SUBJECT: Enhanced Inspection Update: **Requesting Approval**

Summary

This report is a regular update on the local detention facility inspections that have been completed in the 2020/2022 Biennial Inspection Cycle, a summary of current outstanding items of noncompliance for biennial inspections, and a summary of current outstanding items of noncompliance for targeted inspections.

Staff is requesting that the BSCC Board approve the recommendations included in the status report under the column headed "Staff Recommendation."

Background

The 2020/2022 Biennial Inspection Cycle began on July 1, 2020; this inspection cycle includes the implementation of the Enhanced Inspection Process (EIP), as approved by the Board at the February 2020 board meeting.

At the September 2020 meeting, BSCC staff provided an updated EIP workflow plan to the Board and presented a plan to conduct targeted inspections at those local detention facilities where there were more than two items of noncompliance, and where items of noncompliance were significant. Ten counties were identified for a targeted inspection early in the 2020/2022 Biennial Inspection Cycle; all 10 targeted inspections have been completed. The list of outstanding items of compliance, and their status is located here:

As inspections are completed for the 2020/2022 Biennial Inspection Cycle, BSCC staff continues to track the corrective action plan status of items of noncompliance identified during inspection. The list of outstanding items of noncompliance, and their status, is located here: <https://app.smartsheet.com/b/publish?EQBCT=d4d8ffca0f3e4fc49ef678d760872d85> Items of noncompliance that have been resolved are located at the bottom of the dashboard.

All current items of noncompliance are in yellow and gray codes, and staff is not recommending that any sheriffs be requested to appear before the Board at this time. In the case of yellow and grey-coded items of noncompliance in Butte, Kern, Mariposa, and Modoc counties, staff continues to note progression toward compliance and believes that the items do not represent a threat to physical or mental health.
