

JUVENILE DETENTION PROFILE SURVEY

FOURTH QUARTER CALENDAR YEAR 2014
SURVEY RESULTS

EXPLANATION OF RESULTS

The following pages contain the Juvenile Detention Profile Survey (JDPS) results for the Fourth Quarter of Calendar Year 2014. Page 2 contains totals for major categories such as the average daily population (ADP), highest one-day population, gender, and age range of detained minors. Page 3 contains information regarding counties' ADP and rated capacity (RC) breakouts, and page 4 contains information about a wide range of juvenile detention facility issues, including mental health needs, crowding, number of bookings, and average length of stay.

Pages 5, 6, and 7 contain trend information compiled from Calendar Year 2009 through Calendar Year 2014. The trend data is separated into Juvenile Hall related data and Camp related data.

Please keep the following in mind when reviewing this information:

- For overall capacity, crowding (highest one-day population the count of minors in detention on the day of each county's highest population) and ADP (the average daily detention population for the reporting period), we have complete data from all jurisdictions in the state that operate juvenile detention facilities.
- Each jurisdiction provides us with the average population, computed across all the days in the
 month, for each of the three months in the quarter. The weighted average across the three
 months is then computed for each jurisdiction (with the monthly averages weighted by the
 number of days in the month). The jurisdictions' ADPs are then combined to produce the
 state's total ADP.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- Felony/misdemeanor, gender counts, and age-range breakouts are based upon a one-day snapshot (on the 15th day of the final month of the quarter). These values are used to determine the percentage of the population in each felony/misdemeanor, gender, and age-range category. The percentages are then applied to the total ADP to project the expected ADP in each of the felony/misdemeanor, gender, and age-range categories.
- In addition to the population breakdowns for juvenile halls and camps, the report contains like
 information for youth who were part of non-facility based, alternative to detention programs.
 Youth in that category are listed under "Other Detention." Other detention includes home
 supervision with and without electronic monitoring, day reporting centers, work programs, and
 other alternatives to detention for which youth are credited with custody time.

Please note:

- In early 2011, eight regional trainings were held for county reporters and contributors to the JDPS. When interpreting the JDPS results from the second quarter of 2011 forward, please consider that the clarification of variable definitions and calculations which occurred at those trainings may explain some unanticipated differences when compared to prior quarters.
- Each quarter, every county with juvenile detention facilities submits their data to the Board of State and Community Corrections (BSCC). While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level.

Fourth Quarter Report, 2014 - Juvenile Hall Data

Rated Capacity RC and ADP for Juvenile Halls

Fourth quarter ADP continues to fall and stay below the Juvenile Halls' rated capacity. Between the first and fourth quarter of 2014, the ADP decreased by 4.75%. The 2014 annual ADP of 3,639 is 11.3% lower than the previous year's annual ADP and has decreased 48.8% since the year 2000, which had the highest ADP recorded (7,108).

	Summary of Juvenile Hall ADP						
2009	2009 2010 2011 2012 2013						
6,197	5,721	5,137	4,546	4,103

Average Number of Juveniles Booked per Month

The annual average of Juvenile Hall bookings continues to decline. The fourth quarter of 2014 marked the lowest quarterly average number of bookings to date, and 2014 ended with the lowest annual average of 4,401. Comparing 2014's annual average to the year with the highest average (10,892 in 1999), this represents a 59.6% decrease.

Summary of Juveniles Booked per Month								
2009	2009 2010 2011 2012 2013							
9,079	9,079 6,802 6,202 5,556 4,881

	Q1	Q2	Q3	Q4	Average	
,	4,581	4,739	4,264	4,029	4,401	

Distribution of Charge in Juvenile Halls

The first two quarters of 2014 showed that 64% of the Juvenile Hall
population were charged with a felony offense. After a decline in
the third quarter of 2014, the fourth quarter of 2014 continued to
decline and ended the year with an annual average of 62% with a
felony offense and 38% with a misdemeanor. After three years of
having an annual average felony percentage of 65%, the 2014
annual average felony percentage is the lowest percentage in the
history of this report.

Fourth Quarter Report, 2014 - Camp Data

RC and ADP for Camps

Just as California's Juvenile Hall ADP continues to decline, the annual Camp ADP shows the same downward trend. The fourth quarter of 2014 Camps ADP of 1,978 is the first quarter in the history of this report that Camps had an average daily population below 2,000. The 2014 annual Camp population average is 2,426 lower than the highest year's annual average population (4,566 in 1999) and represents a 53% decline in ADP.

Summary of Camp ADP						
2009	2010	2011	2012	2013		
3,841	3,374	3,105	2,811	2,524		

L	2014 Summary of Camp ADP					
	Q1	Q2	Q3	Q4	Average	
	2,267	2,195	2,124	1,978	2,140	

Gender Distribution in Camps

Over the past six years (2008-2013), females have made up 10% of the total Camp population. In 2014, there was a decline in the female population, with females accounting for only 8% of the total annual average Camp population; this being the lowest since 2001.

Summary of Males in Camps						
2009	2010	2011	2012	2013		
90%	90%	90%	90%	90%		

l	2014 Summary of Males in Camps						
	Q1	Q2	Q3	Q4	Average		
	91%	93%	91%	93%	92%		

Distribution of Charge in Camps

In 2010, 2011, and 2012, the percentage of youth in Camps
charged with a felony offense was at an all-time high, accounting
for 77% of the total population. Similar to California's Juvenile
Halls, Camps have seen the percentage of those charged with a
felony slowly declining while the misdemeanor population is slowly
increasing. 2014 saw an annual average of 74% of those with a
felony offense in Camps.

Summary of Felonies in Camps

75%	77%	73%	73%	74%	

INSTRUCTIONS FOR INTERPRETING THE SURVEY REPORT

The Overall Capacity, Population and ADP page is designed to present the JDPS results for the major reporting categories.

- Capacity: this category presents the RC in terms of the number of beds in juvenile halls and camps/ranches that meet the BSCC standards.
- High One Day: for each month in the quarter, each jurisdiction reports the juvenile hall and camp/ranch populations that together constituted the highest one-day count of the month.
- Other: this category refers to the sum of all juveniles who are receiving custody credit while on home supervision, with or without electronic monitoring, or are in alternative confinement programs.

The County Breakout Report page is designed to present county-specific information.

County comparison: this page identifies the ADP for each county and the percent that county contributes to the total state juvenile detention population. The counties are ranked in descending order based on their percentage of the overall juvenile detention population in the state.

The JDPS additional information page is designed to present all the remaining JDPS results not already listed.

- One Day Snapshot: the percentages in this section are percentages of the total ADP for juvenile halls, camps/ranches, and other juveniles in the system.
- Average number of days that one or more facilities in a county exceeded the RC: this value is the result of taking all of the counties "number of days of crowding" and averaging the figures submitted by all the jurisdictions. If a jurisdiction had no crowding days, that jurisdiction was not included in the computation. In other words, the value presented indicates the typical number of crowding days per month experienced by jurisdictions that have had one or more days of crowding in the Fourth Quarter of Calendar Year 2014.
- Average Length of Stay: these numbers are averages for all juveniles in each category:
 - 1) "Juvenile Hall (all releases)" is computed by first taking the mean length of stay for all juveniles released from juvenile halls in a jurisdiction. Next, all the jurisdictions' means are averaged to produce a statewide figure.
 - 2) "Juvenile Hall to Camps [ranches]" is computed in the same fashion, but includes only those juveniles released from juvenile hall and placed in a camp or ranch.
 - 3) "Juvenile Hall to other out-of-home placements (i.e. group homes or foster homes)" presents the average length of stay for that subset of juveniles.
