

Juvenile Justice Crime Prevention Act - Youthful Offender Block Grant  
2017 Expenditure and Data Report  
Due Date: October 1, 2017

On or before October 1, 2017, each county is required to submit to the Board of State & Community Corrections (BSCC) a report on its Juvenile Justice Crime Prevention Act (JJCPA) and Youthful Offender Block Grant (YOBG) programs during the preceding year. For JJCPA this requirement can be found at Government Code (GC) Section 30061(b)(4)(C) and for YOBG it can be found at Welfare & Institutions Code Section (WIC) 1961(c). These code sections both call for a consolidated report format that includes a description of the programs and other activities supported by JJCPA and/or YOBG funds, an accounting of all JJCPA and YOBG expenditures during the prior fiscal year, and countywide juvenile justice trend data.

**Prior to submitting this report save the file using the following naming convention: "(County Name) 2017 JJCPA-YOBG Report." For example, Yuba County would name its file "Yuba 2017 JJCPA-YOBG Report".**

Once the report is complete, attach the file to an email and send it to: [JJCPA-YOBG@bscc.ca.gov](mailto:JJCPA-YOBG@bscc.ca.gov). All reports will be posted to the BSCC website following a brief technical review.

**COMPLETING THE REMAINDER OF THE REPORT:**

The report consists of several worksheets. Each worksheet is accessed by clicking on the labeled tabs below. (You are currently in the worksheet titled "**CONTACT INFORMATION**".) Complete the report by providing the information requested in each worksheet.

On the worksheet "**REPORT 1**," you will pull data directly from your Juvenile Court & Probation Statistical System (JCPSS) Report 1 that you received from the California Department of Justice for 2016. Similarly, for the worksheet labeled "**REPORT 3**," you will pull information directly from your 2016 JCPSS Report 3.

On the worksheet "**TREND ANALYSIS**," you will describe how the programs and activities funded by JJCPA-YOBG have, or may have, contributed to the trends seen in the data included in REPORT 1 and REPORT 3.

On the "**EXPENTITURE DETAILS**" worksheet, you are required to provide a detailed accounting of actual expenditures for each program, placement, service, strategy, or system enhancement that was funded by JJCPA and/or YOBG during the preceding fiscal year. This worksheet is also where you are asked to provide a description of each item funded.

**ANALYSIS OF COUNTYWIDE TREND DATA for: Santa Cruz**

**Government Code Section 30061(b)(4)(C)(iv) & WIC 1961(c)(3)**

Provide a summary description or analysis, based on available information, of how the programs, placements, services, strategies or system enhancements funded by JJCPA-YOBG have, or may have, contributed to, or influenced, the juvenile justice data trends identified in this report.

The trends that are indicated in the previous pages of data suggest that the numbers are down across the board. Specifically, in 2015, the number of diversion referrals was 327, in 2016, that number dropped to 178 or a 46 percent reduction. A similar statistic could be seen with the number of petitions filed in the county. In 2015, there were 463 petitions filed. In 2016, there were 348 filed petitions for a reduction of nearly 25 percent. The reasons for this continuation of lower numbers may well be attributed to efforts by staff and stakeholders in the community to utilize evidenced based detention assessment tools, referring cases to community stakeholders for diversion type programming and providing detailed detention reports to the court to allow the court to make informed decisions around the time of intake. There are also a number of efforts underway in the community that are shifting the way our system views trauma and the impact of trauma on the youth who are being contacted by law enforcement, facing challenges in school and dealing with peer pressure. One of the programs that is shifting its approach in working with youth and their parents is the Luna Evening Center (LEC) program. Staff who work at LEC and stakeholders who provide programming at LEC are being trained in Trauma Informed Systems (TIS) change and building a skill set that will transfer to the youth who attend the program.

For each program, placement, service, strategy, or system enhancement, record actual expenditure details for the preceding fiscal year. Expenditures will be categorized as coming from one or more of three funding sources - JJCPA funds, YOBG funds, and other funding sources (local, federal, other state, private, etc.). Be sure to report all JJCPA and YOBG expenditures for the preceding fiscal year irrespective of the fiscal year during which the funds were allocated. Definitions of the budget line items are provided on the next page.

## ACCOUNTING OF JJCPA-YOBG EXPENDITURES for: *Santa Cruz*

**Salaries and Benefits** includes all expenditures related to paying the salaries and benefits of county probation (or other county department) employees who were directly involved in grant-related activities.

**Services and Supplies** includes expenditures for services and supplies necessary for the operation of the project (e.g., lease payments for vehicles and/or office space, office supplies) and/or services provided to participants and/or family members as part of the project's design (e.g., basic necessities such as food, clothing, transportation, and shelter/housing; and related costs).

**Professional Services** includes all services provided by individuals and agencies with whom the County contracts. The county is responsible for reimbursing every contracted individual/agency.

**Community-Based Organizations (CBO)** includes all expenditures for services received from CBO's. **NOTE:** *If you use JJCPA and/or YOBG funds to contract with a CBO, report that expenditure on this line item rather than on the Professional Services line item.*

**Fixed Assets/Equipment** includes items such as vehicles and equipment needed to implement and/or operate the program, placement, service, etc. (e.g., computer and other office equipment including furniture).

**Administrative Overhead** includes all costs associated with administration of the program, placement, service, strategy, and/or system enhancement being supported by JJCPA and/or YOBG funds.

For example, you might want to include information on the types of youth served, prevention services you provided, your accomplishments, any barriers encountered, and what specifically JJCPA and/or YOBG funds paid for.

The Probation Officers assigned to the intake unit make initial contact with all youth and families who have new cases referred to the Probation Department, both in and out of custody. In Fiscal Year 2016-17, a total of 945 arrest referrals were made to the department. This number is also consistent with trends in juvenile justice as the previous year there were 1090 arrest referrals. For youth booked into the juvenile hall, the Intake Officers use a Detention Risk Assessment Instrument (RAI) to determine whether the youth can safely be released pending a court hearing or intake interview, or whether they must be detained in juvenile hall pending court. The officer may also forward the case to the District Attorney to file a petition. Other responses include informal behavioral contracts, referrals to counseling, assignment of volunteer service hours, referrals to Teen Peer Court, educational classes and Neighborhood Accountability Boards or admonishment/dismissal. Sex offenses receive assessment and recommendations.

For example, you might want to include information on the types of youth served, prevention services you provided, your accomplishments, any barriers encountered, and what specifically JJCPA and/or YOYG funds paid for.

YOYG funds supported partial costs associated with the Santa Cruz Probation - Luna Evening Center program. The Evening Center is a short term, immediate intervention and detention alternative program for pre and post adjudicated youth. Services are provided to youth who are struggling to meet their terms of probation and/or committing new offenses. In Fiscal Year 2016-17, the Luna Evening Center served 61 unique youth for a total of 164 episodes with an average of 7 days each episode. JJCPA funds are used for an on-call staff at the Evening Center to assist in supervision, transportation and daily programming. JJCPA partially funds a community based agency to provide job training and mentorship workshops one day each week and also supervise youth participating park restoration projects throughout the county on Saturdays. This program provides a service that allows youth to contribute back to their community. One major accomplishment over the reporting period is that we have hired one full time staff who has worked part-time for the department for years. He has great experience with the LEC and has done a great job getting additional programs to come to the EC and has also had a great deal of success in getting the youth employed or at least job ready to be more successful interviewing and going through the hiring process. As for barriers, we had previously reported challenges with maintaining consistent staffing and now we have moved past that issue for the time being and everyone appears to be benefitting from a steady, reliable staff person assigned to the LEC.

For example, you might want to include information on the types of youth served, prevention services you provided, your accomplishments, any barriers encountered, and what specifically JJCPA and/or YOBG funds paid for.

YOBG funds were utilized to fund a portion of one (1) probation officer who travels visiting youth placed in out of county, out of state residential foster care and ranch camp programs. Typically out of state foster care and ranch camp placements are used as an alternative to a DJJ commitment for youth who are ineligible. In Fiscal Year 2016-17, Santa Cruz placed twenty-four (24) youth in out of state/out of county foster care, six (6) youth in ranch camp and three (3) youth in DJJ. YOBG funds paid for partial travel costs of parent/guardians to attend required family meetings of youth placed in out of state programs and ranch camp placements. Funding will also help pay for some medical costs such as dental care, eye care and/or medications. During the reporting period, the state enacted the Continuum of Care Reform (CCR) and as a result our department has been tasked with looking for out of home placement alternatives that are local if possible and shorter in length than previous traditional placements in congregate care. The impact of this reform is not fully known at this time but it has required our department and staff look at placement options in a different light and focus as much as possible on trying to find relatives and other natural supports who may be able to provide a home for the youth. Additionally, our department has begun a more proactive approach to prevent out of home placement if possible by facilitating Child and Family Team (CFT) meetings to ensure family engagement and to provide the youth and their families a distinct voice in the outcome of their case and at an earlier stage in the process.

Alternative to Detention (ATD) staff and Probation Officers provide community based supervision adhering to the prescripts of Risk Based Supervision. Youth are assigned to ATD staff and Probation Officers based on risk level assignments of low, moderate and high. For these youth, a thorough risk and needs assessment was conducted prior to disposition, or within 30 days following their disposition to identify their strengths and top presenting needs along with a supervision strategy type. This assessment assists the officer to make more informed referrals for appropriate interventions for youth. The probation officer may provide referrals for youth to programs such as drug education, teen parent mediation, community service, weekend restoration program or aggression replacement training sessions. The probation officer may refer parents to classes that address improving parenting skills that are culturally appropriate. The numbers of youth served in the past year dropped considerably and was consistent with trends across juvenile justice. In Fiscal Year 2015-16, the ATD staff provided services to 115 youth who were placed on home supervision. In Fiscal Year 2016-17, the number of youth ATD staff provided services to on home supervision was 54. Funds paid for a portion of one (1) FTE probation officer and a small portion of flexible funds that were accessible to assist youth with access to pro-social activities, drivers license fees or work clothing, etc.

The CAP goal is to increase local responses to juvenile delinquency and creative interventions that increase competencies among at-risk youth involved or at imminent risk to be involved in the justice system. JJCPA provides geographically based probation services in three target areas for first time and early offenders who qualify for diversion and informal interventions. The CAP provides risk based supervision strategies for youth on formal probation who reside in the program areas of San Lorenzo Valley, Live Oak and Watsonville. The program relies on the close partnership with law enforcement agencies, community resource centers, and community organizations providing services in the three distinct county locations. Services are built upon the Santa Cruz County Probation Department's Balanced and Restorative practice as well as the use of risk-based assessments that identify principle service needs based on assessed risk and protective factors. Additionally, Probation Officers in partnership with youth advocates who work at the Mountain Community and Live Oak resource centers, ensure youth meet their conditions of probation by creating linkages for them to competency building services. Community involvement in pre-adjudicated cases includes a Victim Offender Dialogue Program and Neighborhood Accountability Boards in each area. For youth whose offenses have harmed the school community, referrals are made to Teen Peer Court. Offender competency includes utilization of evidence-based programs such as: Aggression Replacement Training (A.R.T), a cognitive behavior self change model; drug treatment interventions utilizing motivational enhancement and cognitive behavioral therapy which are family focused interventions for both pre adjudicated and post adjudicated youth. Victim reparation and restitution payment are a program focus. Risk based supervision with services from the community centers is applied to small caseloads in each of the three community locations. Community work service projects, job mentorship and job placement services are provided on an individualized basis. It is worth noting that the Neighborhood Accountability Boards were not utilized the past year as much as they were in previous years and this is a trend that will likely result in resources tied to the Boards to be reallocated to other programming that seems to have more impact on the community.

The Continuous Quality Improvement (CQI) Supervisor focused on inter-rater reliability practices related to probation officers utilizing the JAIS and EPICS with youth they supervise. This Supervisor monitors outcomes and utilization data reports of assessments and risk levels generated by probation officers. The department is focusing on youth with a moderate and high level of risk and identifying appropriate interventions to meet their identified needs and strengths. The utilization of the JAIS supports the role and responsibilities of the probation officer as an "agent of change", who encourages pro-social behaviors and improves decision-making skills; enhances youth motivation through motivational interviewing skills; engage in practices consistent with risk, needs and responsivity principles (RNR); and consistently utilizes EPICS (Effective Practices in Community Supervision) through the use of a structured dialogue with youth. Funds paid for 48% FTE of a probation supervisor who will be monitoring utilization data of the JAIS assessment system and a power user and coach. This supervisor is also an identified coach for Effective Practices in Community Supervision (EPICS).
