most appropriate answer to the left of the list of percentages.	61% - 80%

20. The BSCC would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?	<p>The Ventura County Behavioral Health Department (VCBH) in collaboration with the Ventura County Sheriff's Office (VSO), Probation and the Superior Court offer an array of services and programming for those under post release supervision. Clients with a history of mental illness and/or substance use disorder can participate in Reentry Court. This is a collaborative effort between the Court, the District Attorney, the Public Defender, VCBH, CBOs, and Probation. This program provides intensive case management in the context of judicial authority and focuses on stabilization and accountability. Additionally, VCBH's Alcohol and Drug Programs (ADP) employees three master's level clinicians who evaluate AB109 clients referred by probation. These clinicians are embedded in three probation field offices to screen and evaluate the level of services needed for each individual client and make the appropriate referral for treatment interventions. In addition, VCBH, Probation and VSO have an MOU in place to provide Vivitrol to clients who suffer from opioid addiction or severe alcohol addiction issues. Just recently, the Ventura County Medical Center (VCMC) opened a 9 bed acute detox ward. The program is for people who need to medically detox. An assessment is completed to determine the level of care. If someone does not meet the criteria for the detox program, they are referred to their out-patient clinic and assisted with detoxing at home.</p> <p>To address behavioral health needs, VCBH contracts with Telecare Corporation whose clinical staff assess and provide specialty mental health services for those who exhibit symptoms of serious mental illness. Other services include employment development services, and a menu of services targeted to reduce recidivism and address overall wellbeing. Since 2013, VCPA has contracted with HSA to provide specialized training and employment through the STEPS program. Additionally, Probation has contracted with CBO's to provide Moral Recognition Therapy, Case Management, Trauma services, housing through sober living beds, and other specialized treatment services as needed. Probation also contracts with GEO Reentry Services to run an adult reporting and resource center which provides cognitive behavioral therapy, substance abuse treatment, and supervision services that include individually tailored program services for clients referred by probation.</p>
--	--

21. What challenges does the county face in meeting the above program and service needs?	<p>Limited availability of residential treatment and housing beyond sober living beds.</p>
--	--

22. What programmatic changes and/or course corrections has the CCP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?	Based on data and program utilization, the CCP has allocated additional funding for increased services to expand to a greater population and need.
23. Describe a local best practice or promising program that has produced positive results. If data exists to support the results, please share.	Aside from all the evidence based programming and the adult reporting and resource center noted above, the in custody deputy probation officers appears to have some success. Probation has two officers embedded in the jail with the sole purpose of meeting with the AB109 population. These officers make referrals and enroll clients in programs in the jail, have frequent communication with the assigned supervision officer, coordinate release plans.
