# SUMMARY PUBLIC SAFETY REALIGNMENT PLAN HUMBOLDT COUNTY FY 22-23

Established January 2012 Reviewed 11-1-2022

#### Background:

In 2011, the State of California signed into law the California Public Safety Act of 2011 (AB 109) that shifted populations of criminal justice offenders from the state prison and parole system to the counties. It created the post release community supervision (PRCS) population of inmates released from state prison to county probation. It also shifted the incarceration responsibility for non-serious, non-violent, non-sex offense prison sentences from the state prison system to the county jail system. A majority of these inmates were sentenced to a period of mandatory supervision which was monitored by the county probation department.

Realignment expanded the role and obligations of the pre-existing Community Corrections Partnerships (CCP). In 2009, Senate Bill 678 established the CCP to serve as an advisory committee to county probation departments. Assembly Bill AB 109 (2011) created a CCP Executive Committee which was responsible for developing a local community corrections plan (CCP Plan). Humboldt County's plan sought to deal with the impacts the shift of responsibilities would have on a County Correctional Facility (HCCF) that was already at full capacity and supervision strategies to cope with the influx of new offender populations brought about by the legislation.

On January 10, 2012, the Humboldt County Board of Supervisors (BOS) approved the County's Public Safety Realignment Plan. Since then, the plan has been amended periodically by the CCP executive committee and approved by the BOS through supplemental agenda items and County adopted budgets.

### **Community Corrections Partnership Meetings:**

The Community Corrections Partnership Executive Committee's membership is defined by Penal Code Section 1230.1(b). It meets on the third Wednesday of every month and complies with Brown Act procedures. Its members are:

- Chief Probation Officer (Chair): Shaun Brenneman
- Chief of Police: Ron Sligh, Chief of Police, Ferndale Police Department
- Sherriff: William Honsal
- District Attorney: Maggie Fleming
- Public Defender: Luke Brownfield
- Designee of Presiding Judge: Kim Bartleson, Court Executive Officer
- Head of County Department of Health and Human Services: Connie Beck

### County Public Safety Realignment Plan:

Humboldt County Public Safety Realignment Plan was initially created with the following goals:

- 1) Implement a jail pretrial release and supervised own recognizance (OR) program
- 2) Expand the Sheriff's Office Alternative Work Program (SWAP)
- 3) Implement Department Health and Human Services jail and Day Reporting Center (DRC) Multi-Disciplinary Team Services
- 4) Implement Probation Department's Adult DRC
- 5) Add additional bunk beds to expand custody maximum security housing at HCCF
- 6) Develop an intra-agency AB109 data management platform

7) Provide Cross-Training Programs for CBO Partnering Drug Treatment Service Providers (EBP)

Over time, the plan has expanded to include addressing service gaps in the criminal justice system infrastructure and providing training to law enforcement and service providers.

# Goal 1: Implement a jail pretrial release and supervised own recognizance (OR) program

Public Safety Realignment, having shifted detention responsibilities from the State to the County, necessarily impacted the jail population. In Humboldt County, the HCCF was already at maximum capacity prior to AB 109's implementation. One of the methods Humboldt County sought to address the jail issue was to develop a pretrial supervised release program as an alternative to detention.

The Supervised Release Program is operated by the Humboldt County Probation and Sherriff Departments. It utilizes the Ohio Risk Assessment – Pretrial Assessment Tool (ORAS-PAT) to categorize a participant's likelihood to fail to appear for court or violate pretrial release by committing a new crime. Probation and Jail staff administer the assessment tool to persons being held past their arraignment hearing. The assessment is provided in a written report to the court prior to a hearing to address custodial status.

Persons placed on supervised release are monitored by the Humboldt County Probation Department. Clients may access services to address acute needs through the County's day reporting center.

During FY 19-20 there were 296 new SRP program entries, and an overall total of 406 participants active at some point, during the fiscal year. On June 30, 2020, there were 149 participants (point-in-time count) active in the pre-trial program.

During FY 20-21 there were 199 new SRP supervisions (an approximate 33% decrease in new program entries from prior year), and an overall total of 347 active at some point, during the fiscal year.

On June 30, 2021, there were 93 participants (point-in-time count) active in the pre-trial program.

During FY 21-22 there were 295 new SRP supervisions and an overall total of 387 active at some point during the fiscal year.

On June 30, 2022 there were 139 participants (point-in-time count) active in the pre-trial program.

The proceeding table outlines the approved allocations to operate the pretrial supervision program.

| Goal 1                                 | Implement Jail Pretrial Release an  |                |                 |                   |  |

# Goal 2: Expand the Sheriff's Office Alternative Work Program (SWAP)

This goal seeks to address the impacts of AB 109 realignment on the HCCF population. As previously stated, the jail was at maximum capacity prior to the implementation of realignment.

The SWAP program was an established program well before 2011. It serves as an alternative to custody for persons sentenced to the county jail whereby an individual completed a day of work in lieu of a day in jail. Prior to realignment, participants paid an initial application fee to enroll in the program and a daily fee for each day served on the program. The fee was a barrier for participation and limited the number of people who could take advantage of the program.

The plan sought to remove the barrier thereby increasing the number of participants in SWAP and reducing the number of people in jail. It expanded capacity by adding staff and equipment. The program further subsidized participation so people could opt into the program at no cost.

COVID-19 reduced SWAP participations for fiscal years 19-20 and 20-21.

On June 30, 2020, 204 participants (point-in-time count) were active in SWAP; by the end of July 2020, that number decreased to 158 participants. During the fiscal year, 427 new SWAP participants entered the program, and 224 individuals successfully completed the program. There was a monthly average participation rate of approximately 180 individuals.

On June 30, 2021, there were 109 participants (point-in-time count) active in SWAP. During the fiscal year, 176 new SWAP participants entered the program, and 179 individuals successfully completed the program. There was a monthly average participation rate of approximately 125 individuals.

On June 30, 2022, there were 119 participants (point-in-time count) active in SWAP. During the fiscal year, 268 new SWAP participants entered the program, and 189 individuals successfully completed the program. There was a monthly average participation rate of approximately 135 individuals.

| Goal 2                  | Expand Sheriff's Work Alternative Program (SWAP)   |
|-------------------------|--|
| Outcome<br>Measure      | Number of SWAP participants increased to include 25 more convicted<br>offenders  |
| Actions<br>Accomplished | <ul> <li>Hired 1 correctional officer to supervise SWAP crew</li> <li>Purchased van to transport participants to mobile work sites</li> <li>Purchased weeds eaters, work equipment and new wood splitter to increase job safety and efficacy</li> <li>Subsidized 100% of SWAP participation fee to replace \$35 application fee and \$30/day fee</li> <li>During FY 19-20, HCSO reported developing an Electronic Monitoring (EM) contract for the SWAP population; pilot phase anticipated providing ankle monitors to eligible candidates for activities such as truck driving school</li> </ul> |

The proceeding table outlines the allocations to expand the SWAP program.

| Goal Met                        | Yes – if measure is based only on number of participants entering/booked into<br>the program, and completion outcomes are not considered. Based on monthly<br>SWAP booking counts, participation has fluctuated but has increased since<br>2013.<br>COVID-19 has negatively impacted SWAP performance for fiscal years 19-20<br>and 20-21. |      |                  |                 |  |  |

| · · ·                           | chase of new van, \$3,000 for weed<br>er SWAP equipment  | HCSO | 2/1/20           | (\$28,000.00)   |  |  |
| Wood splitter fo                | or SWAP wood lot   | HCSO | 7/17/13          | (\$14,000.00)   |  |  |
|                                 | Total One-Time Costs   |      |                  | (\$42,000.00)   |  |  |

### Goal 3: Implement DHHS Jail and DRC Multi-Disciplinary Team Offender Services

This goal targets an identified need for expanded mental health services both in the County Jail and the realigned population. It also provisions a multi-disciplinary team necessary to staff the Community Corrections Resource Center (CCRC), a day reporting center created as part of the public safety realignment plan.

The goal includes psychiatric services for the CCRC, employment assistance, substance use disorder treatment, individual counseling, cognitive behavioral groups, and mental health case manager. It also expanded services in the jail to include clinical support and substance use disorder counseling.

Ongoing attainment of this goal has been hampered by staff shortages and difficulty in hiring mental health personnel.

The proceeding table outlines both the ongoing and historical allocations toward meeting this goal.

| Goal 3           | Implement DHHS Jail and DRC N                      |                |                |                   |

### Goal 4: Implement Probation Department's Adult Day Reporting Center.

This goal seeks to provide supervision and services to the post release community (PRCS) and mandatory supervision (1170(h)(5)(B) PC) populations. It created a day reporting centered named the Community Corrections Resource Center (CCRC), leased the site for the program, and staffed it with personnel.

The goal also includes funds for client services which pays for residential substance use disorder treatment, sex offender treatment, transitional housing, and other direct services.

It has been in operation since 2012 and is fully staffed.

During FY 19-20 there were 163 new realignment supervisions (118 PRCS and 49 MS by case type), and an over total of 491 supervisions active during the fiscal year. (289 PRCS and 229 mandatory supervision offenders by case type).

On June 30, 2020, the CCRC had 324 open supervisions (190 PRCS and 154 mandatory supervisions by case type). Some offenders had multiple cases.

During FY 20-21, there were 120 new realignment supervisions (104 PRCS and 18 MS by case type), and an overall total of 444 supervisions active during the fiscal year (293 PRCS and 173 mandatory supervision offenders by case type).

On June 30, 2021, there were 291 PRCS/MS supervisions (178 PRCS and 133 mandatory supervisions by case type). Some offenders had multiple cases.

During FY 21-22 there were 102 new realignment supervisions (64 PRCS and 38 mandatory supervisions by case type), and an overall total of 284 supervision active during the fiscal year (175 PRCS and 109 mandatory supervision offenders by case type).

On June 30, 2022, there were 184 PRCS/MS supervisions (111 PRCS and 73 mandatory supervisions by case type). Some offenders had multiple cases.

## Goal 6: Develop and Intra-Agency AB109 Data Management Platform

Part of the Public Safety Realignment Plan in 2011, was integrating Sherriff, Probation, and Health and Human Service data into a single data warehouse. The County contracted with the California Center for Rural Policy to build the data sharing system.

The project was successful in integrating sheriff and probation data; however, was unable to merge health and human service data. The initiative was shelved in 2017 with members reporting data to the body individually.

| Goal 6          | Develop an intra-Agency AB109 Data Management Platform                      |            |                |                    |  |

# Goal 7: Provide Cross Training Programs to Community Based Organizations (CBO) Partnering Drug Treatment Service Providers

The intention of this goal is to build capacity in CBO partners. The CCP brought in subject matter experts in evidenced based programming to train local service providers. These included the University of Cincinnati's substance use disorder treatment regimen and moral reconation therapy.

It is part of the plan to hold these training periodically as new staff are brought into the treatment providers.

### Plan Amendments Addressing Criminal Justice Infrastructure and Training.

Throughout the last 11 years, Humboldt County has amended the Public Safety Realignment Plan to address criminal justice infrastructure needs and the expenditure of the annual \$100,000 in training dollars.

The largest amendments have been to increase mental health services within the jail and a contribution to the County's public safety communication infrastructure.

|      | Criminal Justice Infrastructure and Training   |      |                  |                                      |  |

#### Reserve:

The County Public Safety Realignment Plan includes a reserve in the fund. It is established as 20% of the ongoing budgeted costs for the fiscal year. The reserve is held as a contingency in case the revenues do not reach the established base established by the State of California.

#### Summary:

The Humboldt County Public Safety Plan has stabilized into 3 major areas. It provides relief to jail overcrowding, operates a pretrial supervision program, and funds the supervision and service delivery to AB 109 realignment population.

The increase in salary costs and services are such that the plan has fully committed its base revenues to the operation of its current goals. Amendments to the plan in future will likely focus on allocation of training funds, and possible service reductions if revenues do not match planned expenditures.

It is noted, in November 2022, the CCP voted to approve expenditure of \$3.8 million dollars to support the SB 823 Jail Construction project. This amendment to the CCP plan has yet to be reviewed and approved by the Board Of Supervisors.
