

JUVENILE DETENTION PROFILE SURVEY

SECOND QUARTER CALENDAR YEAR 2014
SURVEY RESULTS

EXPLANATION OF RESULTS

The following pages contain the Juvenile Detention Profile Survey (JDPS) results for the Second Quarter of Calendar Year 2014. Page 2 contains totals for major categories such as the average daily population (ADP), highest one-day population, gender, and age range of detained minors. Page 3 contains information regarding counties' ADP and rated capacity (RC) breakouts, and page 4 contains information about a wide range of juvenile detention facility issues, including mental health needs, crowding, number of bookings, and average length of stay.

Pages 5, 6, and 7 contain trend information compiled from Calendar Year 2009 through Calendar Year 2014. The trend data is separated into Juvenile Hall related data and Camp related data.

Please keep the following in mind when reviewing this information:

- For overall capacity, crowding (highest one-day population the count of minors in detention on the day of each county's highest population) and ADP (the average daily detention population for the reporting period), we have complete data from all jurisdictions in the state that operate juvenile detention facilities.
- Each jurisdiction provides us with the average population, computed across all the days in the month, for each of the three months in the quarter. The weighted average across the three months is then computed for each jurisdiction (with the monthly averages weighted by the number of days in the month). The jurisdictions' ADPs are then combined to produce the state's total ADP.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- Felony/misdemeanor, gender counts, and age-range breakouts are based upon a one-day snapshot (on the 15th day of the final month of the quarter). These values are used to determine the percentage of the population in each felony/misdemeanor, gender, and age-range category. The percentages are then applied to the total ADP to project the expected ADP in each of the felony/misdemeanor, gender, and age-range categories.
- In addition to the population breakdowns for juvenile halls and camps, the report contains like information for youth who were part of non-facility based, alternative to detention programs. Youth in that category are listed under "Other Detention." Other detention includes home supervision with and without electronic monitoring, day reporting centers, work programs, and other alternatives to detention for which youth are credited with custody time.

Please note:

- o In early 2011, eight regional trainings were held for county reporters and contributors to the JDPS. When interpreting the JDPS results from the second quarter of 2011 forward, please consider that the clarification of variable definitions and calculations which occurred at those trainings may explain some unanticipated differences when compared to prior quarters.
- Each quarter, every county with juvenile detention facilities submits their data to the Board of State and Community Corrections (BSCC). While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level.

Board of State and Community Corrections Juvenile Detention Profile Survey - 2nd Quarter, 2014 Overall Capacity, Population and ADP

Second Quarter Report, 2014 - Juvenile Hall Data

Rated Capacity RC and ADP for Juvenile Halls

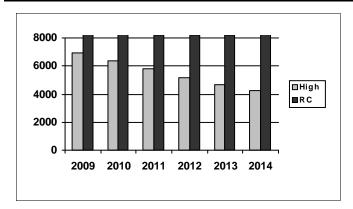

The ADP of Juvenile Halls increased by 121 youth from the previous quarter. Although ADP in Juvenile Halls have been trending downward, increases in ADP have been noticed historically during the second quarter of a given year. Based on historical trends, we can expect ADP to decline in the third quarter and for the 2014 annual ADP to be less than 2013.

| | Summary of Juvenile Hall ADP | | | | | | |
|-------|------------------------------|-------|-------|-------|--|--|--|
| 2009 | 2010 | 2011 | 2012 | 2013 | | | |
| 6,197 | 5,721 | 5,137 | 4,546 | 4,103 | | | |

| | Q1 | Q2 | | Average | | |
| , | 3,682 | 3,803 | | 3,743 | | |

Juvenile Hall Highest One-Day Population and RC

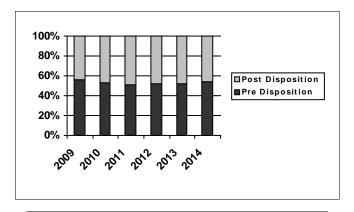

As noted above, increase in population commonly occurs in the second quarter of a given year. Although slightly higher than the first quarter, the highest one-day population is still below the 2013 average.

| Summary of Juvenile Hall Highest One Day | | | | | | |
|--|-------|-------|-------|-------|--|--|
| 2009 | 2010 | 2011 | 2012 | 2013 | | |
| 6,914 | 6,386 | 5,795 | 5,154 | 4,687 | | |

|---|--|-----|--|---------|--|--|
| | Q1 | Q2 | | Average | | |
| | 85% | 84% | | 84% | | |

Average Number of Juveniles Booked per Month

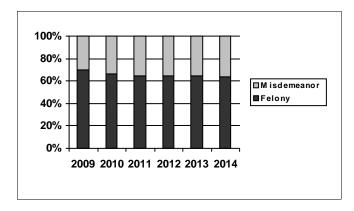

The average number of Juvenile Hall bookings increased by 158 from the previous quarter, but it is still lower than the 2013 average. The second quarter increase in bookings is above the first quarter, which happens frequently. Past population patterns suggest that the number of bookings will decrease by the third quarter.

| Summary of Juveniles Booked per Month | | | | | |
|---------------------------------------|-------|-------|-------|-------|--|
| 2009 | 2010 | 2011 | 2012 | 2013 | |
| 9,079 | 6,802 | 6,202 | 5,556 | 4,881 | |

| Q1 | Q2 | | Average |
|-------|-------|--|---------|
| 4,581 | 4,739 | | 4,660 |

Distribution of Charge in Juvenile Halls

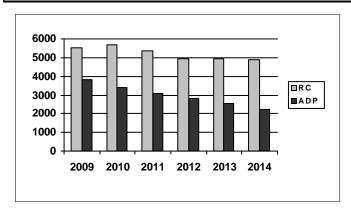

| For the past three years (2011-2013), the annual percentage of |
|--|
| Juvenile Hall population charged with a felony offense remained at |
| 65%. The distribution of charges has come closer together in the |
| second guarter of 2014. At 59% of youth having felony charges. |
| this marks the lowest percentage of felony charges in the history of |
| this report. |
| |

| I | Summary of Felony Charges in Juvenile Halls | | | | | |
|---|---|------|------|------|------|--|

| | Q1 | Q2 | | Average | |
| ٠ | 64% | 59% | | 61% | |

Second Quarter Report, 2014 - Camp Data

RC and ADP for Camps

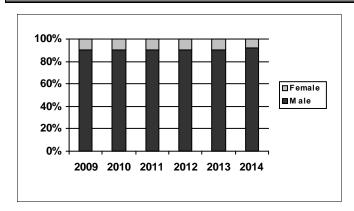

Similar to the average daily population in Juvenile Halls, Camps historically have seen slight increases in the second quarter of a given year. In 2014, we see a 3.2% decrease between the first and second quarters. This decrease is consistent with the declining Camp population.

| Summary of Camp ADP | | | | | |
|---------------------|-------|-------|-------|-------|--|
| 2009 | 2010 | 2011 | 2012 | 2013 | |
| 3,841 | 3,374 | 3,105 | 2,811 | 2,524 | |

| 2014 Summary of Camp ADP | | | | |
|--------------------------|-------|--|---------|--|
| Q1 | Q2 | | Average | |
| 2,267 | 2,195 | | 2,231 | |

Gender Distribution in Camps

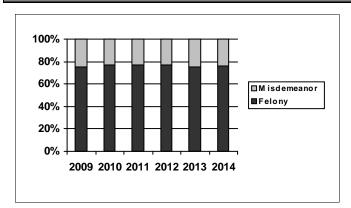

The Camp gender distribution between boys and girls has typically been at 90% and 10%, respectively. In the second quarter of 2014, the male population increased to 93%, lowering the female population to 7%.

| Summary of Males in Camps | | | | | |

Distribution of Charge in Camps

| In 2010, 2011, and 2012, youth with felony offenses in Camps were |
|---|
| at an all-time high, making up 77% of the total Camp population. In |
| 2013 and the first quarter of 2014, we saw this percentage drop |
| back down to the 2009 levels. Now in the second quarter of 2014, |
| this percentage has risen back to the 2010-2012 levels |

INSTRUCTIONS FOR INTERPRETING THE SURVEY REPORT

The Overall Capacity, Population and ADP page is designed to present the JDPS results for the major reporting categories.

- Capacity: this category presents the RC in terms of the number of beds in juvenile halls and camps/ranches that meet the BSCC standards.
- **High One Day:** for each month in the quarter, each jurisdiction reports the juvenile hall and camp/ranch populations that together constituted the highest one-day count of the month.
- Other: this category refers to the sum of all juveniles who are receiving custody credit while on home supervision, with or without electronic monitoring, or are in alternative confinement programs.

The County Breakout Report page is designed to present county-specific information.

• **County comparison:** this page identifies the ADP for each county and the percent that county contributes to the total state juvenile detention population. The counties are ranked in descending order based on their percentage of the overall juvenile detention population in the state.

The JDPS additional information page is designed to present all the remaining JDPS results not already listed.

- One Day Snapshot: the percentages in this section are percentages of the total ADP for juvenile halls, camps/ranches, and other juveniles in the system.
- Average number of days that one or more facilities in a county exceeded the RC: this
 value is the result of taking all of the counties "number of days of crowding" and averaging
 the figures submitted by all the jurisdictions. If a jurisdiction had no crowding days, that
 jurisdiction was not included in the computation. In other words, the value presented
 indicates the typical number of crowding days per month experienced by jurisdictions that
 have had one or more days of crowding in the Second Quarter of Calendar Year 2014.
- Average Length of Stay: these numbers are averages for all juveniles in each category:
 - "Juvenile Hall (all releases)" is computed by first taking the mean length of stay for all juveniles released from juvenile halls in a jurisdiction. Next, all the jurisdictions' means are averaged to produce a statewide figure.
 - 2) "Juvenile Hall to Camps [ranches]" is computed in the same fashion, but includes only those juveniles released from juvenile hall and placed in a camp or ranch.
 - 3) "Juvenile Hall to other out-of-home placements (i.e. group homes or foster homes)" presents the average length of stay for that subset of juveniles.
