JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the fourth quarter of 2001. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

Page 1

- Unless otherwise noted, "projected totals" are based upon the average per day for the variable in question. For example, there was an average of 72,684 inmates per day in local jails (excluding Type I's) during the three-month span of October to December 2001.
- For some variables (other than ADP), we did not receive data from all jurisdictions. We compute the percentage of the ADP that was housed in the jurisdictions that did supply their data for the variable in question. Next, we increase the received number for the variable in question by an amount that estimates the statewide total. For example, if 90% of the state's ADP was housed in jurisdictions that provided us with the number of Three Strike inmates, we would increase that number by 1/9th to estimate the state total.
- The number for "Bookings" is the average of the monthly totals for October, November and December.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2001): Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the fourth quarter of 2001.

Pages 2 and 3

- The data in the 10-Year Summary tables are based upon survey data which the Board has gathered since the early 1980's.
- Prior to 1995, yearly averages were reported to the Board on an annual basis. Yearly averages from 1996 on have been the average across the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

BOARD OF CORRECTIONS JAIL PROFILE SURVEY

Reporting Period: October to December, 2001

ADP ^a	72,684 ^b

Juveniles in Custody	58 ^f
Criminal / Illegal Aliens	9,007 ^f
Assaults On Staff	200 ^f

a. The Average Daily Population in all jurisdictions for the days covered by the report.
 b. Unless otherwise indicated, the numbers reported are the average across the number of days covered by the report.
 c. The sum "Under the Roof" is the sum of the Average Daily Population plus the inmates in Holding Areas.
 d. Grand Totals may not be exact sum of the subtotals due to rounding.
 e. The Highest One Day inmate population count across all California jurisdictions.
 f. This number is the average for the quarters represented by the span of time covered by this report.
 g. Total at end of quarter.

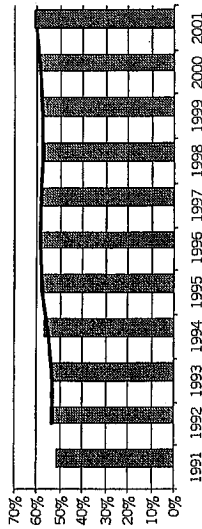

Jail Prof. Survey

2001

Percentage Non-sentenced

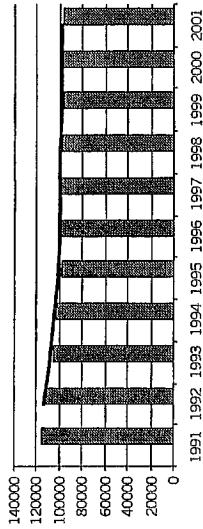

10 Year Summary									
1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
52%	54%	53%	57%	59%	59%	58%	57%	58%	60%

With the Non-Sentenced population remaining stable, and the Sentenced population steadily decreasing, obviously the Non-Sentenced percentage of the total ADP continues to rise. Around 1990, the Non-Sentenced and Sentenced populations were almost equal. By 1998, the year of peak ADP, the Non-Sentenced population had reached 57%. As the ADP has declined, the Non-Sentenced population has continued to rise, and is 62.3% as of the 4th Quarter 2001. If this disproportion continues to increase, jail operations will have to change as well.

Average Number of Persons Booked Per Month

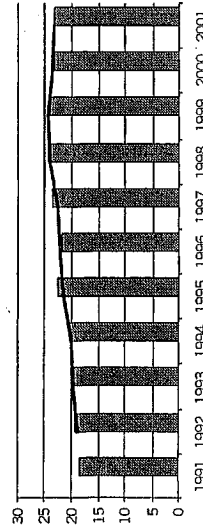

10 Year Summary									
1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
115,313	112,009	105,593	103,996	97,589	101,940	99,182	98,854	96,860	98,102

The number of bookings per month exceeded 115,000 in 1991. That number has been dropping for over a decade. For the 4th Quarter of 2001, the average number of bookings per month was 95,086. This decline in bookings is likely one cause for the reduced ADP; however, in the period since 1998 when the ADP declined 8.2%, the bookings per month declined only 3.8%.

Average Length Of Stay

10 Year Summary									
1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
18.2	19.2	19.5	20.3	22.3	21.6	23.7	24.4	24.0	23.3

The Average Length of Stay (ALS) for the 4th Quarter of 2001 was 23.5. This number has been hovering around this level for several years. If there were a trend, it would be slightly upward, but very gradual. The ALS for the year 2001 is only a tenth of a day higher than for the year 2000.

	Q1	Q2	Q3	Q4	Average
2000	61%	59%	60%	60%	60%
2001	61%	60%	62%	62%	61%

	Q1	Q2	Q3	Q4	Average
2000	99,151	98,852	101,528	92,896	98,102
2001	96,424	97,492	97,898	95,086	96,725

	Q1	Q2	Q3	Q4	Average
2000	23.0	23.1	22.7	24.4	23.3
2001	23.6	23.4	23.2	23.5	23.4

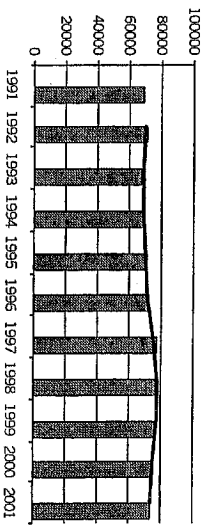

Jail Profile Survey

2001

Average Daily Population

10 Year Summary									
1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
68,923	70,853	67,576	69,233	71,107	72,007	76,894	79,143	76,311	74,851

10 Year Summary					
Q1	Q2	Q3	Q4	Average	
2000	75,070	75,314	75,076	73,950	74,851
2001	74,221	74,564	73,842	72,664	73,824

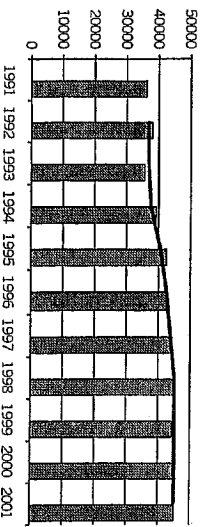

The ADP decreased in the last two quarters to its lowest point since 1996. The magnitude and consistency of the decrease since 1998 certainly qualifies as a sustained and significant trend. For the first time in years, the ADP is very close to the Board Rated Capacity of the jail system 73,598. Why is this happening? Such a trend would seem unlikely given: a) the number of unserved warrants in California, and b) the reported number of individuals released pre-trial or before their full sentences have been served due to lack of jail space. The Board in the next few months will be looking into the issue in more depth. Some conclusions have already been reached. For example, we know that the bulk of the decreases have occurred in 14 of the largest agencies. More conclusions will be reported as the research continues.

Non-sentenced ADP

10 Year Summary									
1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
36,064	38,110	35,899	39,122	42,237	42,539	44,593	45,303	44,492	44,922

10 Year Summary					
Q1	Q2	Q3	Q4	Average	
2000	45,880	44,798	44,764	44,233	44,922
2001	44,916	45,047	45,579	45,265	45,204

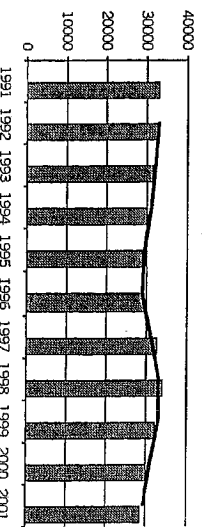

The decline in the overall ADP has not resulted from a decline in Non-Sentenced inmates. The Non-Sentenced ADP for the 4th Quarter 2001 differs by less than 100 from the 1998 Non-Sentenced ADP (1998 was the year that California experienced the highest overall jail ADP in history). Non-Sentenced ADP reached a peak in 1998 and has remained fairly stable since then.

Sentenced ADP

10 Year Summary									
1991	1992	1993	1994	1995	1996	1997	1998	1999	2000
32,859	32,743	31,677	30,142	28,870	29,468	32,301	33,841	31,819	29,929

10 Year Summary					
Q1	Q2	Q3	Q4	Average	
2000	29,190	30,516	30,311	29,697	29,929
2001	29,304	29,518	28,263	27,419	28,620

The Sentenced ADP for 1998 was 33,841. The Sentenced ADP for the 4th Quarter of 2001 was 27,419 (a decrease of 6,422 inmates). The decrease in overall ADP from 1998 to the 4th Quarter of 2001 was 6,459 inmates. Given that virtually all the reduction in ADP since 1998 is due to the reduction in Sentenced inmates, our next step is to explore with individual jurisdictions the reason for this decrease. Statewide, in the 4th Quarter of 2001, jurisdictions reported that they released an average of 4,935 inmates per month early from their sentences due to lack of space. Without the early releases, the current overall ADP would be approaching 78,000 inmates.

Note: Totals subject to slight variation due to rounding

Total Increase: 2,040
Total Decrease: -3,425

**Interpretation of Table:
JAIL POPULATIONS: 4th Quarter '00 versus 4th Quarter '01**

This table:

- summarizes the ADP results for the 64 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column B);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column A);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column C);
- lists the percentage growth or decline in ADP for each jurisdiction (Column D); lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column E);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column F);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column G); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case - 2,040) and "total decrease" in ADP (3,425). In other words, the jurisdictions experiencing increases had a total increase of 2,040 ADP; and the jurisdictions experiencing decreases had a total decrease of 3,425 ADP. Subtracting 2,040 from 3,425 produces the overall decrease of 1,385 between the fourth quarter of 2000 and the fourth quarter of 2001.
2. The Riverside ADP increase of 403 is 19.8% of the total increase of 2,040. Thirty-two jurisdictions had increases (down to Modoc Sheriff's Department). When you get to Modoc Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 2,040).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (San Benito Sheriff's Department to Los Angeles Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 3,425 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Riverside Sheriff's Department to San Francisco Sheriff's Department) is 57.12%. In other words, four jurisdictions accounted for about 53% of the total ADP increase. Three jurisdictions (San Bernardino, Santa Clara and Los Angeles Sheriff's Departments) account for about 53% of the decreases. Please note that San Diego Probation Department will no longer be reporting on the Jail Profile Survey, which accounts for approximately six percent (6%) of the total decrease.
