## INTRODUCTION

In 2011, the United State Supreme Court upheld a lower cord order which directed California to reduce their prison population from 190% of capacity to 137.5% of capacity. In order to fulfill the Court order and improve rehabilitative and treatment services for offenders, the California State Legislature passed Assembly Bill 109 (AB 109). This legislation realigned a significant amount of State funding that supported State prison and parole capacity for non-serious, non-violent, non-sexual offenders. The legislature believed that local jurisdictions could take this new funding and develop services that would have a great affect at lowering recidivism rates among the effected criminal population. AB 109 placed the County Community Corrections Partnerships in charge of a significant portion of this new funding and tasked local criminal justice partners with collaboratively creating a public safety realignment plan. Since its inception, the Yolo County CCP has developed three Strategic Plans for the following terms: 2014-2019; 2019-2022; 2023-2025. These can all be found at [www.YoloCounty.gov/CCP](http://www.YoloCounty.gov/CCP).

As part of the Strategic Planning process, the Yolo County Community Corrections Partnership has identified key goals which, while refined over time, have maintained a steady focus as follows:

Goal A: Ensure a safe environment for all residents and visitors by reducing and preventing local crime.

Goal B: Hold individuals accountable for their actions and restore victims.

Goal C: Build individual competency, support community reintegration, and reduce recidivism.

For each goal, the CCP has identified desired outcomes with metrics and strategies to achieve those outcomes. The current Strategic Plan (2022-2025) can be found at [www.YoloCounty.gov/CCP](http://www.YoloCounty.gov/CCP).
