The selected candidate considered for the advertised position will be required to undergo a fingerprint clearance and any offer of employment will be contingent upon live scan fingerprint results.

Scope of Position:

Under the general supervision of the Staff Information Systems Analyst Supervisor I, the incumbent is primarily responsible for providing direct service and support to employees of the Board of State and Community Corrections who are experiencing problems with their desktop computing systems, associated printers, and other related hardware and software. The incumbent will assist in providing direct training and tutoring to individual employees. Serve as member of a team of employees working in support of a specific technology project, and perform independent research and other related IT duties as required.

Duties and Responsibilities:

(Candidates must perform the following functions with or without reasonable accommodations.)

60% Direct Service and Support – Under supervision, the incumbent provides direct service and support to BSCC employees who are experiencing problems with their desktop PC's, portable computing systems, associated printers, network connections, and other related hardware and software. The incumbent is responsible for assessing and determining the true nature and causes of the problems being encountered, identifying the correct solution(s) to the problems, and (within guidelines established by the BSCC IT Team) independently implementing the identified solution(s). The incumbent may also be required to configure, rebuild, and/or reimage desktop or portable computing systems. In performing these duties the incumbent is expected to demonstrate appropriate initiative and exercise good judgment based on skills and knowledge obtained through training in personal computer hardware and software technologies. The incumbent is expected to demonstrate appropriate people skills such as listening carefully to the needs and concerns expressed by BSCC employees who are experiencing frustrations or problems with computing systems. The incumbent is expected to have and demonstrate appropriate knowledge of Microsoft Windows operating systems and software products.

20% Serve As a Member of a Team of Employees – The incumbent will at times be expected to take part in group projects with technically trained co-workers in the accomplishment of a specific project, large task, or group of small tasks. Types of projects may include: deploying new computing systems and software to an office which may not be familiar with the technology being deployed. The incumbent will also be expected to serve as an active and contributing member of special task forces or teams that may be formed from time to time to accomplish specific large projects.

15% Training and Mentoring – The incumbent will be expected to occasionally train individual employees (and possibly small groups of employees) in specific computer
