EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey (JPS) results for the Third Quarter of Calendar Year 2015. Page 2 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The information below provides explanations and clarifications of the data presented.

Page 2

- Unless otherwise noted, projected totals are based upon the average per day for the variable in question. For example, there was an average of 74,429 inmates per day in local jails (excluding Type I's) during July through September 2015.
- For some variables (other than "ADP"), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number of "Bookings Per Month" is the average of the monthly totals for July, August, and September 2015.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., August 15, 2015): "Pretrial Release", "Early Release", "2 Strike Inmates", "3 Strike Inmates", "Felony Warrants", "Misdemeanor Warrants", "Juveniles in Custody", and "Criminal / Illegal Aliens [undocumented aliens]".
- "Assaults On Staff" are defined as the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the Third Quarter of Calendar Year 2015.
- Note: Totals are subject to slight variation due to rounding.

Please note:

- ➤ **Proposition 47** was voted into law on November 4, 2014, reducing penalties for certain low-level drug and property crimes from felony to misdemeanor.
- ➤ Each quarter, every county with Type II, III, and IV detention facilities submits their data to the BSCC. While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level. This survey results report presents county data at the specific point in time in which it was posted (June 24, 2016). However, upon request of the county, data can be updated as needed.
- The JPS Quarterly Report has been published on the BSCC website in its current form since 2004. As of the Second Quarter 2015 JPS data posting, historical graphs and comments will no longer be included within the report. In an effort to create a better experience for users, the historical graphs will be transitioned over into our Tableau Public Dashboard, "Jail Population Trends." (http://www.bscc.ca.gov/m_data&research.php). By transitioning into the use of our existing Jail Population Trends Dashboard, users will see newly added visualizations that mimic those graphs previously featured in the Quarterly Report. These summary graphs include statewide data for particular JPS variables (i.e. Average Daily Population, Non-Sentenced & Sentenced ADP, etc), without jurisdiction exclusions seen in other dashboard tabs. Users can control these statewide graphs and exclude/include specific counties to create custom visualizations. The source data for these visualizations is the same data found in the JPS Online Querying tool (https://app.bscc.ca.gov/jog//jps/QuerySelection.asp).

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

INTERPRETATION OF TABLE

Jail Populations: Third Quarter Calendar Year 2014 versus
Third Quarter Calendar Year 2015 (page 5)

This table:

- summarizes the Average Daily Population (ADP) results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (third column from left);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (second column from left);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (fourth column from left):
- lists the percentage of growth or decline in ADP for each jurisdiction (fifth column from left);
- lists the percentage of the overall state increase or decrease in ADP that is represented by each jurisdiction (sixth column from left);
- lists by jurisdiction the cumulative percentage increase and decrease in the state ADP (seventh column from left), starting with the jurisdiction with the largest percentage of increase and proceeding to the jurisdiction with the largest percentage of decrease;
- lists by jurisdiction the cumulative total increase and decrease in the state ADP (eighth column from left), starting with the jurisdiction with the highest increase first and proceeding to the jurisdiction with the highest decrease last; and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

- 1. The two numbers at the bottom indicate the "Total Increase" in ADP (in this case 122) and "Total Decrease" in ADP (-8,623). Specifically, the jurisdictions experiencing increases had a total increase of 122 ADP, and the jurisdictions experiencing decreases had a total decrease of -8,623 ADP. Subtracting -8,623 from 122 produces the overall decrease of -8,501 between the Third Quarter of Calendar Year 2014 and the Third Quarter of Calendar Year 2015.
- 2. The Sonoma Sheriff's Department's ADP increase of 86 is 70.5% of the total increase of 122. Seven jurisdictions had increases (Sonoma Sheriff's Department to Colusa Sheriff's Department, with one jurisdiction (Mendocino Sheriff's Department) reporting no change. When you get to Colusa Sheriff's Department, you have accounted for 100% of the increase (100% of the cumulative total of 122).
- 3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease Trinity Sheriff's Department to Los Angeles Sheriff's Department. When you get to the bottom of the table, you have accounted for 100% of the total decrease of -8623 inmates.
- 4. The cumulative percentage of ADP increase for the top four jurisdictions (Sonoma Sheriff's Department, Calaveras Sheriff's Department, Inyo Sheriff's Department, and Tuolumne Sheriff's Department) is 93.5%. Four jurisdictions (Santa Clara Corrections Department, San Diego Sheriff's Department, Orange Sheriff's Department, and Los Angeles Sheriff's Department) account for 47.2% of the total decrease.
