

Juvenile Justice Crime Prevention Act - Youthful Offender Block Grant  
 2019 Expenditure and Data Report  
 Due Date: October 1, 2019

On or before October 1, 2019, each county is required to submit to the Board of State & Community Corrections (BSCC) a report on its Juvenile Justice Crime Prevention Act (JJCPA) and Youthful Offender Block Grant (YOBG) programs during the preceding year. For JJCPA this requirement can be found at Government Code (GC) Section 30061(b)(4)(C) and for YOBG it can be found at Welfare & Institutions Code Section (WIC) 1961(c). These code sections both call for a consolidated report format that includes a description of the programs and other activities supported by JJCPA and/or YOBG funds, an accounting of all JJCPA and YOBG expenditures during the prior fiscal year, and countywide juvenile justice trend data.

Prior to submitting this report save the file using the following naming convention: "**(County Name) 2019 JJCPA-YOBG Report.**" For example, Yuba County would name its file "Yuba 2019 JJCPA-YOBG Report".

Once the report is complete, attach the file to an email and send it to: **JJCPA-YOBG@bscc.ca.gov**. All reports will be posted to the BSCC website. We encourage you to review your report for accuracy before sending it to the BSCC. Please do **NOT** change the report form to a PDF document.

The decrease in juvenile arrests most likely can be attributed to a decrease in staffing with law enforcement agencies, an increase of school resource officers, and an overall better understanding of the assessment tool, the Detention Risk Assessment Instrument (DRAI), used by the Probation Department to determine the most appropriate placement for youth upon arrest.

## Government Code Section 30061(b)(4)(C)(iv) &amp; WIC Section 1961(c)(3)

Provide a summary description or analysis, based on available information, of how the programs, placements, services, strategies or system enhancements funded by JJCPA-YOBG have, or may have, contributed to, or influenced, the juvenile justice data trends identified in this report.

The majority of the JJCPA & YOBG funds have been utilized in salaries and benefits, which have been allocated promoting job security in order to decrease a high turnover rate. Each officer serves a smaller caseload, allowing them to give more time and attention to juveniles on probation. Smaller caseloads have allowed officers to build better relationships with the juveniles on their caseloads which have led to a decrease in recidivism.

The Lake County Probation Department has done well at providing multiple services and supports to at-risk and juvenile offender populations. Funds from the JJCPA-YOBG grants have assisted the Probation Department in strengthening the implementation of their Evidence-Based Practices (EBP) programs. Funds have been used for training and helping officers to stay current on established programs and future programs that will be utilized.

Training is an effective way to continue to improve and produce targeted results annually.

A clear indicator that the services being provided are proving effective can be seen in Report 1, in the decrease in number of juveniles on Wardship Probation and as well as in Non-Ward Probation juveniles. It is possible that the preventative services provided through the Family Wrap Program have strengthened families enough to prevent non-ward juveniles from becoming wards. Another factor in the decrease of Non-wards might also be attributed to the School Resource Officer; by being present at school youths are less likely to commit crimes.

Another area where the positive effects of EBP can also be seen is in Report 3, in the decrease of subsequent "Juvenile Court Dispositions Resulting from Petitions for Delinquent Acts". Which means recidivism was down from 2017.

Our strategy for use of JJCPA-YOBG funds for non-707(b) offenders is to continue to focus on improving the results of EBP and Promising Practices through staff implementation, accomplished through the following steps:

1. Identify target populations in probation that have increased recidivism rates.
2. Identify what programs or services are currently in place to meet the needs of this population.
3. If services are being delivered to this population, then a more thorough examination of their application will be reviewed.
4. If the population is not being targeted for services, then a review of which services and programs in existence could be applied to assist this population in reducing their recidivism rates.
5. If there are no programs or services in existence that would benefit this population, then research will be conducted through Results First Clearinghouse to identify an EBP that would effectively target this population and help reduce their recidivism.

Two new programs that have utilized JJCPA-YOBG funds for training are Girls Circle and Moral Reconciliation Therapy (MRT). Girls Circle is the first gender-responsive program in the country to demonstrate effectiveness in reducing delinquency for girls. As an EBP, Girls Circle has already proven to reduce recidivism while strengthening healthy identities, educational aspirations and expectations. While Girls Circle was not utilized as was hoped this past year, efforts will continue to be made to optimize this program to its fullest.

The MRT (Moral Reconciliation Therapy) program is the premiere cognitive-behavioral program for substance abuse treatment and offender populations. This EBP has proven to lead to enhanced moral reasoning, better decision making, and more appropriate behavior while reducing recidivism. Lake County Probation's goal has been to help strengthen AODS services, and this program will be a great step to accomplishing this. Through funds provided by the JJCPA-YOBG grants, Lake County Probation hopes to begin implementing these programs before the end of 2019.

The ongoing Youthful Offender Intensive Supervision Program (YOISP) offers each youth an individualized program of supervision and rehabilitation, based on an objective assessment of criminogenic needs. This component serves youth who are (a) at enhanced risk to re-offend; (b) have committed serious and/or repeat offenses; (c) have had extensive juvenile hall detention time and/or (d) could be subject to more restrictive placement. Youthful offenders placed on this supervision level are selected based on the results of the PACT, the evidence-based risk assessment tool used by the Probation Department. The PACT is assessed at intake and every six months thereafter while youth participates in the YOISP, in order to assess and re-assess each youthful offender's criminogenic needs. The accomplishments from the allocation of YOYG funds has resulted in minors graduating from high school; having stopped using drugs, and having benefited from more stable living environments. Some of the funds pay partially for (a) Salary & Benefits for FTE DPO and FTE of a Supervising Senior Deputy Probation Officer; (b) annual licensing fee for the PACT assessment tool and other Professional Services such as consultants and trainers to assure that evidence-based models are implemented with fidelity and to provide data collection, monitoring and reporting, as needed.

The Probation Department uses Electronic Monitoring with GPS as an evidence-based graduated sanction and/or detention alternative for youth identified by the PACT as (a) at high risk to re-offend; (b) at moderate risk to re-offend and/or (c) at-risk of placement. Electronic monitoring was also used as an option for youth served by the Wraparound Program and for transition youth. Electronic monitoring is a cost-effective resource to control behavior without detention; protect public safety; maintain youth in the community and prevent future crimes. YOBG funds have been used to purchase and implement the monitors. From the use of the monitors minors have learned to follow their terms and conditions of probation while being allowed to remain at home.

At the end of 2017, Lake County Probation contracted with the Sutter Probation Department to have juveniles attend the Maxine Singer Youth Guidance Center, "Camp Singer," as an alternative to out of home placement and extended Juvenile Hall stays. Camp Singer is a 365 day court commitment program, for youth ages 14 and older, wherein the last phase is spent on a family furlough. Youth have the ability to graduate from the program up to six (6) months earlier if their behavior and individual progress warrants an early release. The primary objectives of Camp Singer are to focus on community protection and redirection of maladaptive behavior. Camp Singer focuses on providing a highly-structured and disciplined environment which will help curb the youth's delinquent behavior. YOYG funds are used to cover the costs of Lake County juveniles that attend the camp.

Lake County has contracted with Sonoma County Probation Camp to provide specific services for those juveniles that meet the requirements to attend. The camp uses a reality-oriented behavioral modification system in conjunction with evidence based programming to confront and correct individual personal / social problem areas. Residents are required to progress through an average six-month residential phase, two-month transition phase, and then complete a 30-day community phase prior to release from the Probation Camp program. The camp provides several areas in which the residents can receive education and counseling services. They also provide family counseling, as well as drug and alcohol counseling through AODS staff and on-site Narcotics Anonymous and Alcoholics Anonymous meetings. Camp also facilitates an education / support group for the parents of residents, presented in both English and Spanish. YOBG funds provide the youth with residence to the camp.
