RE: APPROVAL OF CORRECTIVE ACTION PLAN PURSUANT TO WELFARE AND INSTITUTIONS CODE SECTION 209 (d) - LOS ANGELES COUNTY CAMP ROCKEY #7261.

Dear Chief Viera Rosa:

I am writing to inform you that I have approved the corrective action plan for Los Angeles County Camp Rockey.

An unannounced inspection of this facility was conducted on June 29-30, 2026, and an Initial Inspection Report was provided to the agency on July 7, 2026, providing information for the area found to be noncompliant with Title 15 of the California Code of Regulations. An approved corrective action plan (CAP) was due no later than September 5, 2026. On August 13, 2026, the Board of State and Community Corrections (BSCC) received your final CAP addressing the noncompliance.

Please note that, while I have reviewed and approved your agency's corrective action plan, final approval will be determined by the BSCC Board during its September 17, 2026, meeting. In your CAP, you indicate various resolution dates for the outstanding items of noncompliance, noting that all items of noncompliance will be corrected by September 30, 2026.

Please provide notification to the BSCC on or before December 4, 2026, when the department has completed all corrective actions and is in full compliance with all related sections of Title 15 referenced in the July 7, 2026, notice. BSCC staff will verify all corrective actions on or after that date. If you have any questions or concerns, please contact Field Representative Lisa Southwell by email at lisa.southwell@bscc.ca.gov.

Sincerely,

STEVEN WICKLANDER

§ 1354.5 Room Confinement	Records showed that youth were brought to the HOPE Center after fights or other dorm incidents and secured in locked rooms without documentation that noted the reason for the confinement specific to the immediate threat to the safety/security to youth or staff. The facility staff believed these placements were allowed under WIC 208.3(3), which permits brief confinement when necessary for required institutional operations. Staff reported these placements as “institutional operations” because supervisors review the video incident to determine the extent of youth involvement and identify contributing factors of the incident. They also assess for any potential excessive force, policy violations, or child abuse which is part of their administrative review process. These reviews as noted appear to be of an administrative nature rather than a required instructional operation. We also noted that most youth were routinely held for close to two hours regardless of the facts of the incident, and no documentation was provided explaining the need for the room confinement.	1.01	Written Communication: An instructional memorandum will be issued to all CGR personnel outlining the proper procedures for the use of the HOPE Center as they relate to room confinement. The memorandum will clearly define room confinement under Title 15, WIC 208.3 and provide specific direction regarding investigative placements to ensure sworn personnel apply the regulation consistently.
