June 19, 2020

During the COVID-19 emergency, California has experienced a reduction in juvenile detention populations. California's juvenile detention population on February 29, 2020 was estimated to be 3,461.¹ As of June 13, the jail population was 2,336.² In the 15 weeks between February 29 and June 13, 2020 there has been a 32.5 percent reduction in the juvenile detention populations.

California's Juvenile Detention Population Changes from February 29 through June 13, 2020.

¹ February Juvenile Detention Profile Survey (JDPS) reports were used to estimate baseline data for the average daily population (ADP) for the week of February 29, 2020. The February ADP was used as the week's estimate.

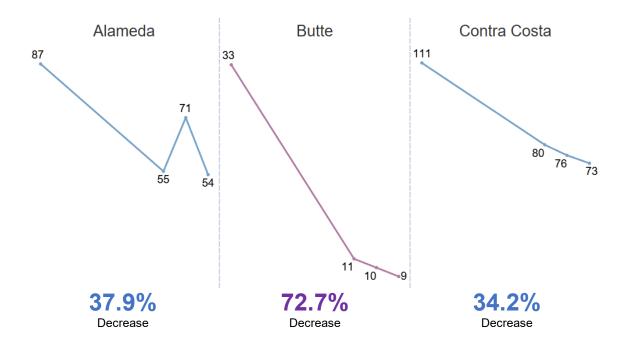

² Supplemental JDPS reports for the week of June 13, 2020 were used for the June 13, 2020 ADP estimate. Supplemental JDPS data are collected weekly. June 13, 2020 data reflected the ADP for the week of June 7 – June 13, 2020. Some counties have yet to report for June 13, 2020 and the most recent Supplemental JPS report prior is used; please see Table 1 for more details.

June 19, 2020

This decrease has not been consistent across counties. The figures that follow provide each county's average daily population (ADP) for four dates: (1) February 29, 2020, (2) May 16, 2020, (3) May 30, 2020, and (4) June 13, 2020.³ The percent change between February 29 and June 13, 2020 is below the figure. Percent change values were classified and color-coded into the following categories:

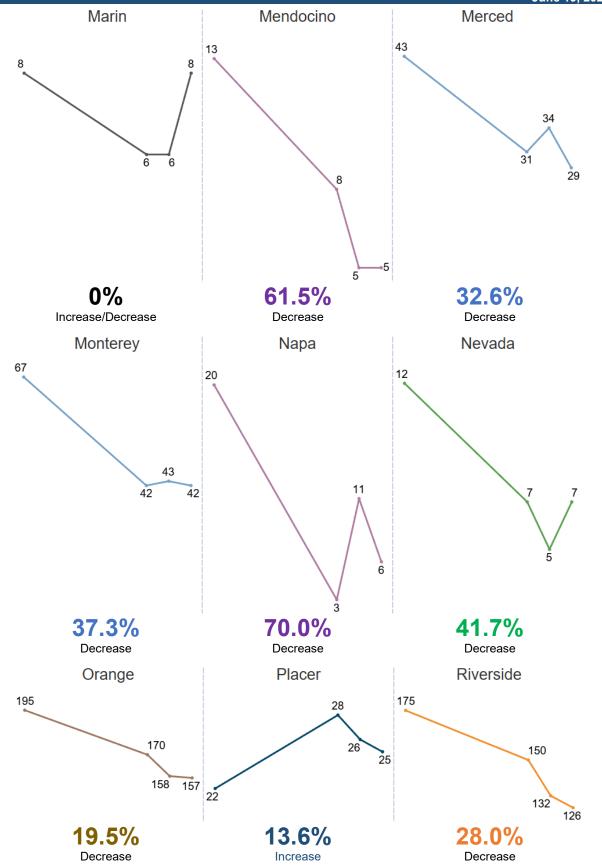

- Increase
- No change
- Decrease less than 9%
- Decrease between 10% through 19%
- Decrease between 20% through 29%
- Decrease between 30% through 39%
- Decrease between 40% through 49%
- Decrease of 50% or greater

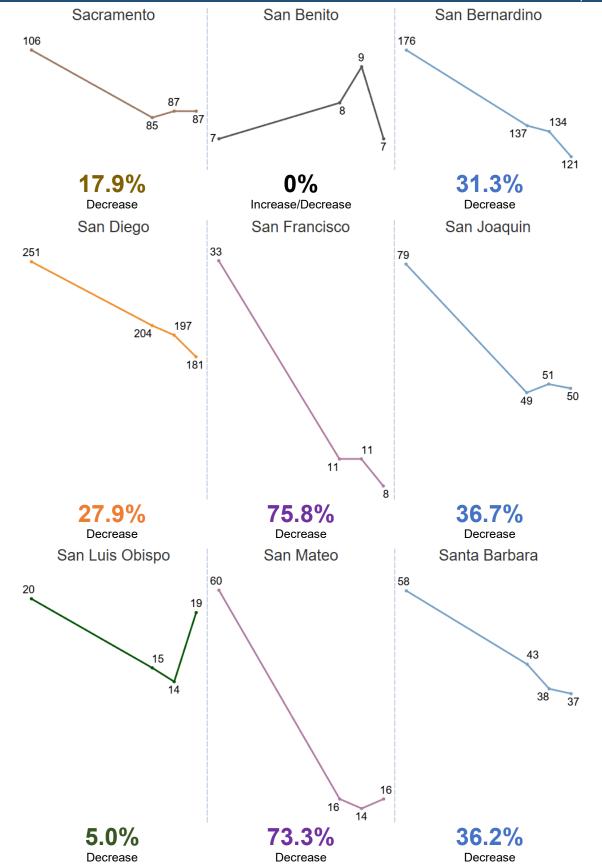

Diverse patterns among counties reflect not only differences in policy approaches, but other county-specific factors. The BSCC does not collect details on county policies that may influence these data and cautions against inferences about the comparative performance of counties.

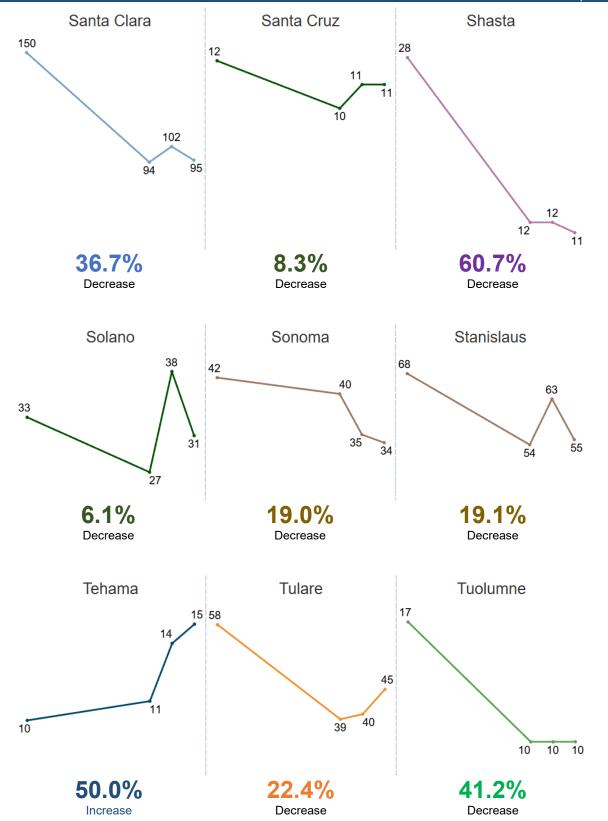

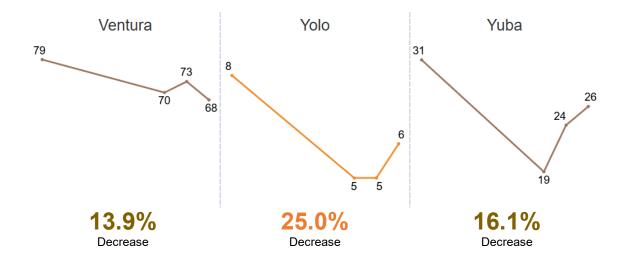

³ Figures were not provided for counties that operate only a Special Purpose Juvenile Hall (SPJH). A SPJH is a county facility used for temporary confinement of youth, not to exceed 96 hours, prior to transfer to a full-service juvenile facility or release. Data provided for SPJHs do not provide meaningful trends, thus are excluded from this document.
