SECTION 4: Youth Enrollment Quarterly Totals

In this section, report the total number of youth that were referred to and enrolled in your project, their demographic data, as well as their participation in development activities and case management during the current reporting period.

1. Does your project enroll participants?

Indicate whether your project enrolls participants.

Yes:	
No:	

4.1 Youth Referrals & Enrollments

Record the number of youth referred to and enrolled in your project during the current reporting period. Do not include non-enrolled youth participants, such as students within a classroom, those reached via social-media campaigns, etc.

Each line should represent an unduplicated count of individuals. Line a. should include all individual youth referred to the project. This should only count each individual one time, even if they were referred multiple times this quarter or during a previous quarter.

For the purpose of data tracking, we will separate out data for youth enrolled in your project into the two enrollment cohort categories. Line b. should show the number of youth enrolling in the project for the FIRST TIME this reporting period. Any reenrollments will be counted on line c. SECOND TIME, as needed. Youth can "re-enter" the project if they exit for any reason and reenroll.

The TOTAL number of youth enrolled this quarter for each enrollment category should match their respective total lines of Entry into Services this Quarter (Point of Youth Diversion and Youth Participation Status), Age Groups, Gender Identity, Race/Ethnicity, Education Status, Employment Status and Risk Status.

- **FIRST TIME Enrollment Cohort:** Youth that have entered the project for the first time during the current reporting period.
- **SECOND TIME Enrollment Cohort:** Youth that entered the project, left the project during any prior reporting period, and then reenrolled during the current reporting period.

b. Total Youth Enrolling for the FIRST TIME:	
c. Total Youth Enrolling for the SECOND TIME:	

4.2 Youth Enrollment Data

In this section, report data for youth entering your project for the First Time or Second Time. If a youth has exited the project for any reason and returned, they are considered a "re-entry". All data for youth re-entering the project will be recorded in the SECOND TIME Enrollments column below, as appropriate.

The TOTAL number of youth reported on respective total lines of all boxes in Section a. Point of Entry (Source of Referrals, Point of Youth Diversion and Youth Participation Status), Section b. Demographics of Youth at Enrollment (Age Groups, Gender Identity, Race/Ethnicity, Education Status, Employment Status and Risk Status) should equal and match the corresponding cells in 4.1.a, 4.1.b and 4.1.c.

For example: if 25 participants were referred (a.) and 15 enrolled for the first time (b.), then the totals for Source of Referrals, Point of Youth Diversion, Youth Participation Status, Age Groups, Gender Identity, Race/Ethnicity, Education Status, Employment Status and Risk Status should each equal 15 participants.

a. Point of Entry:

Report the number of youth entering your project based on the source of their referral, the point of diversion, and participation status during the current reporting period. Report only one referral source per participant.

c. Actively Engaged Youth & Development Activities and Case Management Services Provided during the Reporting Period

This section captures a snapshot of actively engaged youth this quarter, regardless of enrollment quarter.

1. Total Number of Actively Engaged Youth during the Reporting Period

Record the total number of youth currently enrolled in your project who are actively engaged and participating in each activity *during the current reporting period*. ***This includes youth enrolled in this and prior quarters who continue to engage in services offered.*** "Actively Engaged" is defined as: receiving services during the reporting

period. This figure provides a snapshot in time of participants served during the reporting period. Include those youth who are identified as "Successfully Completed – Still Active" in these counts (see Section 4.1b).

Total # of Actively Engaged Youth this Quarter _____

2. Total Number of Development Activities and Case Management Services during the Reporting Period

For Actively Engaged Participants (see c.1), report the number of youth who received/participated in each of the services or activities below at any time *during the current reporting period*. The same participant may be reported across multiple services or activities and quarters. The purpose of this table is to provide a 'snap-shot' of the project participation during the reporting period, so the total number of **participants receiving each service** should be provided rather than a count of how many of how many times a service was provided.

For example: if a youth received three group mentoring sessions *during the current reporting period*, they would only be counted **one time** in a column: under "Mentoring". However, if a youth received one group mentoring session and one academic tutoring session *during the current reporting period*, they would be counted **twice** in a column: once under "Mentoring" and once under "Academic support/tutoring".

Include those participants who are identified as "Successfully Completed – Still Active" in these counts (see Section 4.1.b.). These activities/services represent those identified as part of your project on page 6. If the project did not complete these activities this quarter, report zero. If the project will not ever be implementing these activities, report N/A.

No:	<input type="checkbox"/>

If you select "Yes" you will be required to complete Part 2 of the QPR form for this quarter.

SECTION 5: Additional Narrative

Please provide any additional narrative necessary to detail your project during current reporting period. If providing additional details in reference to a section within this report, please cite relevant section numbers. SECTION 6: Youth Exited Quarterly Totals

In this section, you will be asked to report the total number of youth exiting your project during the current reporting quarter, why those youth left, and the demographic information for each enrollment cohort.

6.1 Youth Exited During Quarter

a. Total Youth Exited During Reporting Period

Record the total number of enrolled youth exiting *during the current reporting period* based on the number of times they entered your project. Totals should include each type of exit (Successful Completion – Still Active, Successful Completion – Inactive, Dropped Out/Lost Contact, Non-Compliant (asked to leave), Arrest/Incarceration, Services not appropriate for youth, and Unknown).

	1. From FIRST TIME Enrollments	2. From SECOND TIME Enrollments
Total # of Youth Exited During the Reporting Period		

b. Reasons for Youth Exits

Record the number of youth who exited your project *during the current reporting period*. The values in each column should be a non-duplicated count, so the TOTAL values should match the values in the box in Section 6.1.a above. **Note: If a youth previously identified as “Successful Completion - Still Active” stops receiving services, do not reclassify that youth as “Successful Completion - Inactive”.**

Reasons for Youth Exit	1. FIRST TIME Enrollments Exiting this Quarter	2. SECOND TIME Enrollments Exiting this Quarter
