The Board of State and Community Corrections provides statewide leadership, coordination, and technical assistance to promote effective state and local efforts and partnerships in California's adult and juvenile criminal justice system, including providing technical assistance and coordination to local governments related to realignment.

Applications will be screened and only the most qualified will be interviewed. Application must include "to" and "from" employment dates (m/d/y), hours per week, and prior employer contact information including contact number. Applications received without this information may not be considered for this position.

Duties and Salary Range will reflect the level appointed.

All types of appointments will be considered, including but not limited to, T&D Appointments.

The selected candidate considered for the advertised position will be required to undergo a fingerprint clearance and any offer of employment will be contingent upon live scan fingerprint results.

Scope of Position:

Under general direction of the Chief of Research (Research Manager III), the Research Analyst I (RA I) will perform basic technical research and statistical analyses. This position will gather, compile, edit and interpret quantitative and qualitative data applying appropriate research methodologies.

- Maintain and update analytic databases containing information from departmental, local, State and federal agencies, non-governmental, and other sources to use in research projects and/or to meet mandatory reporting requirements. Coordinate data gathering processes with stakeholders (e.g., BSCC divisions, State departments, local jurisdictions, etc.) to ensure project objectives are met and maintain communication logs. Assist with the development and maintenance of data dashboards utilizing appropriate computer applications (Tableau, SAS, etc.) to present data in a structured, professional, and interactive format to various stakeholders. Coordinate updates to the database workbooks and internal procedures manuals. Work closely with BSCC management and staff to update data applications as necessary.
- Assist the Research Unit's Research Program Specialists to plan and design the approach and sequence of steps for the collection of data, interpretation of findings, and documentation and reporting of findings in a structured and professional format including the production of various research and statistical reports, data charts and tables. Analyze quantitative and qualitative data to address questions or concerns relevant to research studies. Assist in the gathering, compiling, editing, interpreting and performing of complex analysis of internal and stakeholder databases and the designing of presentations effectively utilizing appropriate computer applications (Excel, Word, Access, Power Point, etc.) to extract data, link files, integrate and transfer data across applications, assessing accuracy, consistency, and quality of data, and maintain production guidelines and data histories
- Respond to information requests for statistical data from internal staff and external stakeholders. Analyze requests and determine level of oversight required for approval/denial to release data and determine what support is

The State of California is an equal opportunity employer to all, regardless of age, ancestry, color, disability (mental and physical), exercising the right to family care and medical leave, gender, gender expression, gender identity, genetic information, marital status, medical condition, military or veteran status, national origin, political affiliation, race, religious creed, sex (includes pregnancy, childbirth, breastfeeding and related medical conditions), and sexual orientation.
