I. INTRODUCTION

A. Purpose of the Manual

The goal of this manual is to provide policies and procedures for course certification, fiscal responsibilities, and billing and record keeping requirements.

B. Board of State and Community Corrections and the Standards and Training for Corrections Program

The Board of State and Community Corrections (BSCC) was established on July 1, 2012, and was formerly known as the Corrections Standards Authority (CSA), and prior to 2005, as the Board of Corrections (BOC). The BOC was created in 1944 to provide leadership and coordination in local California corrections. The BOC set minimum standards for local adult detention facilities and operations, and had statutory responsibility for establishing selection criteria and training standards for local corrections personnel (Sheriff, Probation, Police and Departments of Correction). These responsibilities continue under the BSCC and are defined in California Penal Code Sections 6024 through 6037.

The Standards and Training for Corrections (STC) program, established in 1980, is a division of the BSCC. The purpose of the STC program is to raise the level of competence of the state's local corrections and probation personnel. The program accomplishes this by developing selection and training standards, providing a course certification and delivery system, technical assistance and support, and training to local corrections agencies statewide. In addition, participating agencies are allocated subvention funding through the STC program.

Through research, planning, design, and assessment, the STC program assists local agencies in ensuring they select and train qualified personnel and maintain staff proficiency through job-related skills training. Job-relatedness is defined as a demonstrable relationship between the course subject matter and the job being performed.

STC is charged with the following responsibilities:

- assisting local corrections agencies in selecting qualified persons for employment and maintaining staff proficiency;
- promoting development of an efficient and effective training delivery system;
- providing technical assistance and support to all participating agencies and providers; and,
- developing selection and training standards for local corrections personnel.

Counties and cities participate in the STC program voluntarily. Through their participation, agencies receive STC support and subvention funding and agree to follow all program regulations, policies, and procedures. Local corrections agencies participating in the STC program may use this state funding to help pay course tuition costs in addition to other allowable expenses.

The regulations for counties and cities that choose to participate in the STC program are found in Title 15, Division 1, Subchapter 1, Articles 1 through 9, Sections 100-358 of the California Code of Regulations (CCR).

C. Becoming an STC Training Provider

STC is committed to working closely with training providers and agencies to promote the delivery of quality training. STC assigns a field representative to every training provider and participating agency. STC field representatives are available to provide technical assistance, program support, and consultation about all aspects of the STC program

In order to become an STC training provider, interested parties must complete and submit a New Provider Application. The form can be downloaded from the BSCC website. Applicants will be contacted by an STC field representative to review the application. Upon approval, applicants will be contacted by email with instructions on how to log onto the Learning Portal and complete the course certification process.

II. CATEGORIES OF TRAINING

The two categories of STC-certified courses are core training and annual training.

A. Core Training Standards (Title 15, Section 171 CCR)

Core training consists of entry-level or basic training linked to specific job classifications within the first 12 months of appointment to a position. For those training providers who wish to certify and deliver core training, review of and adherence to additional publications is required, specifically:

- Policy and Procedure Manual for Presenting Local Corrections Core Courses
- Core Course Manual(s)

The BSCC has identified the following six specific training courses as core training:

1. **Probation Officer Core Course** (Title 15, Section 173 CCR)

The Probation Officer Core Course consists of a minimum of 189 hours of instruction in specific performance objectives as contained in the *Probation Officer Core Course Manual*. Entry-level staff must successfully complete this course by showing a satisfactory level of proficiency on relevant achievement tests. This training shall be completed in the first year of job assignment as a probation officer.

2. **Juvenile Corrections Officer Core Course** (Title 15, Section 176 CCR)

The Juvenile Corrections Officer Core Course consists of a minimum of 168 hours of instruction in specific performance objectives as contained in the *Juvenile Corrections Officer Core Course Manual*. Entry-level staff must successfully complete this course by showing a satisfactory level of proficiency on relevant achievement tests. This training shall be completed in the first year of job assignment as a juvenile corrections officer.

3. **Adult Corrections Officer Core Course** (Title 15, Section 179 CCR)

The Adult Corrections Officer Core Course consists of a minimum of 187 hours of instruction in specific performance objectives as contained in the *Adult Corrections Officer Core Course Manual*. Entry-level staff must successfully complete this course by showing a satisfactory level of proficiency on relevant achievement tests. This training shall be completed in the first year of job assignment as an adult corrections officer.

4. **Adult Corrections Officer Supplemental Core Course** (Title 15, Section 180 CCR)

The Adult Corrections Officer Supplemental Core Course consists of a minimum of 79 hours of instruction in specific performance objectives as contained in the *Adult Corrections Officer Supplemental Core Course Manual*. It is designed for the adult corrections officer who has successfully completed the Peace Officers Standards and Training (POST) Basic Academy Course. Entry-level staff must successfully complete this course by showing a satisfactory level of proficiency on relevant achievement tests. This training shall be completed within the first year of job assignment as an adult corrections officer.

5. **Supervisor Core Course** (Title 15, Section 181 CCR)

The Supervisor Core Course consists of a minimum of 80 hours of instruction to be completed during the first year of assignment as a supervisor in a jail/adult institution, juvenile institution, or probation department.

6. **Manager and Administrator Core Course** (Title 15, Section 182 CCR)

The Manager and Administrator Core Course consists of a minimum of 80 hours of instruction to be completed during the first year of assignment as a manager or administrator.

The BSCC has identified the following six transfer academies to meet the core training requirements for entry-level staff who are transferring from another corrections classification (JCO, PO, ACO) AND have completed the core training for that classification.

1. **Juvenile Corrections Officer to Probation Officer Transfer Academy** (Title 15, Section 173.1 CCR)

The juvenile corrections officer to probation officer transfer academy consists of 71 hours of instruction in specific performance objectives as contained in the *JCO to PO Transfer Academy* manual. Transferring staff must successfully complete these course objectives as demonstrated by satisfactory level of proficiency on relevant achievement tests. Transfer academy shall be completed in the first year of employment in the Probation Officer classification and is only available to staff who have successfully completed a full Juvenile Corrections Officer core course.

2. **Adult Corrections Officer to Probation Officer Transfer Academy** (Title 15, Section 173.2 CCR)

The adult corrections officer to probation officer transfer academy consists of 76 hours of instruction in specific performance objectives as contained in the *ACO to PO Transfer Academy* manual. Transferring staff must successfully complete these course objectives as demonstrated by satisfactory level of proficiency on

relevant achievement tests. Transfer academy shall be completed in the first year of employment in the Probation Officer classification and is only available to staff who have successfully completed a full Adult Corrections Officer core course.

3. **Probation Officer to Juvenile Corrections Officer Transfer Academy**(Title 15, Section 176.1 CCR)

The probation officer to juvenile corrections officer transfer academy consists of a minimum of 59 hours of instruction in specific performance objectives as contained in the *PO to JCO Transfer Academy* manual. Transferring staff must successfully complete these course objectives as demonstrated by satisfactory level of proficiency on relevant achievement tests. Transfer academy shall be completed in the first year of employment in the Juvenile Corrections Officer classification and is only available to staff who have successfully completed a full Probation Officer core course.

4. **Adult Corrections Officer to Juvenile Corrections Officer Transfer Academy**(Title 15, Section 176.2 CCR)

The adult corrections officer to juvenile corrections officer transfer academy consists of a minimum of 10 hours of on-the-job training in specific performance objectives as contained in the *ACO to JCO Transfer Academy* manual. Transferring staff must successfully complete these course objectives as demonstrated by satisfactory level of proficiency on relevant achievement tests. Transfer academy shall be completed in the first year of employment in the Juvenile Corrections Officer classification and is only available to staff who have successfully completed a full Adult Corrections Officer core course.

5. **Probation Officer to Adult Corrections Officer Transfer Academy** (Title 15, Section 179.1 CCR)

The probation officer to adult corrections officer transfer academy consists of a minimum of 63 hours of instruction in specific performance objectives as contained in the *PO to ACO Transfer Academy* manual. Transferring staff must successfully complete these course objectives as demonstrated by satisfactory level of proficiency on relevant achievement tests. Transfer academy shall be completed in the first year of employment in the Adult Corrections Officer classification and is only available to staff who have successfully completed a full Probation Officer core course.

6. **Juvenile Corrections Officer to Adult Corrections Officer Transfer Academy**
(Title 15, Section 179.2 CCR)

The juvenile corrections officer to adult corrections officer transfer academy consists of a minimum of 8 hours of on-the-job training in specific performance objectives as contained in the *JCO to ACO Transfer Academy* manual. Transferring staff must successfully complete these course objectives as demonstrated by satisfactory level of proficiency on relevant achievement tests. Transfer academy shall be completed in the first year of employment in the Adult Corrections Officer classification and is only available to staff who have successfully completed a full Juvenile Corrections Officer core course.

B. Annual Training Standards (Title 15, Section 184 CCR)

Annual training is mandatory for all STC-eligible staff who have completed core training. Annual training content is not prescribed by STC. It can be specialized or refresher training that develops or enhances job-related skills. Flexibility is permitted in course content and method of instruction in order to meet changing conditions and local needs.

During each fiscal year, eligible staff shall complete at least the following minimum number of hours of job relevant annual training:

Journey Probation Officer	40 hours
Journey Juvenile Corrections Officer	24 hours
Journey Adult Corrections Officer	24 hours
Probation Supervisor	40 hours
Supervising Juvenile Corrections Officer	40 hours
Supervising Adult Corrections Officer	24 hours
Adult Corrections Manager or Administrator	24 hours
Juvenile Corrections Manager or Administrator	40 hours
Probation Manager or Administrator	40 hours

III. COURSE CERTIFICATION

The intent of the course certification process is to provide high quality, job-relevant training. Certification of a course authorizes the training provider to advertise it as meeting the requirements of STC.

A. Overview of Course Certification

A certified course consists of job-related instruction approved by STC for local corrections personnel. Job-relatedness is established when the relationship between the training and the job is defined.

To receive STC certification, training providers must submit a request for certification via the Learning Portal. A STC field representative will review all requests. Approved STC certifications are valid for a maximum of two years.

Course certification requirements include, but are not limited to the following criteria:

- job-related topic, content, and performance objectives;
- a demonstrated need for the course;
- a demonstrated capability to provide quality training;
- the cost of providing the instruction in relation to the benefits;
- the ability to provide the instruction within California; and,
- adherence to policies and procedures established by the STC.

Meetings of any type by any group or organization will not be certified.

B. Certification Number

The Learning Portal assigns each course a unique 8-digit certification number. A confirmation email will be sent upon approval of a course.

The 8-digit course certification number must be printed on all announcements, brochures, bulletins, or other publications soliciting participation by STC local corrections personnel. Providers cannot advertise the class as certified until official notice of certification has been received. Providers cannot advertise a course as pending STC certification.

C. STC Course Catalog and Calendar

STC maintains a course catalog and calendar in the Learning Portal. The catalog is updated continuously and contains summary information on every course certified by STC except for courses designated as being agency specific. The course calendar provides current information on upcoming course presentation schedules and locations.

Training providers are required to provide the STC program with timely, accurate, and updated information so the calendar will be current and accurate. Providers may add additional presentation dates any time prior to the delivery date. Such additions are made using the on-line system.

D. Course Attendance, Changes, and Cancellations

Participating agencies have discretion in choosing training providers and courses to meet training needs. For this reason, and because STC certification does not guarantee course attendance, it is incumbent upon the provider to establish and maintain effective communication with participating agencies and training managers. This will ensure the training corresponds to the agency's needs and that the agency will enroll a sufficient number of trainees. When agencies enroll trainees in an STC-certified course, they incur an obligation to the provider. The terms and conditions of this obligation are negotiable between the agency and the provider.

Training providers must notify agencies that have registered participants of any changes in a certified course as soon as possible, but not less than ten calendar days before the class. Such changes may include, but are not limited to, course length, date, instructors, and course size.

Local corrections agencies are required to notify the training provider of cancelled enrollments a minimum of 15 calendar days before the course. If an agency has enrolled a specific number of trainees in a certified course and that number of trainees does not attend the course without giving the required 15 calendar day notice, the provider may charge the agency the cost of tuition for absent trainees.

At times, circumstances warrant a provider to cancel a scheduled course. The provider must notify all agencies with registered trainees of the cancellation at least ten calendar days before the first scheduled day of the course.

Exceptions to the ten-day policy will be considered on a case-by-case basis when an emergency occurs, such as illness of the instructor, transportation issues, etc. If the emergency occurs ten calendar days or less before the scheduled training, providers

must also notify their STC field representative as well as agencies with registered trainees immediately. Low trainee enrollment is not considered adequate reason to cancel a course with less than ten calendar days notice to agencies.

A directory of participating agencies and training providers is available on the BSCC website. This directory lists the names, addresses, and phone numbers of all agency administrators and training managers.

E. Course Monitoring

STC staff may monitor any certified course. Staff determines whether the course objectives are being met and evaluate the course quality and costs. Monitoring may include, but is not limited to:

- determination of adherence to the Request for Certification (RFC);
- review of lesson plans;
- analysis of instructor's presentation;
- review of trainee feedback; and,
- review of the fiscal records

IV. LEARNING PORTAL

A Certification of Courses

Requests to certify annual courses must be submitted to STC through the Learning Portal a minimum of 20 calendar days prior to the first course offering. Requests to certify new core courses must be submitted to STC at least 60 days prior to the first course presentation. Additional time may be necessary if providers are:

- submitting a new core course
- new to the STC program
- requesting certification of a course for the first time.

The advance filing time allows STC field representatives the opportunity to review the request, discuss and resolve any concerns, and certify the course. Courses not submitted on time may result in the inability to present the course as scheduled.

Although the process for certifying annual and core courses is the same, there are some differences in the information required for certifying core courses; e.g., mandated performance objectives, required testing, etc. For further information regarding core course requirements please refer to the *Policy and Procedure Manual for Presenting Local Corrections Core Courses*, the appropriate core course manual, and if applicable, the appropriate physical tasks training manual.

The Request for Certification (RFC) consists of the following steps:

1. Course Information
2. Provider Information
3. Performance Objectives
4. Testing Procedures (if applicable)
5. Instructor Information
6. Course Outline
7. Schedule

B. Certification Process

The provider will enter the following information via the Learning Portal:

1. Course Information

- Organization
- Certification Type
- Course Title
- Class size
- Course Hours
- Primary Population (Adult or Juvenile Corrections Officer, Probation Officer, Supervisor, Manager/Administrators)
- Agency Specific - designate if course is designed to be attended only by personnel from one agency due to specific content and/or tailored to the agency's specific policies
- Delivery Method- Instructor lead or computer based
- Course Summary - describe the course content; this information will be available for viewing on STC's on-line course catalog and calendar
- Course Contact

2. Performance Objectives

Certification of each course requires clearly stated performance objectives. STC emphasizes objectives as a means to enhance and evaluate training quality. Well constructed objectives provide direction for those who teach the course, focus the trainee's learning, and serve as a means to evaluate the course.

For course certification, write specific and measurable performance objectives that clearly indicate the job-related knowledge or skill that trainees will be able to demonstrate upon course completion. Specify what the trainee will be able to do, under what conditions, and at what acceptable level. This is not required for core courses, as the objectives are contained in the core course manual.

Examples:

- Without reference to the medical screening handbook, the trainee will be able to describe at least three major symptoms of alcohol withdrawal.
- Given a list of behaviors, the trainee will be able to differentiate between those that are normal and those that are schizophrenic.
- Given a diagram of the jail, the trainee will identify five emergency escape routes within 60 seconds.

For additional information on writing performance objectives, please refer to the STC publication *A Guide for Writing Performance Objectives for STC Annual Course Certification* available on the BSCC website.

3. Testing Procedure

Select and click on the box designating the appropriate test(s) type. Tests and a testing policy are required in all core courses. Refer to the *Policy and Procedures Manual for Presenting Local Corrections Core Courses* on the BSCC website for more testing information regarding core. While testing for annual courses is not required, it is highly desirable. Testing can indicate mastery of the performance objectives, demonstrate the effectiveness of training, and provide results to agencies.

4. Instructors/Specialized Certifications

The instructor information page demonstrates the qualification of each course instructor. Formal résumés are not required and cannot substitute for the completed instructor information sheet. Submit information that directly relates to the course as well as any other course delivered by that instructor. It should reflect the instructor's:

- expertise in the subject area;
- work experience related to the topic;
- areas of related training experience;
- education and training received; and,
- relevant specialized instructor training courses.

Although all sections need not be completed, enough information should be provided to demonstrate the instructor's qualifications to instruct in the specific subject area(s) identified as his or her responsibility in the course outline.

The instructor's information is maintained in the Learning Portal. When updating the instructor's information, it is best to be comprehensive and add, rather than delete, information.

For courses that rely on current proficiency or license of the instructor, the training provider has the responsibility for ensuring that the instructor possesses the required credentials and will need to enter this information in the instructor's user information page. Examples of courses that require this level of care and documentation include:

- Arrest and Control
- Baton/Impact Weapons
- Chemical Agents
- Defensive Tactics

- Diversionary Device
- Driver Awareness
- Electronic Weapon
- Firearm
- Force Options Simulator
- Less Lethal Force
- First Aid/CPR
- WRAP Restraint Device

The provider must clearly state that the instructor possesses an applicable and currently valid, license, certificate, or training. Expiration dates must always be current and included for courses that are certified. If no expiration date is applicable, enter 1/1/1900 for a certification date. Courses will be returned during certification review if the dates are not current or included.

5. Course Outline

Submit a detailed course outline for each day of the course using the military time format. Do not designate the lunch break or any subsequent short breaks. The course outline should include sufficient detail for STC staff to evaluate/identify:

- course content;
- job-relatedness;
- relationship between content and performance objectives;
- instructional methodology (check all methodologies that apply for any given segment); and,
- which instructor will be teaching each segment.

On the course outline page of the certification request, the text box for each segment entitled “Subject or Topic” provides ample room for detail. There is also a box titled “Agency Notes” provided for any additional information. Additional days may be added.

6. Lesson Plans

Requests for Certifications (RFC) must have written lesson plans.* The lesson plan must be made available to the STC field representative upon request.

**An exception to this requirement is certified conferences do not require lesson plans.*

Best practices indicate detailed lesson plans enhance the development and delivery of training. Lesson plans help ensure quality training delivery by providing detailed information about the delivery of instructional objectives, instructional

methodology, testing, and classroom activities. Furthermore, lesson plans provide written documentation of training.

Lesson plans must contain the following components:

- **Room Set-Up**
How the classroom needs to be set up (e.g., classroom style, small group, theater, etc.).
- **Instructor Material(s)/Equipment Needed**
All material and equipment needed, including handouts and reference material for the class or module.
- **Time for Each Section or Exercise/Activity**
The beginning and end time or amount of time needed for each exercise/activity, section, or topic.
- **Trainer's Speaking Notes**
Any notes to remind the trainer of anything pertinent in that section. This may include key concepts, targeted responses, activity instructions, etc. It is not necessary to capture everything the instructor will say, for example, stories drawn from the instructor's own experience to illustrate or underscore a key concept would not necessarily be included. This should be written to a level that a person that is familiar with the content and course could step in and complete the training.
- **Handout/Classroom Materials**
The distribution of handouts and classroom materials should be noted in the section of the lesson plans where the distribution occurs.
- **Testing Type and Description of Behavior Skills Test (BST)/Written Skills Test (WST) completion (if applicable)**
The type of test(s) to be given in the class or module; i.e., Multiple Choice Test (MCT), Job Knowledge Test (JKT), BST, and WST. Describe in writing each BST and WST to be completed in the class or module. This can be attached to the lesson plan as a handout and labeled appropriately as to when to administer it.

STC does not require a standardized format; however, the lesson plan must be in such detail that a substitute instructor with requisite knowledge of the subject could teach from the lesson plan without contacting the instructor for clarification. Samples of lesson plans and blank lesson plan templates are available on the BSCC website.

7. Schedule

Enter each course presentation date in the schedule portion of the Learning Portal. These dates are automatically added to the on-line course calendar, which is viewable by participating agencies seeking training courses. For all course certification requests, at least one proposed course delivery date must be listed. As course dates change, are added or deleted, the provider should update the information in the schedule portion of the Learning Portal.

C. Carotid Hold/Choke Hold Prohibition

In accordance with state law prohibiting the use of the carotid control and choke holds, STC will not certify any course (annual or core) that includes training on these holds. Carotid control hold and choke hold training shall not be included in STC certification requests.

D. Certifying Conferences

The STC Program allows STC providers, both agencies and private providers, to certify conferences in the Learning Portal. All conferences must be presented within the State of California to be eligible for STC certification.

STC funds may only be used when a conference is certified and can only be used to cover the cost of tuition, not the full registration costs normally associated with conferences. Tuition is considered the portion of registration fees that cover the cost of training. It does not include ancillary costs such as meals and “swag.” If the conference flyer does not identify tuition and registration separately, the STC attendee may use up to \$18.75 per person per STC certified instructional hour of the conference in accordance with the STC maximum tuition allowance.

All conferences must be certified by STC in the Learning Portal and assigned a certification number prior to being advertised or marketed as an STC-certified event.

Procedure to Certify an STC Conference:

There are three steps involved in certifying a conference.

The first step requires creating a certification request in the Learning Portal. STC providers shall select “CON” as the type of certification and then follow the system prompts. The following information must be entered:

- 1.Conference/Course title
- 2.Conference/Course size and maximum hours

3. Conference summary
4. Dates and location

Conferences do not require completion of the Performance Objectives, Course Outline, or Instructor Information within the Learning Portal. Instead, STC providers will enter “See Supporting Documentation” in those fields to bypass the entry requirements and submit the certification.

Next, the provider will submit supporting documentation to its assigned Field Representative. To address the requirements of providing performance objectives, course outline and instructor information, this submission must include, but is not limited to:

1. Conference flyer with an overview of the training,
2. Course title, summary, and instructional hours, and
3. List of instructors and/or speakers and their background.

The last step of the conference certification process is the Field Representative review and approval. The Field Representative shall review the conference material to ensure that the provider has submitted all required information and to determine whether the conference is relevant to corrections. If it is determined to be relevant, the Field Representative shall then approve the certification in the Learning Portal.

Note: Agencies cannot create an “STC” certified conference on behalf of an individual company or association. The company or association will need to become an STC provider in order to have their respective conference certified.

Procedure to Record Completion of Conference Training Hours:

Conference providers are not responsible for completing the STC roster. After the conference, the STC attendee should fill out and sign the STC roster to document attendance, checking the CON box to indicate it was an STC certified conference. The attendee’s Training Manager or other command staff must also sign the roster to verify attendance and completion.

Alternatively, if the attendee brings a roster to the conference, the conference provider may sign it to verify attendance, or the conference provider may provide a completed roster to the attendee. The original signed completion roster is to be retained by the attendee’s agency.

E. Computer Based Training

Computer based training (CBT) courses must be certified through the annual certification process and meet the same standards as an RFC, IFT, WRE and SC. The cost of a CBT cannot exceed the maximum course cost of 18.75 per hour, per trainee. Set-up fees can be folded into the tuition cost.

The platform used to deliver CBT should clearly show which courses are STC certified and the certification number. CBT can be delivered in a variety of formats. It can be synchronous (everybody meets online at the same time to receive course instruction) or asynchronous (trainees can learn at their own pace and the training can be accessed anytime and anywhere.).

CBT cannot be used for high liability courses that require hands on practice, such as Defensive Tactics, Range, First Aid and CPR. It can only be used for the policy portion of the course only and cannot substitute demonstration and video tutorials for practice.

Understanding that students can often complete CBTs at different paces, credit will only be given for the number of hours approved on the certification, even if the student completes the class sooner or longer than the course is certified for.

All information fields within the learning portal must be completed with a few exceptions:

- All CBT courses must indicate Computer Based Training as the method of instruction. The default in the learning portal is Instructor Led Training.
- Agencies can choose the general name CBT Instructor, or they can choose to list the instructor(s).
- No dates are required for CBT offerings.

For proof of completion, the online provider will provide to the participating agency a monthly report that lists the names of each employee completing CBT, the name of the course, the STC certification number, the number of hours, and the date completed. If the provider has the ability to pull reports through their system, then they are not required to submit the reports to the agency; however the agency must be sure to include copies of the reports or a completion certificate in the employee's training files for audit purposes.

F. Tuition

Tuition is the STC-authorized amount charged by the training provider for trainees attending STC annual or core courses. Tuition does not include registration fees that may be charged by a training provider. Registration fees are typically associated with

conferences, and are designed to cover costs other than training delivery and cannot be paid with STC funds.

All Requests for Certifications (RFC) submitted to STC with a cost of \$150.00 per trainee per eight-hour training day (or an hourly rate of \$18.75 per trainee) are deemed to be cost effective and do not require a budget. For example:

- 4-hour course=\$75.00,
- 8-hour course=\$150.00,
- 16-hour course=\$300.00

The cost of up to \$150.00 per trainee per day is intended to cover all course costs associated with course delivery, including instructor fees, materials, room rental, travel, and per diem.

In some instances, course costs may exceed \$150.00 per eight-hour day per trainee, in which case the provider will be required to submit a budget for justification. These courses will be reviewed by STC on a case-by-case basis. The costs associated with this higher rate should be detailed in a letter mailed to the provider's field representative. The letter must include justification for the higher costs, and shall be co-signed by the provider and the agency administrator.

The letter must address the following issues:

- the unique nature of the course;
- the need for the additional expenses in relationship to the course to be provided;
- the actual total costs incurred for the training;
- cost per trainee;
- instructor qualifications;
- need and justification for course; and,
- description of target audience.

In addition, for courses where costs may exceed \$150.00 per eight-hour day per trainee, documentation is required for:

- cost of instruction and on-site coordination;
- costs of training aids/equipment rental and one-time costs;
- training room rental; and,
- instructor and on-site coordinator travel and per diem.

For all courses, providers must maintain adequate accounting records according to generally accepted accounting principles. The records must provide an audit trail consistent with the auditing requirements of this manual.

G. Create a "Working Copy"(For Recertifying or Modifying a course)

A Request for Certification (RFC) is valid for two years. If a provider wishes to extend the certification for another *two years, a provider will need to access the Learning Portal and create a "working copy", make any changes necessary, and submit it to the STC field representative for approval. This action will also be necessary when any modifications are needed to the already existing certification. Note: Anytime the STC field representative approves a certification it will change the certification date of the "current approved" certification.

*When extending the two year course certification it is important that providers perform a comprehensive review of the course, and update as needed as changes in the law, correctional practices and instructors should be reviewed for currency. Once approved the certification will be valid for two more years.

Note: Any changes made in the "working copy" will result in a new version keeping the original course as a "archived" version which will also be accessible. This will also include the date in which the certification was last modified.

H. Schedule

Course presentation dates may be added or deleted by using the "Schedule" link in the Learning Portal. It is important to keep course presentation dates accurate and up-to-date, as the schedule will be posted to the on-line STC catalog and calendar. Date changes do not need to be submitted to your STC field representative for approval.

V. RECORD KEEPING REQUIREMENTS

A. Course Rosters

Providers are responsible for accurately reporting and attesting to the number of hours of attendance of each trainee. Credit for actual classroom attendance is granted on an hour-for-hour basis. An STC course roster must be completed for each presentation of the course and a copy mailed to each trainee's agency within 30 days of the conclusion of the course. The training provider should retain the original roster for your records and send a copy to the training manager for all agencies that attended the course.

Note: An STC course roster is available on the STC website. An agency may design their own training roster as long as it contains the same elements as the STC course roster located on the STC website.

B. Evaluation of Certified Courses

Course evaluation by trainees is a mechanism to continuously evaluate the effectiveness and improve the quality of training. While it is **optional** for trainees to complete evaluation forms following training attendance, training providers are required to have a process in place to allow trainees access to training evaluation forms. STC has a trainee evaluation form available on the BSCC/STC website or providers can design their own. Upon training completion, trainees must be made aware of the option to evaluate the training and all completed evaluation forms must be sent to the hiring local agency within 30 days of the training.

Note: While course evaluations are optional for annual training, that is not the case with core training. All attendees of core training courses must complete a course evaluation.

C. Records Retention

Training and fiscal records should be retained in compliance with each provider's own records retention policy. Those records are subject to audit by the Board of State and Community Corrections.

VI. SUSPENSION/REVOCATION OF COURSE CERTIFICATION

A. Causes for Suspension/Revocation

Causes for suspension/revocation of a training provider's course certification(s) include:

- presentation of poor quality or non job-related courses as disclosed by trainee evaluations, agency feedback, STC monitoring of courses, or other sources; and,
- violation of STC program regulations, policies, and procedures, or not adhering to a contract for training services with a participating agency; and,
- unprofessional conduct

B. Process of Suspension/Revocation

If there appears to be sufficient cause to revoke a course certification(s), the following process will occur:

1. The STC field representative will initiate the proceedings by presenting the issue to the Deputy Director of STC.
2. If the Deputy Director determines there is sufficient cause for action, the training provider will be sent a letter that will contain the following:
 - notification of and reason for suspension until the matter is resolved; and,
 - a request that the provider submit information that may affect the decision.
3. Provider must respond to STC's request for additional information within 15 working days. The Deputy Director will review the information, make a final disposition, and notify the provider by mail within ten working days. If the provider does not provide additional information within 15 working days, the course certification(s) will be revoked and the provider will be notified by mail within ten working days.

C. Effect of Suspension/Revocation

If a course certification is suspended or revoked, STC's name and course certification number may not be used or implied in any advertisement that is published after the date of the suspension or revocation.

Agencies will not receive credit toward STC's training requirements and cannot expend STC funds for courses after the certification is suspended or revoked.

It is the responsibility of the training provider to notify all agencies with registered trainees that the certification has been suspended or revoked. Failure to do so may result in agencies refusing to pay for course tuition.

D. Appeals

A provider or prospective provider of a course may appeal an STC staff decision. Such an appeal shall be filed within 30 calendar days of the notification of action with which the provider is dissatisfied to the deputy director of STC.

The appeal shall be in writing, and:

- state the basis for the dissatisfaction, including documentation; and,
- state the action being requested of the deputy director.

The deputy director will review the correspondence and related documentation and render a decision on the appeal within 30 calendar days, except in those cases where the provider withdraws the appeal. (The procedural time requirement may be waived with the mutual consent of the provider and the deputy director.)

The deputy director may render a decision based on the correspondence and related documentation submitted by the provider, and may consider other relevant sources of information deemed appropriate. The decision of the deputy director shall be in writing and shall provide the rationale for the decision.

If the provider is dissatisfied with the decision of the deputy director, he or she may file a request for review by the BSCC executive director. Such a request shall be filed within 30 calendar days after receipt of the deputy director's decision. The requested review shall be in writing, and:

- state the basis for the dissatisfaction;
- state the action being requested of the executive director; and,
- attach any correspondence related to the appeal.

The executive director, after reviewing the appeal and the correspondence related to the review, may request additional information. After a decision is made by the executive director, notice of the decision shall be mailed to the provider. The decision of the executive director is final.

E. Conflict of Interest

Providers and participating agencies should be aware of a potential legal problem that may arise whenever staff of a participating agency is paid by a third party to provide

STC training. All participating agencies must adhere to county and agency policy on conflict of interest. It is recommended that the agency's legal counsel be consulted regarding this issue.
