# JAIL PROFILE SURVEY

## EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the fourth quarter of 2005. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

### Page 1

- Unless otherwise noted, “projected totals” are based upon the average per day for the variable in question. For example, there was an average of 80,725 inmates per day in local jails (excluding Type I’s) during the three-month span of October thru December 2005.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for “Bookings” is the average of the monthly totals for October, November, and December.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2005); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the fourth quarter of 2005.

### Pages 2 and 3

- The data in the 10-Year Summary tables are based upon survey data which the Corrections Standards Authority (CSA) has gathered since the early 1980’s.
- Prior to 1995, yearly averages were reported to the CSA on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

**Interpretation of Table:**  
**JAIL POPULATIONS: 4<sup>th</sup> Quarter '04 versus 4<sup>th</sup> Quarter '05**

This table:

- summarizes the ADP results for the 61 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 4,655) and "total decrease" in ADP (-391). In other words, the jurisdictions experiencing increases had a total increase of 4,655 ADP; and the jurisdictions experiencing decreases had a total decrease of 391 ADP. Subtracting 391 from 4,655 produces the overall increase of 4,264 between the fourth quarter of 2004 and the fourth quarter of 2005.
2. The Los Angeles County ADP increase of 2,025 is 43.5% of the total increase of 4,655. Forty-three jurisdictions had increases (down to Imperial Sheriff's Department) with 3 jurisdictions reporting no increases (Sierra Sheriff's Department, Calaveras Sheriff's Department and Kern Sheriff's Department). When you get to Kern Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 4,655).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Mono Sheriff's Department to Oakland Police Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 391 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Los Angeles Sheriff's Department to San Diego Sheriff's Departments) is 71.2%. In other words, four jurisdictions accounted for over 71% of the total ADP increase. Three jurisdictions (Santa Ana Police Department, Alameda Sheriff's Department, and Oakland Police Department) account for about 59.3% of the decreases. Please note that Oakland Police Department will no longer be reporting on the Jail Profile Survey due to the closure of its jail, which accounts for approximately 27.4% of the total decrease.
