JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the first quarter of 2004. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

Page 1

- Unless otherwise noted, "projected totals" are based upon the average per day for the variable in question. For example, there was an average of 76,018 inmates per day in local jails (excluding Type I's) during the three-month span of January to March 2004.
- For some variables (other than ADP), we did not receive data from all jurisdictions. We compute the percentage of the ADP that was housed in the jurisdictions that did supply their data for the variable in question. Next, we increase the received number for the variable in question by an amount that estimates the statewide total. For example, if 90% of the state's ADP was housed in jurisdictions that provided us with the number of Three Strike inmates, we would increase that number by 1/9th to estimate the state total.
- The number for "Bookings" is the average of the monthly totals for January, February, and March.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., February 15, 2004); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the first quarter of 2004.

Pages 2 and 3

- The data in the 10-Year Summary tables are based upon survey data which the Board has gathered since the early 1980's.
- Prior to 1995, yearly averages were reported to the Board on an annual basis. Yearly averages from 1996 on have been the average across the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

BOARD OF CORRECTIONS JAIL PROFILE SURVEY

Reporting Period: January to March, 2004

County Jail Populations

ADP ^a	76,018 ^b
Holding Areas	1,689
Average "Under the Roof" ^c	77,707 ^d
Highest One Day Count	82,458 ^e

Special Use Beds

Medical Beds	941
Mental Health Beds	3,450

County Jail Populations

Felony	58,925
Misdemeanor	17,093
Total	76,018
Non-Sentenced Males	43,609
Non-Sentenced Females	6,254
Sentenced Males	22,618
Sentenced Females	3,537
Total	76,018
Maximum Security Inmates	22,553
Medium Security Inmates	35,948
Minimum Security Inmates	17,517
Total	76,018

Released Per Month Due to Lack of Space

Pretrial Release	7,142 ^f
Early Release	7,856 ^f
Total	14,998

Inmates with 2 and 3 Strikes

2 Strike Inmates	3,951 ^g
3 Strike Inmates	1,528 ^g
Total	5,479

Unserved Warrants

Felony Warrants	270,823 ^g
Misdemeanor Warrants	2,128,013 ^g
Total	2,398,836

Inmates From Other Jurisdictions

Housed on Federal Contract	3,528
Housed on Contract with CDC	2,465
From Other Counties on Contract	174
Awaiting Transport	1,306
Total	7,473

Other Jail Profile Survey Variables

Bookings Per Month	107,471 ^f
Juveniles in Custody	67 ^f
Criminal / Illegal Aliens	8,443
Assaults On Staff	258

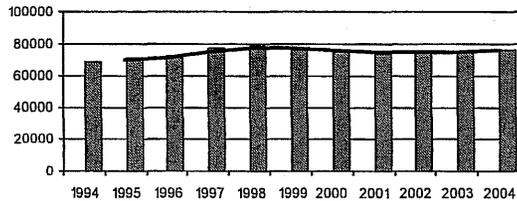

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

Jail Profile Survey

2004

Average Daily Population

10 Year Summary									
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
69,233	70,938	72,007	76,938	79,143	76,311	75,044	73,824	75,156	75,340

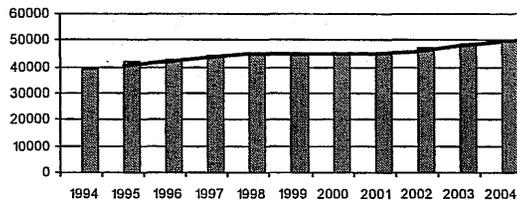

The ADP for the 1st Quarter of 2004 was 76,018 inmates. This was the highest ADP recorded since the 3rd Quarter of 1999, and 465 inmates higher than in the 1st Quarter of 2003. The ADP had declined from 1998 through 2001 when the downward trend ended. Since then the ADP has increased steadily from a low of 72,684 in the 4th Quarter of 2001 to its present level. We expect this upward trend to continue for the foreseeable future, especially considering the recent increases in the California crime rate.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2003	75,553	75,257	75,288	75,266	75,340
2004	76,018				76,018

Non-sentenced ADP

10 Year Summary									
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
39,104	42,137	42,539	44,593	45,303	44,509	44,940	45,187	46,975	49,105

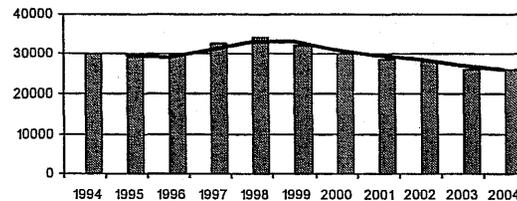

The non-sentenced ADP is currently at its highest level in the Jail Profile Survey's history at 49,863. In the 2nd Quarter of 1998 when we experienced the highest ADP to date (80,391 inmates), the non-sentenced total was only 45,575. Despite several historical reversals in the overall ADP trend, the non-sentenced population has increased in an almost perfect linear fashion since we have been tracking this variable.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2003	48,296	49,088	49,518	49,499	49,105
2004	49,863				49,863

Sentenced ADP

10 Year Summary									
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
30,129	28,801	29,468	32,347	33,841	31,802	30,109	28,637	28,180	26,235

The sentenced ADP (now 26,155) is only slightly higher than it was 20 years ago (25,674 sentenced ADP for the 1985 calendar year), and almost 7,700 fewer inmates than at the peak in 1998 (33,841 sentenced inmates). This finding is consistent with the fact that in the 1st Quarter of 2004, an average of 7,856 sentenced inmates were released early due solely to lack of jail space (i.e., there is a capacity ceiling on the number of sentenced inmates the jail system can house).

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2003	27,257	26,169	25,770	25,767	26,235
2004	26,155				26,155

Jail Profile Survey

2004

Percentage Non-sentenced

10 Year Summary									
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
57%	59%	59%	58%	57%	58%	60%	61%	63%	65%

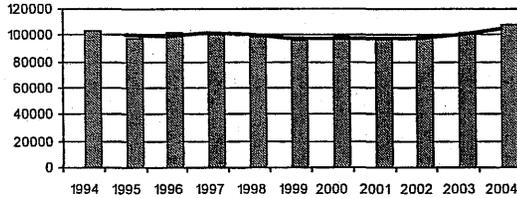

Since 1985, while the sentenced population was increasing by only 481 inmates, the non-sentenced population increased by 25,657 inmates! While the sentenced population is nearly the same as it was 20 years ago, the non-sentenced population has increased by 106%. As a result, the percentage of the ADP that is non-sentenced increased from 49% to 66%. This trend is expected to continue.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2003	64%	65%	66%	66%	65%
2004	66%				66%

Average Number of Persons Booked Per Month

10 Year Summary									
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
103,996	97,589	101,767	101,210	99,229	96,684	98,486	97,089	98,625	102,217

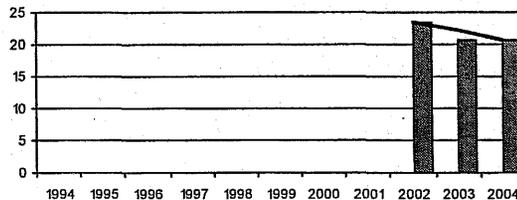

The average number of persons booked per month is at its highest level in over a decade (107,471 bookings per month in the 1st Quarter of 2004). This is compared with 102,217 bookings per month in 2003, and 98,625 bookings in 2002. This finding is consistent with the overall increase in the crime rate in California.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2003	97,460	103,966	106,623	100,736	102,217
2004	107,471				107,471

Average Length Of Stay

10 Year Summary									
1994	1995	1996	1997	1998	1999	2000	2001	2002	2003
								23.6	20.5

The average length of stay has stayed within the range of 20 to 24 days for the last decade. Since thousands of inmates are released early each month due to lack of space, the average length of stay is probably as much a function of jail capacity as anything else. As a result, the average length of stay will probably decrease as an increasingly higher proportion of the beds are used for non-sentenced inmates.

Quarterly Results

	Q1	Q2	Q3	Q4	Average
2003	20.8	21.6	20.9	18.8	20.5
2004	20.7				20.7

Interpretation of Table:
JAIL POPULATIONS: 1st Quarter '03 versus 1st Quarter '04

This table:

- summarizes the ADP results for the 62 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 2,614) and "total decrease" in ADP (-2,146). In other words, the jurisdictions experiencing increases had a total increase of 2,614 ADP; and the jurisdictions experiencing decreases had a total decrease of 2,146 ADP. Subtracting 2,146 from 2,614 produces the overall increase of 468 between the first quarter of 2003 and the first quarter of 2004.
2. The Orange County ADP increase of 413 is 15.8% of the total increase of 2,614. Forty-five jurisdictions had increases (down to Yolo Sheriff's Department) with one jurisdiction reporting no increase (Calaveras Sheriff's Department). When you get to Calaveras Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 2,614).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Modoc Sheriff's Department to Los Angeles Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 2,146 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Fresno Sheriff's Department to Santa Clara Correction Department) is 47.4%. In other words, four jurisdictions accounted for about 47% of the total ADP increase. Two jurisdictions (San Francisco Sheriff's Department and Los Angeles Sheriff's Department) account for about 90.5% of the decreases.
